

Domestic Extremist A Practical Guide To Winning The Culture War

Eliza Acton

Domestic Extremist Peachy Keenan, 2023-06-06 Spot-on, often satirical, always insightful, contributing editor of The American Mind and mother of a brood, Peachy Keenan argues that the only way we can save our families, ourselves, and the world—even California!—is by embracing our inner domestic extremists, and sweeping failed notions of third wave feminism and identity politics nonsense into the garbage can of history. In *This House We Believe Parents Are the Bosses of Their Kids* *Babies Are Good, More Babies Are Better* *Two Sexes Are Plenty* *Your Career Is Overrated* *Feminism Is How the Unpopular and Undateable Cope with Life* *Mainstream American Culture Destroys Families We Are Going to Win* We're in a culture war, and Peachy Keenan is not taking prisoners. This raucous new book is her rallying cry for normal people stuck in the foxholes and appalled by the status quo. Mothers and fathers, regular American families, men and women, can win this battle together. But a lot of ground has been lost. For decades, we stood around and watched as feminists and progressives steamrolled through our institutions— those formerly robust, now comically inept, pillars of civilization like our government, our schools, and, crucially, our families. With matchless insight and devastating humor, Peachy Keenan makes the case for domestic extremism—turning away from the diseased offerings of the elites, the media, Hollywood, your child's school, and Big Tech, and embracing a more human way of life. The life-changing magic of domestic extremism will spark joy and help you build a legacy that will enrich the lives of your (many) descendants.

The Powers of Speech David Bathrick, 1995-01-01 In this definitive study, David Bathrick examines East German culture both before and after the fall of the Berlin Wall in November 1989. Bathrick argues that dissident East German writers were unique among East European literary intellectuals in that they attempted “to open up alternative spaces for public speech from within [the] framework” of Marxism and state socialism. According to Bathrick, “the fact that some of them had been censored, hunted, questioned, and ridiculed does not belie the fact that they were also—and sometimes even simultaneously—privileged, nurtured, courted, and coddled. . . . It was precisely their function on ‘both sides’ of the power divide, as official and nonofficial voices within the whole, which defined a particular kind of intellectual in the GDR.” Bathrick applies his insights into this “particular kind of intellectual” to a wide range of topics. He compares oppositional culture in

East Germany to radical cultures elsewhere, examines the complex political and cultural relations of East and West Germany, traces the anguished history of the East German avant-garde, and describes the troubled effort to develop a revolutionary theatrical tradition in East Germany. The book also includes nuanced insights into the collapse of the East German political order in the late 1980s and more recent revelations about the collaboration of allegedly oppositional writers with the Stasi (state police). In his treatment of these and other issues, Bathrick enters hotly contested territory. Yet he brings clarity and scrupulous fairness to these issues that are still very much alive in Germany—and elsewhere—today.

Self-Help and Popular Religion in Modern American Culture Roy M. Anker, 1999-11-30 The second of two volumes on the relationship between popular religion and the self-help tradition in American culture, this book continues chronologically where the first left off. As with the first volume, this work focuses on the intersection of American history and popular religion and is intended as an introductory interpretive guide to major self-help figures and movements with origins in popular religious movements. This volume spans from Romanticism, the Gilded Age, and the history of Christian Science, with discussions of Mary Baker Patterson, Phineas Parkhurst Quimby, and Mary Baker Eddy, through Norman Vincent Peale and Robert Schuller. Peale and Schuller, with the exception of Evangelist Billy Graham, constitute the public face of mainstream American Protestantism and bring this two-volume study to its conclusion in the second half of the 20th century. This reference will serve as a valuable research tool for American religion and popular culture scholars. Together with the first volume, *Self-Help and Popular Religion in Early American Culture*, these two meticulously researched volumes clearly define and present the broad scope of the self-help tradition as it pervades American culture and as it developed and was influenced by popular religion. An extensive bibliography is included.

Pillars of the Nation Kristen E. Cheney, 2007-10 Publisher description

The End of Woman Carrie Gress, 2023-08-15 *Feminism Doesn't Empower Women. It Erases Them.* The bestselling author of *Theology of Home*, Carrie Gress shows that fifty years of radical feminism have solidified the primacy of the traditionally male sphere of life and devalued the attributes, virtues, and strengths of women. Feminism, the ideology dedicated to smashing the patriarchy, has instead made male lives the norm for everyone. After fifty years of radical feminism, we can't even define woman. In this powerful new book, Carrie Gress says what cannot be said: feminism has abolished women. Hulking trans women thrash female athletes. Mothers abort their baby girls. Drag queens perform obscene parodies of women. Females are enslaved for men's pleasure—or they enslave themselves. Feminism doesn't avert these tragedies; it encourages them. The carefree binge of self-absorption has left women exploited, unhappy, dependent on the state, and at war with men. And still, feminists cling to their illusions of liberation. But there are real answers. Real answers for real women. Carrie Gress—a wife, mother, and philosopher—punctures the myth of feminism, exposing its legacy of abuse, abandonment, and anarchy. From the serpent's seduction of Eve to Mary Shelley's *Frankenstein* to Kate Millett's lust,

violence, and insanity to Meghan Markle's havoc-ridden rise to royalty, Gress presents a history as intriguing as the characters who lived it. The answers women most desperately need, she concludes, are to be found precisely where they are most afraid to look. Only a rediscovery of true womanhood—and motherhood—can pull our society back from the brink. And happiness is possible only if women are open to making peace with men, with children, with God, and—no less difficult—with themselves. For feminism's victims, Gress is a welcoming voice in the darkness: The door is open. The lights are on. Come home.

Popular Reality John Hartley, 1996 Popular Reality is a major new study of journalism in modernity. For the first time, journalism is treated as a textual system, a 'mediasphere' without which modernity's twin energies - the pursuit of freedom and comfort - could not have enjoyed their social and global reach. John Hartley provides a wealth of theoretical analysis and historical detail to reconceptualize the significance of modern journalism from the point of view of its greatest creation - popular readerships. Popular Reality traces the vital but virtual links between journalism, politics and popular culture, showing how liberty, fraternity and equality are unthinkable without suburbia, sexualization and kissing. The book also provides a much-needed critique of academic and professional discourses on popular journalism, and provides new bridges between contemporary journalism and contemporary theory. Written with brilliance and wit, and richly illustrated from the pages and images of popular media new and old, Popular Reality presents an original, coherent and challenging vision of the postmodern public sphere that will set a new agenda for cultural studies and journalism schools alike.

The Everyday Life of the State Adam White, 2013-07-15 Today there are more states controlling more people than at any other point in history. We live in a world shaped by the authority of the state. Yet the complexion of state authority is patchy and uneven. While it is almost always possible to trace the formal rules governing human interaction to the statute books of one state or another, in reality the words in these books often have little bearing upon what is happening on the ground. Their meanings are intentionally and unintentionally misrepresented by those who are supposed to enforce them and by those who are supposed to obey them, generating a range of competing authorities, voices, and allegiances. *The Everyday Life of the State* explores this everyday transformation of state authority into multiple scripts, narratives, and political activities. Drawing upon case studies from across the Middle East, North Africa, and Asia, the chapters in this book investigate the many ways in which those subjects traditionally regarded as being weak, passive, and obedient manage not only to resist the authority of state actors but to actively subvert and appropriate it, in the process making, unmaking, and remaking the boundaries between state and society over and over again. Collectively, these chapters make an important contribution to the expanding literature on everyday politics. The state in society concept used in this volume has been

developed by political scientist Joel S. Migdal, the Robert F. Philip Professor of International Studies in the University of Washington's Henry M. Jackson School of International Studies.

Pro-Child Politics Katy Faust,2024-09-24 In Pro-Child Politics, Katy Faust has mobilized a collection of experts who apply her children-before-adults approach to their areas of expertise. From porn to debt, foreign policy to religious liberty, each chapter explains how a child-first approach isn't just nice—it's a necessity. Contributors explain how the needs of children are being ignored and propose practical, bold reforms that will ensure the next generation will not only survive, but thrive. Life - Dr. Abby Johnson (And Then There Were None, ProLove Ministries) Masculinity - Ken Harrison (Waterstone/Promise Keepers) Femininity - Peachy Keenan (Domestic Extremist) Family - Katy Faust (Them Before Us) Race - Delano Squires (The Heritage Foundation) Gender Ideology - Chris Elston (Billboard Chris) Porn - Jon Schweppe (American Principles Project) The Economy- Christopher Bedford (The Blaze) Taxes - Grover Norquist (Americans for Tax Reform) Debt - Phil Kerpen (American Commitment) Energy- The Honorable Neil Chatterjee ESG/DEI - Justin Danhof (Strive) Religious Liberty - Ashley McGuire (The Catholic Association) Education - Tiffany Justice (Moms for Liberty) Digital Technology - Maria Baer (The Colson Center for Christian Worldview) Environment - Chris Barnard (American Conservation Coalition) National Security- Dan Caldwell (Defense Priorities) Policing- Ari Hoffman (The Post Millennial and Talk Radio 570 KVI) Border Security/Immigration - Lora Ries (The Heritage Foundation) What does pro-child politics require? That every adult prioritizes the rights and well-being of children above their own self-interest. Because the only alternative is for children to sacrifice for adults. And that is a world characterized not only by damaged children, but widespread injustice. No other book on your shelf spans the topics covered in this collection. The diverse subjects addressed in these pages share one commonality: when we believe lies, children are victimized. Pro-Child Politics strips away the thin veneer of adult talking points to spotlight the most overlooked constituency: our children.

Culture of the Selfie Ana Peraica,2017-05-23 Culture of the Selfie is an in-depth art-historical overview of self-

portraiture, using a set of theories from visual studies, narratology, media studies, psychotherapy, and political principles. Collecting information from various fields, juxtaposing them on the historical time-line of artworks, the book focuses on space in self-portraits, shared between the person self-portraying and the viewer. What is the missing information of the transparent relationship to the self and what kind of world appears behind each selfie? As the 'world behind one's back' is gradually taking larger place in the visual field, the book dwells on a capacity of selfies to master reality, the inter-mediate way and, in a measure, oneself.

Understanding Higher Education Chrissie Bowie, Sioux McKenna, 2021-08-23 Drawing on the South African case, this book looks at shifts in higher education around the world in the last two decades. In South Africa, calls for transformation have been heard in the university since the last days of apartheid. Similar claims for quality higher education to be made available to all have been made across the African continent. In spite of this, inequalities remain and many would argue that these have been exacerbated during the Covid pandemic. *Understanding Higher Education* responds to these calls by arguing for a social account of teaching and learning by contesting dominant understandings of students as decontextualised learners premised on the idea that the university is a meritocracy. This book tackles the issue of teaching and learning by looking both within and beyond the classroom. It looks at how higher education policies emerged from the notion of the knowledge economy in the newly democratic South Africa, and how national qualification frameworks and other processes brought the country more closely into conversation with the global order. The effects of this on staffing and curriculum structures are considered alongside a proposition for alternative ways of understanding the role of higher education in society.

Life, Once More Sven Lütticken, 2005 These days, the term reenactment usually refers to live reconstructions of historic events, often of a military nature, performed by hobbyists. Civil War reenactments are the most popular in the United States, while European enthusiasts most often engage in recreations from the Napoleonic era. Visual art has its own versions. Recent years have brought many reenactments of historic performances from the 1960s and 1970s, works which otherwise would exist only in photos, videos, and text descriptions. But what exactly is being reenacted, and what is the effect of the representation? What meaning is resurrected out of this doubling? In the exhibition *Life, Once More*, contemporary works and texts by Mike Bidlo, Bik Van der Pol, Rod Dickinson, Omer Fast, Andrea Fraser, Robert Longo, Eran Schaerf, Catherine Sullivan and Barbara Visser reflect on these timely (and timeless) questions.

Outnumbered Jedediah Bila, 2011-05-10 The television talk-show host and journalist examines her life and career via the prism of her conservative views.

Aristocratic Education and the Making of the American Republic Mark Boonshoft, 2020-08-16 This book explains the rise, significance, and legacy of one of the most ubiquitous, significant, but forgotten institutions of early American life: the secondary school academy. Writing in 1788, Noah Webster bemoaned that in the United States the constitutions are republican, [while] the laws of education are monarchical. Instead of building public, common school systems aimed at fostering a widely informed citizenry, the Federalists in power founded academies. These privately run but state-chartered secondary schools offered a Europe-style education directed primarily at elites. The Federalists' nation-building project, it turns out, depended on these reactionary schools to simultaneously reestablish rule by a traditional elite and legitimize the hierarchy. This, they believed, was necessary to make both the proposed constitutional system function and the United States into a world power. The reaction against this aristocratic educational system helped transform education from a tool of elite privilege into a key component of self-government. Ultimately, reformers successfully argued that the revolutionary promise of equal citizenship required genuinely common, public education. Academies, though, undermined republican ideals. In their curriculum, pedagogy, and culture, academies looked to many Americans like a caricature of education in aristocratic Europe. Even the legal basis for academies-charters of incorporation-screamed of monarchy. Charters had long been a privilege granted by the king. By tracing the history of academies in the revolutionary era, Boonshoft offers a new understanding of the cultural origins of the Federalists' national vision, the nature of the American revolutionary settlement, and, in turn, the origins of public education--

Feminist Art Workers Cheri Gaulke, Laurel Klick, 2012 *Feminist Art Workers: A History* is the first comprehensive monograph to survey the groundbreaking work of the collaborative performance art group Feminist Art Workers. Founded in 1976 at the Woman's Building in Los Angeles, the group included Nancy Angelo, Candace Compton, Cheri Gaulke, Vanalyne Green and Laurel Klick. This 230-page publication brings together historic images, archival documents, personal recollections, and critical essays that illuminate artwork that addressed a wide range of issues including women's relationships, sexual violence, and economic rights. Often bringing their work directly to a non-art audience, Feminist Art Workers pioneered new artistic strategies such as tours, floats, phone calls and presented their work in unconventional venues such as cafeterias, conferences, buses and planes. Published by Otis College of Art and Design in conjunction with the exhibition *Doin' It in Public: Feminism and Art at the Woman's Building*, as part of the Getty initiative *Pacific Standard Time: Art in L.A. 1945-1980*. Those interested in the historical precedents of contemporary art practices such as collaboration,

interactive performance and community based art will discover roots in the work of Feminist Art Workers. Contributing writers include January Parkos Arnall, Temma Balducci, Betty Ann Brown, Meiling Cheng, Marlena Doktorczyk-Donohue, Osayi Endolyn, Joanna Gardner-Huggett, Andrew D. Hottle, Jennie Klein, Tirza True Latimer, Carey Lovelace, Marie B. Shurkus, Barbara T. Smith, Anne Swartz, and Terry Wolverton.
