The Americas Kimberly J. Morse,2022-08-23 This two-volume encyclopedia profiles the contemporary culture and society of every country in the Americas, from Canada and the United States to the islands of the Caribbean and the many countries of Latin America. From delicacies to dances, this encyclopedia introduces readers to cultures and customs of all of the countries of the Americas, explaining what makes each country unique while also demonstrating what ties the cultures and peoples together. The Americas profiles the 40 nations and territories that make up North America, Central America, the Caribbean, and South America, including British, U.S., Dutch, and French territories. Each country profile takes an in-depth look at such contemporary topics as religion, lifestyle and leisure, cuisine, gender roles, dress, festivals, music, visual arts, and architecture, among many others, while also providing contextual information on history, politics, and economics. Readers will be able to draw cross-cultural comparisons, such as between gender roles in Mexico and those in Brazil. Coverage on every country in the region provides readers with a useful compendium of cultural information, ideal for anyone interested in geography, social studies, global studies, and anthropology.

Aspects of Latin American Spanish Dialectology Manuel Díaz-Campos,Sandro Sessarego,2021-01-12 This book focuses on contemporary sociolinguistic approaches to Spanish dialectology. Each of the authors draws on key issues of contemporary sociolinguistics, combining theoretical approaches with empirical data collection. Overall, these chapters address topics concerning language variation and change, sound production and perception, contact linguistics, language teaching, language policy, and ideologies. The authors urge us, as linguists, to take a stand on important issues and to continue applying theory to praxis so as to advance the frontiers of research in the field. This edited volume in honor of Professor Terrell A. Morgan is a means of celebrating an amazing friend, advisor, and human being, who has dedicated his career to teaching graduate and undergraduate students, performed key research in the field, and helped to further pedagogy in the classroom through his textbooks, seminars and websites.

Death in the Andes Mario Vargas Llosa,2024-07-02 Three men disappear in the Peruvian Andes where a guerilla group resides, in the Nobel Laureate's "intriguing political detective story . . . A terrific novel" (Kirkus Reviews). In Death in the

Andes, Mario Vargas Llosa returns to the world of Corporal Lituma and his assistant Tomas Correo, last seen in *Who Killed Palomino Molero?*. Through his chilling tale of mystery, Vargas Llosa weaves an intricate tapestry of stark political realities and age-old Andean mysticism. When three men go missing and are presumed dead, suspicion falls on the Peruvian Marxist group Sendero Luminoso, or Shining Path. As Lituma and Correo investigate, they find themselves embroiled in the remote corners of an isolated community, which is itself caught in the web of violent guerrilla warfare. Part detective thriller, part political allegory, *Death in the Andes* shimmers with an undercurrent of magical realism. The narrative's panoramic view of Peruvian society illuminates its violent present, deeply entrenched in its rich yet haunting past.

Situatedness and Performativity Raquel Pacheco Aguilar,Marie-France Guénette,2021-05-31 Translating and interpreting are unpredictable social practices framed by historical, ethical, and political constraints. Using the concepts of situatedness and performativity as anchors, the authors examine translation practices from the perspectives of identity performance, cultural mediation, historical reframing, and professional training. As such, the chapters focus on enacted events and conditioned practices by exploring production processes and the social, historical, and cultural conditions of the field. These outlooks shift our attention to social and institutionalized acts of translating and interpreting, considering also the materiality of bodies, artefacts, and technologies involved in these scenes.

Beauty Salon Mario Bellatin,2021-10-19 Mario Bellatin's complex dreamscape, offered here in a brand-new translation, presents a timely allegorical portrait of the body and society in decay, victim to inscrutable pandemic. In a large, unnamed city, a strange, highly infectious disease begins to spread, afflicting its victims with an excruciating descent toward death, particularly unsparing in its assault of those on society's margins. Spurned by their loved ones and denied treatment by hospitals, the sick are left to die on the streets until a beauty salon owner, whose previous caretaking experience extended only to the exotic fish tanks scattered among his workstations, opens his doors as a refuge. In the ramshackle Morgue, victim to persecution and violence, he accompanies his male guests as they suffer through the lifeless anticipation of certain death, eventually leaving the wistful narrator in complete, ill-fated isolation.

Historia de las misericordias de Dios en un alma Nancy López Peña,2017-09-10 Este libro es una autobiografía de Santa Laura Montoya, de especial interés para las Misioneras lauritas y para muchos fieles católicos que reconocen en la Madre el testimonio de una vida santa, consagrada al servicio de las poblaciones más vulnerables. Esta obra trasciende el ámbito de la fe y es mucho más que el relato autobiográfico de la primera santa colombiana: es un texto literario en el que la autora conjuga de manera magistral sus experiencias vitales, espirituales, familiares y vocacionales, con reflexiones profundas sobre

el sentido de la vida, la presencia de Dios entre los hombres, el servicio a los demás y el lugar de la mujer en la sociedad.

Miradas locales y problemas regionales de seguridad y justicia en América Latina Pablo Emilio Angarita Cañas, María Laetitia Mariño von Hildebrand, Fernando Oliveros Juan, Martha Valderrama Barrera, Briceño-León Roberto, Liza Zúñiga Collado, Enrique Rodríguez Trujano, Susana Navarro, Paula. Martínez, Judith Erazo, Julia E. Monárrez Fragoso, Walter Alejandro González Gramajo, Donny Meertens, Alberto Brunori, Verónica Martínez-Solares, Markus Gottsbacher, Lucía Gutiérrez-Bonilla Martha, Carlos Silva Forné, 2021-11-17 La obra que el lector tiene en sus manos es una invitación a revisar y a transformar la relación de los habitantes de los países de América Latina con el sistema estatal de administración de justicia y con las manifestaciones comunitarias y ancestrales de justicia. El libro tiene una perspectiva empírica, que es consciente del impacto negativo que tienen los conflictos, la violencia y la criminalidad en la vida de las personas y, a su vez, propositiva, que busca valorar los procesos sociales de resistencia y las prácticas innovadoras de las comunidades y los estados en busca de la equidad y justicia material.

Profetisa de la modernidad Margarita Ramírez Jefferson,2024-11-27 A través del estudio de la publicidad en el Oncenio de Leguía, este libro revisa el concepto de modernidad como movimiento cultural, social e histórico, su rol como impulsor de la comunicación y el consumo, y su relevancia en el proceso de modernización, bajo la influencia de la clase ilustrada europea y los poderes políticos y económicos de los Estados Unidos, así como del proyecto Patria Nueva. El objetivo principal de Profetisa de la modernidad es describir qué componentes políticos, ideológicos, económicos, sociales, culturales y estéticos contribuyeron y distinguieron el proceso de modernización en el Perú en esa época.

Myths of Harmony Marixa Lasso,2007-08-12 This book centers on a foundational moment for Latin American racial constructs. While most contemporary scholarship has focused the explanation for racial tolerance-or its lack-in the colonial period, Marixa Lasso argues that the key to understanding the origins of modern race relations are to be found later, in the Age of Revolution.Lasso rejects the common assumption that subalterns were passive and alienated from Creole-led patriot movements, and instead demonstrates that during Colombia's revolution, free blacks and mulattos (pardos) actively joined and occasionally even led the cause to overthrow the Spanish colonial government. As part of their platform, patriots declared legal racial equality for all citizens, and promulgated an ideology of harmony and fraternity for Colombians of all colors. The fact that blacks were mentioned as equals in the discourse of the revolution and later served in republican government posts was a radical political departure. These factors were instrumental in constructing a powerful myth of racial equality-a myth that would fuel revolutionary activity throughout Latin America.Thus emerged a historical paradox central to Latin American nation-building: the coexistence of the principle of racial equality with actual racism at the very inception of the republic. Ironically, the discourse of equality meant that grievances of racial discrimination were construed as unpatriotic and divisive acts-in its most extreme form, blacks were accused of preparing a race war. Lasso's work brings much-needed attention to the important role of the anticolonial struggles in shaping the nature of contemporary race relations and racial identities in Latin America.

Oxford Guide to the Languages of the Central Andes Matthias Urban,2024-12-27 This volume presents the most

comprehensive overview in English of the languages of the Central Andes, spoken primarily in Peru and Bolivia. Efforts to describe and document Central Andean languages, as well as philological research into colonial documentation and texts, have blossomed in recent decades; here, the major protagonists and drivers of these exciting developments are given the opportunity to showcase their research achievements in one volume. Following an introductory part providing background information on the region and its cultural and linguistic diversity, chapters in Part II provide extensive descriptions of individual languages that not only reflect current knowledge, but also add to our understanding of their phonological and grammatical structures. The third part offers substantial typological comparative analyses that reflect the pivotal role Central Andean languages have played in investigations into topics of current theoretical interest, such as the notions of linguistic complexity and evidentiality. Part IV explores topics relating to the history of the language from early prehistory to the colonial period, while chapters in the final part shed light on the cultural, geographic, and sociolinguistic settings in which Central Andean languages are spoken, and discuss language contact situations and language ideologies. The Oxford Guide to the Languages of the Central Andes will be of interest not only to students and researchers specializing in Andean languages, but also to typologists, comparative linguists, and linguistic anthropologists.
