Principles of European Insurance Contract Law (PEICL) Project Group Restatement of European Insurance Contract Law,2009 In this volume, the Project Group Restatement of European Insurance Contract Law presents its Principles of European Insurance Contract Law (PEICL). These principles were submitted to the European Commission as a Draft Common Frame of Reference of European Insurance Contract Law (DCFR Insurance). The volume comprises the PEICL/DCFR Insurance, as well as translations into Czech, Dutch, French, German, Greek, Hungarian, Italian, Polish, Portuguese, and Spanish. It sets out the approach used by the Project Group, how the PEICL/DCFR Insurance relates to the overall DCFR, the participation of the Project Group in the CoPECL (Common Principles of European Contract Law) Network, as well as the general structure and characteristics of the PEICL/DCFR Insurance. The Project Group has also drafted the PEICL/DCFR Insurance as a model for an Optional Instrument of European Insurance Contract Law.

No B.S. Wealth Attraction In The New Economy Dan S. Kennedy,2010-06-01 The old economy is shattered, and GONE FOREVER. It's never coming back as it was, and in its place a generally tougher, more demanding marketplace is emerging. HOWEVER, when it comes to wealth, one instrumental reality is unchanged: No matter the economic conditions—booms or recessions, including the fast-emerging New Economy—there is wealth. And who better to show you how to lure, bait, attract, and become a magnet for it than “Millionaire Maker” Dan S. Kennedy? Kennedy covers: • How to experience The Phenomenon --- attract more wealth in the next 12 months than in the previous 12 years! • Wealth Inhibition—do you suffer from it? • Why Positive Thinking alone is worthless • Your #1 Entrepreneurial Responsibility • Is there a ‘dirty little secret’ behind many wealthy entrepreneurs? • The worst of all wealth-defeating habits • Are you an ‘opportunity thinker’ --- or are you guilty of ‘outcome thinking’? • “ Do what you love and the money will follow” B.S. that's hazardous to your wealth • How to Stop playing Blind Archery • 12 Ways To Increase Your ‘Personal Value’ • Why you must STOP thinking about Income! • The 90 Day Experiment that may change your life forever

Because We Say So Noam Chomsky,2015-08-27 Because We Say So is Noam Chomsky's essential counter punch to

American hegemony. In 1962, the eminent statesman Dean Acheson enunciated a principle that has dominated global politics ever since: that no legal issue arises when the United States responds to a challenge to its 'power, position, and prestige'. In short, whatever the world may think, U.S. actions are legitimate because they say so. Spanning the impact of Edward Snowden's whistleblowing and Palestinian-Israeli relations to deeper reflections on political philosophy and the importance of a commons to democracy, *Because We Say So* takes American imperialism head on. 'Noam Chomsky is one of a small band of individuals fighting a whole industry. And that makes him not only brilliant, but heroic' Arundhati Roy 'The world's greatest public intellectual' Observer

Flip the Script Oren Klaff, 2019-08-27 This book will change the way you think about persuasion, and have you closing deals in no time. These days, it's just not enough to make a great pitch. Over decades of being marketed, pitched, sold (and lied) to, we've grown resistant to sales persuasion. The moment we feel pressured to buy, we pull away. And if we're told what to think, our defences go up. That's why Oren Klaff, bestselling author of *Pitch Anything*, has devised a new approach to persuasion based on a simple insight: everyone trusts their own ideas. Instead of pushing your idea on your buyer, guide them to discover it on their own and they will get excited about it. They'll buy in and feel good about the chance to work with you. In *Flip the Script*, Klaff breaks down this insight into a series of actionable steps. You will learn how to: *Achieve Status Alignment: Use a status tip-off, a strategically placed remark that identifies you as an insider who can relate to your client's concerns. *Close the Certainty Gap: Allay your buyer's fears about going into business with you by delivering a flash roll, proving your expertise in the domain. *Present Your Idea as Plain Vanilla: Don't overhype your product as a first-of-its-kind solution. The more you emphasise the familiar, reliable elements of your product, the easier you make it for your buyer to say yes. Packed with examples of the long-shot, often hilarious deals that Klaff has pulled off over the years, *Flip the Script* is the most entertaining, informative masterclass in dealmaking you'll find anywhere. It will transform your approach to pitching, leaving you fully prepared to raise money, seal deals and keep your cool in the toughest business situations.

Burn the Business Plan Carl J. Schramm, 2018-01-16 Business startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America, this "thoughtful study of 'how businesses really start, grow, and prosper'...dispels quite a few business myths along the way" (Publishers Weekly). Carl Schramm, the man described by *The Economist* as "The Evangelist of Entrepreneurship," has written a myth-busting guide packed with tools and techniques to help you get your big idea off the ground. Schramm believes that entrepreneurship has been misrepresented by the media, business books, university programs, and MBA courses. For example, despite the emphasis on the business plan in most business schools, some of the most successful companies in history—Apple, Microsoft, Google, Facebook, and hundreds of others—achieved success before they ever had a business plan. *Burn the Business Plan* punctures the myth of the cool, tech-savvy twenty-something entrepreneur with nothing to lose and venture capital to burn.

In fact most people who start businesses are juggling careers and mortgages just like you. The average entrepreneur is actually thirty-nine years old, and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty. Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started. Filled with stories of successful entrepreneurs who drew on real-life experience rather than academic coursework, *Burn the Business Plan* is the guide to starting and running a business that will actually work for the rest of us.

Investment in Human Capital Theodore William Schultz, 1970 Monograph arguing that investment in human resources through education (human capital formation) and the cost of and resource allocation to research are important sources of economic growth neglected by classical economic theory - covers the rate of return in higher education in the USA, the effect on income distribution, etc., and attempts to show that the slowness of institutions to adjust to new demands made by the rise in the economic value of man is the key to important public problems. A Common Law for Europe Gian Antonio Benacchio, Barbara Pasa, 2005-01-01 The Europeanization of European private law has recently received much scrutiny and attention. Harmonizing European systems of law represents one of the greatest challenges of the 21st century. In effect, it is the adaptation of national laws into a new supra-national law, a process that signifies the beginning of a new age in Europe. This volume seeks to frame the creation of a new European Common Law in the context of recent events in European integration. The work is envisioned as a guide and written in a research friendly style that includes text inserts and an extensive bibliography. The detailed analysis and research this volume accomplishes is invaluable to those scholars and lawmakers who are the next generation of European leaders.

The Politics of a European Civil Code Martijn Willem Hesselink, 2006-01-01 With a significant number of claims having been brought under NAFTA Chapter 11 in the last 3 years, public and professional interest in this topic has been growing significantly. Quite simply, anyone doing business under NAFTA, or anyone representing a company doing business under NAFTA, must be completely familiar with the provisions of Chapter 11. Combining expert commentary with complete primary source materials and case law, Kluwer Law International's *Investment Disputes Under NAFTA* is the must-have resource for anyone planning - or already involved in - a Chapter 11 claim. NAFTA's Chapter 11, like many treaties, sets forth rules for arbitration. Current procedures have been developed, in part, as cases have arisen and been resolved. This book enables anyone interested in these procedures to know exactly the current state of the law. Only *Investment Disputes Under NAFTA* delivers: Article-by-Article explanations of the ins and outs of Chapter 11; a valuable collection of key case law that has been affected by Chapter 11; accurate and thorough cross-referencing to help you quickly and easily find all relevant material; and logical organization of all materials as well as a complete index and table of cases. This one-of-a-kind resource is practice based and user-friendly. It is the only product to collect the body of NAFTA jurisprudence. It also incorporates

substantial references to decisions in other investment treaty cases, decisions by mixed claims commissions and other arbitral bodies, Iran-U.S. Claims Tribunal jurisprudence, and International Court of Justice decisions. Kluwer Law International's *Investment Disputes Under NAFTA* also contains charts presenting valuable information such as the arbitrators in each case, the rules under which the arbitrations have been conducted, and the remedies granted in each particular case

The Politics of the Draft Common Frame of Reference Alessandro Somma, 2009-01-01 This collection of essays reflects both the diversity of the group's work and the common thread that runs through it. The core claim here is that the DCFR, despite the Commission's characterization of its proposals as purely technical, cannot escape politics. The intent is to critically identify and evaluate the model of social justice underlying the DCFR.

Towards a European Contract Law Reiner Schulze, Jules Stuyck, 2011-08-29

A Factual Assessment of the Draft Common Frame of Reference Luisa Anatonlioli, Francesca Fiorentini, 2010-12-23 This book contains a case-based assessment of the Draft Common Frame of Reference carried out by the Common Core Evaluating Group, which gathers a number of well-established and younger scholars coming from Eastern and Western countries of the European Union using the working method of the research project *The Common Core of European Private Law* (www.common-core.org). The aim of the assessment is to test how the Draft Common Frame of Reference could work when applied in different national legal systems. To this end, a number of factual situations, i.e. hypothetical cases, have been drafted by the authors and solved through the application of both national rules and rules of the DCFR. Thereby, similarities and differences in the outcome of the cases have been analysed, together with difficulties - if any - in the application of the Principles of European Law. The Common Core assessment has been carried out as part of the Joint Network of European Private Law Project (CoPECL), financed by the EU Commission.

A comprehensive selection of important cases and legislation is supported by Weatherill's lively commentary and pertinent questions, which explain the materials and stimulate

The European Civil Code Hugh Collins,2008-11-20 Hugh Collins argues that the European Union should develop a civil code to provide uniform rules for contracts, property rights and protection against civil wrongs, thus drawing together the differing national traditions with respect to the detailed regulation of civil society. The benefits of such a code would lie not so much in facilitating cross border trade, but in establishing foundations for a denser network of transnational relations of civil society, which in turn would help to overcome the present popular resistance to effective and functional political institutions at a European level. These principled foundations for a more inclusive and less balkanised civil society in Europe also provide elements of a required European social model that offers necessary safeguards for consumers, workers and disadvantaged groups against the pressures of market forces in an increasingly global economic system.

The Need for a European Contract Law J. M. Smits,2005 The aim of this book is to discuss the need for a uniform contract law in Europe. At present it is debated to what extent uniformity of law is required from the economic perspective. The view of the European Commission seems to be that diversity of law stands in the way of a proper functioning of the internal market, but this view does not seem to be shared by business: in the reactions to the 'Communication on European Contract Law (2001)', it was striking to see that most companies do not consider the present diversity to be a true barrier to trade. This book offers five different perspectives on the need for a uniform contract law. These perspectives include economics, behavioral law and economics, psychology and law.

The Principles of European Contract Law, Parts I - III Student Edition Ole Lando,Hugh Beale,André Prüm,Eric

Clive, Reinhard Zimmerman, 2019-03-28 The Principles of European Contract Law provides the fundamental principles of contract law shared by the legal systems of the Member States and to have a concise, comprehensive and workable statement of them. The Principles of European Contract Law Parts I & II covers the core rules of contract: formation, authority of agents, validity, interpretation, contents, performance, non-performance and remedies. The subjects dealt with in Part III are: plurality of debtors and creditors, assignment, substitution of new debtor and transfer of contract, set-off, prescription, illegality, conditions and capitalization of interest. The Principles have been drawn up by an independent body of experts from each Member State of the EU, under a project supported by the European Commission and many other organisations. The Principles are stated in the form of articles, with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder. A particularly valuable feature is that each article also has extensive comparative notes surveying the national laws and other international provisions on the topic. No self-respecting contract lawyer in Europe can afford to ignore the Lando Principles. They are not only a useful and convenient source of information about current laws in the countries of the European Union but also a possible blueprint for the contract part of a future European civil code. They are a touchstone against which any discussion of contract law can be tested.
