De Sphaera of Johannes de Sacrobosco in the Early Modern Period Matteo Valleriani,2020-01-01 This open access book explores commentaries on an influential text of pre-Copernican astronomy in Europe. It features essays that take a close look at key intellectuals and how they engaged with the main ideas of this qualitative introduction to geocentric cosmology. Johannes de Sacrobosco compiled his Tractatus de sphaera during the thirteenth century in the frame of his teaching activities at the then recently founded University of Paris. It soon became a mandatory text all over Europe. As a result, a tradition of commentaries to the text was soon established and flourished until the second half of the 17th century. Here, readers will find an informative overview of these commentaries complete with a rich context. The essays explore the educational and social backgrounds of the writers. They also detail how their careers developed after the publication of their commentaries, the institutions and patrons they were affiliated with, what their agenda was, and whether and how they actually accomplished it. The editor of this collection considers these scientific commentaries as genuine scientific works. The contributors investigate them here not only in reference to the work on which it comments but also, and especially, as independent scientific contributions that are socially, institutionally, and intellectually contextualized around their authors.

The First Men in the Moon H. G. Wells,2005-03-31 When penniless businessman Mr Bedford retreats to the Kent coast to write a play, he meets by chance the brilliant Dr Cavor, an absent-minded scientist on the brink of developing a material that blocks gravity. Cavor soon succeeds in his experiments, only to tell a stunned Bedford the invention makes possible one of the oldest dreams of humanity: a journey to the moon. With Bedford motivated by money, and Cavor by the desire for knowledge, the two embark on the expedition. But neither are prepared for what they find - a world of freezing nights, boiling days and sinister alien life, on which they may be trapped forever.

Wooden Eyes Carlo Ginzburg,2002-01-01 I am a Jew who was born and who grew up in a Catholic country; I never had a religious education; my Jewish identity is in large measure the result of persecution. This brief autobiographical statement is a key to understanding Carlo Ginzberg's interest in the topic of his latest book: distance. In nine linked essays, he addresses the question what is the exact distance that permits us to see things as they are? To understand our world, suggests Ginzburg, it is necessary to find a balance between being so close to the object that our vision is warped by familiarity or so far from it that the distance becomes distorting. Opening with a reflection on the sense of feeling astray, of familiarization

and defamiliarization, the author goes on to consider the concepts of perspective, representation, imagery, and myth. Arising from the theme of proximity is the recurring issue of the opposition between Jews and Christians - a topic Ginzberg explores with an array of examples, from Latin translations to Greek and Hebrew scriptures to Pope John Paul II's recent apology to the Jews for anti-Semitism. Moving with equal acuity from Aristotle to Voltaire, touching on philosophy, history, philology and ethics, and including examples from present-day popular culture, *Wooden Eyes* offers a new perspective on the universally relevant theme of distance. House of Small Shadows Adam Nevill, 2013-10-10 *House of Small Shadows* is the disturbing novel about a modern phobia - the fear of dolls and puppets - from award-winning horror author Adam Nevill. The Red House: home to the damaged genius of the late M. H. Mason, master taxidermist and puppeteer, where he lived and created some of his most disturbing works. The building and its treasure trove of antiques is long forgotten, but the time has come for his creations to rise from the darkness. Catherine Howard can't believe her luck when she's invited to value the contents of the house. When she first sees the elaborate displays of posed, costumed and preserved animals and macabre puppets, she's both thrilled and terrified. It's an opportunity to die for. But the Red House has secrets, secrets as dreadful and dark as those from Catherine's own past. At night the building comes alive with noises and movements: footsteps, and the fleeting glimpses of small shadows on the stairs. And soon the barriers between reality, sanity and nightmare begin to collapse . . . 'Adam Nevill is a fantastic storyteller, a master of slow-building tension, and he's written a fever dream of a book. *House of Small Shadows* is chilling, disorienting, and deeply creepy.' - Scott Smith, author of *The Ruins*

Card-Carrying Christians Rebecca C. Bartel, 2021-05-24 In the waning years of Latin America's longest and bloodiest civil war, the rise of an unlikely duo is transforming Colombia: Christianity and access to credit. In her exciting new book, Rebecca C. Bartel details how surging evangelical conversions and widespread access to credit cards, microfinance programs, and mortgages are changing how millions of Colombians envision a more prosperous future. Yet programs of financialization propel new modes of violence. As prosperity becomes conflated with peace, and debt with devotion, survival only becomes possible through credit and its accompanying forms of indebtedness. A new future is on the horizon, but it will come at a price.

Pride and Pudding Regula Ysewijn, 2016-02-24 The life and times of the Great British Pudding, both savoury and sweet - with 80 recipes re-created for the 21st century home cook Jamie Oliver says of Pride and Pudding 'A truly wonderful thing of beauty, a very tasty masterpiece!' BLESSED BE HE THAT INVENTED PUDDING The great British pudding, versatile and wonderful in all its guises, has been a source of nourishment and delight since the days of the Roman occupation, and probably even before then. By faithfully recreating recipes from historical cookery texts and updating them for today's kitchens and ingredients, Regula Ysewijn has revived over 80 beautiful puddings for the modern home cook. There are ancient savoury dishes such as the Scottish haggis or humble beef pudding, traditional sweet and savoury pies, pastries, jellies, ices, flummeries, junkets, jam roly-poly and, of course, the iconic Christmas pudding. Regula tells the story of each one, sharing the original recipe alongside her own version, while paying homage to the cooks, writers and moments in history that helped shape them.

New Essays on Leibniz Reception Ralph Krömer, Yannick Chin-Drian, 2012-03-13 This book is a collection of essays on the reception of Leibniz's thinking in the sciences and in the philosophy of science in the 19th and 20th centuries. Authors studied include C.F. Gauss, Georg Cantor, Kurd Lasswitz, Bertrand Russell, Ernst Cassirer, Louis Couturat, Hans Reichenbach, Hermann Weyl, Kurt Gödel and Gregory Chaitin. In addition, we consider concepts and problems central to Leibniz's thought and that of the later authors: the continuum, space, identity, number, the infinite and the infinitely small, the projects of a universal language, a calculus of logic, a mathesis universalis etc. The book brings together two fields of research in the history of philosophy and of science (research on Leibniz, and the research concerned with some major developments in the 19th and 20th centuries); it describes how Leibniz's thought appears in the works of these authors, in order to better understand Leibniz's influence on contemporary science and philosophy; but it also assesses that reception critically, confronting it in particular with the current state of Leibniz research and with the various editions of his work.

Translation Peripheries Anna Gil Bardají, Pilar Orero, Sara Rovira Esteva, 2012 This book investigates different elements which have direct implications for translations but are not the actual text. These features are usually presented in a particular format - written, oral, digital, audio-visual or musical. They are furnished with, for example, illustrations, prologues, introductions, indexes or appendices, or are accompanied by an ensemble of information outside the text such as

an interview with the author, a general or specialist press review, an advertisement or a previous translation. However, the boundaries of paratextuality are not limited to the aforementioned examples, since paratextuality has a direct implication for areas as diverse as censorship, a contracting economy, decisions taken by the various actors in the political or cultural context in which the text occurs. Therefore it is obvious that most of the key concepts in Translation Studies cannot be fully understood without reference to the part played by paratextual elements, examined here taking into account different language pairs from Turkish to Catalan. The content presented in this book is gathered from a conference on Paratextual Elements in Translation, held at the Universitat Autònoma de Barcelona in 2010.
