

European History From The Late 5th Century To About 135

Edward Augustus Freeman

General Sketch of European History Edward Augustus Freeman, 1880

European Literary History Maarten De Pourcq, Sophie Levie, 2018-02-28 This clear and engaging book offers readers an introduction to European Literary History from antiquity through to the present day. Each chapter discusses a short extract from a literary text, whilst including a close reading and a longer essay examining other key texts of the period and their place within European Literature. Offering a view of Europe as an evolving cultural space and examining the mobility and travel of literature both within and out of Europe, this guide offers an introduction to the dynamics of major literary networks, international literary networks, publication cultures and debates, and the cultural history of 'Europe' as a region as well as a concept.

"The" Chief Periods of European History Edward Augustus Freeman, 1886

A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age Oliver J. Thatcher, Edgar Holmes McNeal, 1905 A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age It will be observed that we have made use chiefly of documents, quoting from chronicles only when it seemed absolutely necessary. An exception to this general principle is found in section I, where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered; but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus, Gregory, Einhard, and Widukind. In the matter of form (translation, omissions, arrangements, notes, etc.), we were guided by considerations of the purpose of the book. The style of most of the documents in the original is involved, obscure, bombastic, and repetitious. A faithful rendition into English would often be quite unintelligible. We have endeavored to make a clear and readable translation, but always to give the correct meaning. If we have failed in the latter it is not for want of constant effort. We have not hesitated to omit phrases and clauses, often of a parenthetical nature, the presence of which in the translation would only render the passage obscure and obstruct the thought. As a rule we have given the full text of the body of the document, but we have generally omitted

the first and last paragraphs, the former containing usually titles and pious generalities, and the latter being composed of lists of witnesses, etc. We have given a sufficient number of the documents in full to illustrate these features of mediæval diplomatics. All but the most trivial omissions in the text (which are matters rather of form of translation) are indicated thus: ... Insertions in the text to explain the meaning of phrases are inclosed in brackets []. Quotations from the Bible are regularly given in the words of the Authorized Version, but where the Latin (taken from the Vulgate) differs in any essential manner, we have sometimes translated the passage literally. Within each section the documents are arranged in chronological order, except in a few cases where the topical arrangement seemed necessary. We believe that the explanatory notes in the form of introductions and foot-notes will be found of service; they are by no means exhaustive, but are intended to explain the setting and importance of the document and the difficult or obscure passages it may contain. The reference to the work or the collection in which the original is found is given after the title of practically every document; the meaning of the references will be plain from the accompanying bibliography. The original of nearly all the documents is in Latin; some few are in Greek, Old French, or German, and in such cases the language of the original is indicated. It is impossible, of course, to give explicit directions as to the use of the book, other than the very obvious methods of requiring the student to read and analyze the documents assigned in connection with the lesson in the text-book, and of making clear to him the relation of the document to the event. It may be possible also for the teacher to give the student some notion of the meaning of historical method; e.g., the necessity of making allowance for the ignorance or the bias of the author in chronicles, or the way in which a knowledge of institutions is deduced from incidental references in documents. Suggestions of both sorts will be found in the introduction and notes. The teacher should insist on the use of such helps as are found in the book: notes, cross-references, glossary, etc. Groups of documents can be used to advantage in topical work: assigned topics worked up from authorities can be illustrated by documents selected from the book; e.g., imperial elections, papal elections, the Normans in Sicily, history of the Austrian dominions, Germans and Slavs on the eastern frontier, relations of the emperors and the popes before the investiture strife, etc.

The Huns, Rome and the Birth of Europe Hyun Jin Kim, 2013-04-18 The Huns have often been treated as primitive barbarians with no advanced political organisation. Their place of origin was the so-called 'backward steppe'. It has been argued that whatever political organisation they achieved they owed to the 'civilizing influence' of the Germanic peoples they encountered as they moved west. This book argues that the steppes of Inner Asia were far from 'backward' and that the image of the primitive Huns is vastly misleading. They already possessed a highly sophisticated political culture while still in Inner Asia and, far from being passive recipients of advanced culture from the West, they passed on important elements of Central Eurasian culture to early medieval Europe, which they helped create. Their expansion also marked the beginning of a millennium of virtual monopoly of world power by empires originating in the steppes of Inner Asia. The rise of the Hunnic

Empire was truly a geopolitical revolution.

A History of Law in Europe Antonio Padoa-Schioppa,2017-08-03 The first English translation of a comprehensive legal history of Europe from the early middle ages to the twentieth century, encompassing both the common aspects and the original developments of different countries. As well as legal scholars and professionals, it will appeal to those interested in the general history of European civilisation.

The European Home Falk Pingel,Michail Boitsev,Georg-Eckert-Institut für Internationale Schulbuchforschung,Council of Europe,Council of Europe. Council for Cultural Co-operation,2000-01-01 This study is based upon a cross-section of secondary-school history textbooks from fourteen european countries, with differing traditions of educational literature: the Czech Republic, England and Wales, Finland, France, Lithuania, Germany, Hungary, Italy, the Netherlands, Norway, Poland, the Russian Federation and Spain. Examples from other countries are also discussed, in particular some of the Balkan countries, where the parallel process of building a national identity while also establishing a European one is taking place. Re-thinking Europe Nele Bemong,Mirjam Truwant,Pieter Vermeulen,2008 Re-Thinking Europe sets out to investigate the place of the idea of Europe in literature and comparative literary studies. The essays in this collection turn to the past, in which Europe became synonymous with a tradition of peace and tolerance beyond national borders, and enter into a critical dialogue with the present, in which Europe has increasingly become associated with a history of oppression and violence. The different essays together demonstrate how the idea of Europe cannot be thought apart from the tension between the regional and the global, between nationalism and pluralism, and can therefore be re-thought as an opportunity for an identity beyond national or ethnic borders. Engaging contemporary discourses on hybrid, postcolonial, and transnational identity, this volume shows how literature can function as both a vital tool to forge new identities and a power subversive of such attempts at identity-formation. Like Europe, it is always marked by the tension between integration and resistance. The book will be of interest to students and scholars of modern literature, comparative literature, and European studies, as well as people concerned with cultural memory and the relation between literature and cultural identity.

Democracy in Modern Europe Jussi Kurunmäki,Jeppe Nevers,Henk te Velde,2018-06-19 As one of the most influential ideas in modern European history, democracy has fundamentally reshaped not only the landscape of governance, but also social and political thought throughout the world. Democracy in Modern Europe surveys the conceptual history of democracy in modern Europe, from the Industrial Revolutions of the nineteenth century through both world wars and the rise of welfare states to the present era of the European Union. Exploring individual countries as well as regional dynamics, this volume comprises a tightly organized, comprehensive, and thoroughly up-to-date exploration of a foundational issue in European political and intellectual history.

A History of Greek Philosophy: Volume 3, The Fifth Century Enlightenment, Part 1, The Sophists William Keith Chambers Guthrie,1971 The third volume of Professor Guthrie's great history of Greek thought, entitled *The Fifth-Century Enlightenment*, deals in two parts with the Sophists and Socrates, the key figures in the dramatic and fundamental shift of philosophical interest from the physical universe to man. Each of these parts is now available as a paperback with the text, bibliography and indexes amended where necessary so that each part is self-contained. The Sophists assesses the contribution of individuals like Protagoras, Gorgias and Hippias to the extraordinary intellectual and moral ferment in fifth-century Athens. They questioned the bases of morality, religion and organized society itself and the nature of knowledge and language; they initiated a whole series of important and continuing debates, and they provoked Socrates and Plato to a major restatement and defence of traditional values.

How The Irish Saved Civilization Thomas Cahill,2011-09-01 'Shamelessly engaging, effortlessly scholarly, utterly refreshing' Thomas Keneally, author of *Schindler's Ark* 'A small treasure' New York Times 'This sweepingly confident overview is more entertainingly told than any previous account' Sunday Telegraph Ireland played the central role in maintaining European culture when the dark ages settled on Europe in the fifth century: as Rome was sacked by Visigoths and its empire collapsed, Ireland became 'the isle of saints and scholars' that enabled the classical and religious heritage to be saved. In his compelling and entertaining narrative, Thomas Cahill tells the story of how Irish monks and scribes copied

the manuscripts of both pagan and Christian writers, including Homer and Aristotle, while libraries on the continent were lost forever. Bringing the past and its characters to life, Cahill captures the sensibility of the unsung Irish who relaunched civilisation.
