Adapting to Climate Change W. Neil Adger,Irene Lorenzoni,Karen L. O'Brien,2009-06-25 This book presents the latest

science and social science research on whether the world can adapt to climate change.

Post-Traumatic Syndromes in Childhood and Adolescence Vittoria Ardino,2020-06-08 This book offers a comprehensive overview of up-to-date research and intervention techniques for traumatized youth highlighting uncharted territories in the field of developmental trauma and related post-traumatic reactions. One of the few titles to provide a critical and comprehensive framework which focuses specifically on post-traumatic syndromes in children and adolescents Presents the implications of PTSD in other settings (such as school and family) that are not fully addressed in other works International range of contributors, such as David Foy, Julian Ford, Jennifer Freyd, Giovanni Liotti, and Brigitte Lueger-Schuster, bring perspectives from both Europe and North America An essential resource for both researchers and practitioners

Learning to Teach Neville Bennett,Clive Carre,2002-01-31 The Leverhulme Primary Project reported here provides for the first time evidence on what is actually happening in teacher education today and on how novice teachers learn their craft. The book looks in detail at the experience of all the student teachers on one post graduate primary teacher training course and of those responsible for them in their university and in schools. It tracks them as they work to acquire the appropriate subject and pedagogical knowledge and as their own beliefs about teaching develop during the course. A final section follows some of the students through their first year as qualified teachers. Teacher education is going through a period of radical change and more people than ever before now have some responsibility, whether in higher education or in school for the training of teachers. None of them can afford to ignore the fresh insights into how teachers are made contained in this book.

Flipped Assessment Marika Toivola,2020-02-14 New release on the significance of assessment in a student-centered learning culture Flipped Assessment presents formative assessment as the most important factor in a student-centered learning culture. The book is built on practical experience and strong theoretical foundations. The story of the author developing her assessment practices offers guidance for readers who want to develop their own assessment practices and learning culture. The book also describes how assessment is used to support the students' self-regulation and to help them to reach their own, individual goals. At its best, assessment supports the learning of the whole community.

Greek Philosophers and Sophists in the Fourth Century A.D. Robert J. Penella,1990 Eunapius's Lives of Philosophers and Sophists is a work of considerable importance for the cultural history of the eastern Roman Empire in the fourth century A.D. In particular, it opens a window onto two central aspects of late ancient paganism, Iamblichan Neoplatonism and academic rhetorical culture. This volume offers a close study of the Lives , much of it amounting more or less to a commentary in continuous prose. Greek Philosophers and Sophists in the Fourth Century A.D. will interest classicists, students of the later Roman empire and those interested in the history of ancient philosophy.

Life in Europe Under Climate Change Joseph Alcamo, Jørgen E. Olesen, 2012-05-21 Life in Europe will indeed go on as the climate changes, but not in the same way as before. The air will be warmer, winds will change, patterns of rainfall and snowfall will alter, and sea level is likely to rise. These phenomena are already being seen. Europe will in the future experience marked changes in vegetation cover, increased floods along rivers and coastlines as well as more frequent droughts and forest fires, often leading to large societal costs. The changes will be minor in some cases, profound in others, but in any case, pervasive. This book uses the most up to date information issued by the IPCC (Intergovernmental Panel on Climate Change), and informs readers about these effects, as well as showing how Europe is contributing to attempts to slow the tempo of global climate change, and how it can adapt to the climate change that seems unavoidable. Life in Europe under Climate Change makes essential information on climate impacts in Europe accessible to a broad audience, including students, politicians, planners and members of non-governmental organizations.

Research Data Management Joyce M. Ray, 2014 It has become increasingly accepted that important digital data must be retained and shared in order to preserve and promote knowledge, advance research in and across all disciplines of scholarly endeavor, and maximize the return on investment of public funds. To meet this challenge, colleges and universities are adding data services to existing infrastructures by drawing on the expertise of information professionals who are already involved in the acquisition, management and preservation of data in their daily jobs. Data services include planning and implementing good data management practices, thereby increasing researchers' ability to compete for grant funding and ensuring that data collections with continuing value are preserved for reuse. This volume provides a framework to guide information professionals in academic libraries, presses, and data centers through the process of managing research data from the planning stages through the life of a grant project and beyond. It illustrates principles of good practice with use-case examples and illuminates promising data service models through case studies of innovative, successful projects and collaborations.

Deutsch Ohne Mühe Heute Hilde Schneider, 1987 This book aims to take users from scratch to having a solid base in

German within six months, and to feel comfortable with the language in as little as three months. In only half an hour a day users will move ahead naturally until they are at ease with all the basic structures needed for communication and become familiar with the basic words and grammar of German. The method comprises two phases: the passive phase, in which users simply repeat what they hear and read, and the active phase, in which users begin to create sentences and imagine themselves in a variety of everyday situations.

The Agile Mindset Svenja Hofert, 2023-11-15 Becoming more agile - that's what many companies want in order to remain successful in the digital age. But new processes, working methods and open-plan offices alone are not enough. The attitude, the mindset of the employees and, above all, of the managers is decisive for sustainable change. This attitude is characterized by a way of thinking and acting that productively copes with comprehensive changes and that not only takes people along but lets them grow. Svenja Hofert defines the term mindset and uses concrete approaches from developmental psychology as well as many checklists, case studies and interviews to show how managers develop their employees in a targeted manner in order to drive change forward together. This book is a translation of the original German 1st edition *Das Agile Mindset* by Svenja Hofert, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature in 2018. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.
