Taoist Secrets of Love Mantak Chia,Michael Winn,1984 ented here make the process of linking sexual energy and transcendent states of consciousness accessible to the reader.

The Inner Structure of Tai Chi Mantak Chia,Juan Li,2005-12-15 Explores the deep, internal work necessary for the effective practice of tai chi • Reveals the Taoist principles that gave birth to the Yang-style tai chi forms • Shows how tai chi can circulate powerful healing energies through the body Taoist adepts developed tai chi as both a martial art and a way to cultivate their physical body, energy body, and spirit body. Like all Taoist exercises, its main purpose is to form a connection to the basic energy that is the foundation of all life: chi. Until the beginning of the twentieth century, tai chi was considered a secret practice that was passed down only within a closely knit structure of family and loyal disciples. Despite its widespread growth in popularity as a martial art and health exercise, many of its underlying internal practices remain unknown. The Inner Structure of Tai Chi explores the deep, internal work necessary for the effective practice of tai chi. Designed for practitioners at every level, the book contains step-by-step illustrated instructions for mastering the 13 forms of early Yang-style tai chi, also known as Tai Chi Chi Kung. The authors demonstrate the relationship of the inner structure of tai chi to the absorption, transformation, and circulation of the three forces that animate all life--the Universal force, the Cosmic force, and the Earth force--revealing the principles and practices necessary to receive the full spectrum of physical, psychological, and spiritual benefits that tai chi can bring.

Wei,2014-05-14 A guide to restoring women's reproductive health and maintaining sexual desire • Includes fully illustrated instructions for Chi Kung exercises to clear energetic blockages, tone the female reproductive organs, prevent uterine cancer, and restore sexual vitality • Explains how to strengthen the pelvic floor with chi weight lifting and how to perform breast and female genital massage • Offers guidance on supporting your practice with dietary advice, restorative cleanses, and herbal remedies In this fully illustrated guide, Mantak Chia and William U. Wei explain how to use the energetic and physical practice of Chi Kung to balance hormones, offset abnormal cell growth, prevent uterine cancer, and restore sexual vigor to the female reproductive system. With step-by-step instructions, they provide exercises to open the energetic pathways connected to the female reproductive organs and clear the energy blockages that lead to sexual dysfunction and illness. They explain how to perform breast and female genital

massage to circulate chi and sexual energy. They detail the practice of chi weight lifting--advanced Kegel-type exercises using a jade egg--to stimulate age-delaying hormones and strengthen the pelvic floor. To maximize the benefits of the exercises, the authors offer dietary guidance, restorative cleanses, and herbal remedies to further support female reproductive healing and maintenance of sexual desire.

Healing Light of the Tao Mantak Chia, 2008-05-27 The guide to engaging and directing the three primordial forces of Earth, Heaven, and Higher Self to achieve enlightenment and immortality • Explains how to circulate the life force, or chi, by balancing yang (male) and yin (female) currents of bioenergy • Includes an overview of the complete Taoist body/mind/spirit system along with newly refined methods of activating the life force • The sequel to the classic *Awaken Healing Energy Through the Tao* In 1983, Mantak Chia introduced the “Microcosmic Orbit” to the West. Prior to that time, most of the Eastern energy practices transmitted to the West were incomplete, dealing only with the ascending yang/masculine channel, which shoots life-force energy up the spine. The Microcosmic Orbit showed practitioners how to establish the descending yin/feminine channel of the life-force energy loop. Within Taoist systems, cultivating feminine energy has always been seen as the key to gaining balance and wholeness. *Healing Light of the Tao* presents the more advanced methods of chi cultivation in the Microcosmic Orbit, offering a full understanding of Taoist spiritual theory through its comprehensive overview of the complete Taoist body/mind/spirit system. The book also includes more advanced meditation methods for absorbing the higher frequencies of Earth Force, Cosmic Force, and Universal Force (Heavenly chi) into the basic orbit. It establishes a spiritual science that not only emphasizes practical benefits to health, sexual vitality, and emotional balance, but also shows how changes made in the energy body can lead to physical rejuvenation that the Taoists called immortality.

Healing Love through the Tao Mantak Chia, 2005-07-15 A new edition of the bestseller • The first book to reveal in the West the Taoist techniques that enable women to cultivate and enhance their sexual energy • Reveals Taoist secrets for shortening menstruation, reducing cramps, and compressing more chi into the ovaries for greater sexual power • Teaches the practice of total body orgasm For thousands of years the sexual principles and techniques presented here were taught by Taoist masters in secret only to a small number of people (sworn to silence), in the royal courts and esoteric circles of China. This is the first book to make this ancient knowledge available to the West. The foundation of healing love is the cultivation, transformation, and circulation of sexual energy, known as jing. Jing energy is creative, generative energy that is vital for the development of chi (vital life-force energy) and shen (spiritual energy), which enables higher practices of spiritual development. Jing is produced in the sexual organs, and it is energy women lose continually through menstruation and child bearing. Mantak Chia teaches powerful techniques developed by Taoist masters for the conservation of jing and how it is used to revitalize women's physical, mental, and spiritual well-being. Among the many benefits conferred by these practices are a reduction in the discomfort caused by menstruation and the ability to attain full-body orgasm.

Iron Shirt Chi Kung Mantak Chia, 2006-06-05 An introduction to the ancient Kung Fu practice designed to unify physical, mental, and spiritual health • Describes the unique Iron Shirt air-packing techniques that protect vital organs from injuries • Explains the rooting practice exercises necessary to stabilize and center oneself • Includes guidelines for building an Iron Shirt Chi Kung daily practice Long before the advent of firearms, Iron Shirt Chi Kung, a form of Kung Fu, built powerful bodies able to withstand hand-to-hand combat. Even then, however, martial use was only one aspect of Iron Shirt Chi Kung, and today its other aspects remain vitally significant for anyone seeking better health, a sound mind, and spiritual growth. In Iron Shirt Chi Kung Master Mantak Chia introduces this ancient practice that strengthens the internal organs, establishes roots to the earth's energy, and unifies physical, mental, and spiritual health. Through a unique system of breathing exercises, he demonstrates how to permanently pack concentrated air into the connective tissues (the fasciae) surrounding vital organs, making them nearly impervious to injuries--a great benefit to athletes and other performers. He shows readers how once they root themselves in the earth they can direct its gravitational and healing power throughout their bone structure. Additionally, Master Chia presents postural forms, muscle-tendon meridians, and guidelines for developing a daily practice routine. After becoming rooted and responsive, practitioners of Iron Shirt Chi Kung can then focus on higher spiritual work.

The Art of Chi Kung: Making the Most of Your Vital Energy Kiew Kit, Wong, Widely recognized as an effective means of stress management and healing, chi kung is also an extraordinary technique for developing a general fitness of the mind and body. In *The Art of Chi Kung*, fourth generation Grandmaster Wong Kiew Kit explores the principles and philosophy of chi kung, explaining its beneficial effects, and then guides you through a series of chi kung exercises which you can learn from and practice at home. It includes: * Chi Kung for health and longevity. * Stress management. * Vitality for sex and youthfulness. * Training of the mind for focus and creativity. This is the most comprehensive study of chi kung available, and will prove invaluable whether you are a beginner or already have some understanding of this ancient art.

Sexual Reflexology Mantak Chia, William U. Wei, 2003-05-22 Moves reflexology beyond the realm of foot massage and into the realm of sexuality. • Offers acupressure methods to build intimacy and heighten sexual pleasure. • Helps couples find their sexual energy potential and physical compatibility. • Provides techniques to perform time-tested Taoist sexual-spiritual exercises. • By Mantak Chia, coauthor of *The Multi-Orgasmic Man*. The most powerful reflex points on the body are on the sexual organs. While the practice of reflexology is normally associated with massage of the feet, in *Sexual Reflexology* Mantak Chia gives applications for using the sexual reflex points in lovemaking, transforming sexual intercourse into a form of ecstatic acupressure. By combining the classic Taoist sexual texts with modern reflexology theory, the author provides a unique opportunity for couples to practice sexual intimacy as an act of healing. Mantak Chia shows how to evaluate a person's sexual energy potential as well as how the size and shape of the sexual organs determine a couple's compatibility. In

addition to the specific ecstatic acupressure exercise instructions, he provides thoughtful commentary on ancient Taoist practices that reveal how we can all use our sexual essence to create healthy and loving relationships.

Bone Marrow Nei Kung Mantak Chia,2006-10-25 A guide to nourishing the body through bone marrow rejuvenation exercises • Presents exercises to “regrow” bone marrow, revive the internal organs, and prevent osteoporosis • Explains the use of bone breathing and bone compression, “hitting” to detoxify the body, and sexual energy massage and chi weight lifting to enhance the life force within Most Westerners believe that a daily physical exercise program helps slow the aging process. Yet those whose bodies appear most physically fit on the outside often enjoy only the same life span as the average nonathletic person. It is the internal organs and glands that nourish every function of the body, and it is the bone marrow that nourishes and rejuvenates the organs and glands through the production of blood. By focusing only on the muscles without cultivating the internal organs, bones, and blood, the Western fitness regimen can ultimately exhaust the internal system. In Bone Marrow Nei Kung Master Mantak Chia reveals the ancient mental and physical Taoist techniques used to “regrow” bone marrow, strengthen the bones, and rejuvenate the organs and glands. An advanced practice of Iron Shirt Chi Kung, Bone Marrow Nei Kung was developed as a way to attain the “steel body” coveted in the fields of Chinese medicine and martial arts. This method of absorbing energy into the bones revives the bone marrow and reverses the effects of aging through the techniques of bone breathing, bone compression, and sexual energy massage, which stimulates the hormonal production that helps prevent osteoporosis. Also included is extensive information on chi weight lifting and the practice of “hitting” to detoxify the body.

Emotional Wisdom Mantak Chia,Dena Saxer,2011-02-09 A groundbreaking book, Emotional Wisdom reveals powerful ancient tools for transforming our painful emotions into happiness and health. So-called negative emotions are valuable messages that let us know we are out of balance. With compassion and humor, Taoist authors Mantak Chia and Dena Saxer explain the messages that anger, depression, fear, worry, and stress offer us. They present three easy-to-learn twenty-minute internal energy practices, with helpful illustrations, to turn these imbalances into harmony and joy. They provide unusual nutritional advice for emotional healing and a Taoist First Aid section with proven natural remedies for minor ailments such as insomnia, indigestion, headaches, and overeating. Relevant quotes from the Tao Te Ching add inspiration to this practical, life-changing book.

Transformations of Consciousness Ken Wilber,Jack Engler,Daniel Brown,2006 Drawing on modern research in

psychology and psychiatry, as well as the world's great contemplative traditions, this classic presents a model of individual development that embraces both the conventional stages of psychological growth and the higher levels of spiritual development. In nine seminal essays, the authors and three contributors present discussions on the following topics: A full-spectrum model of consciousness, focusing on the self and its journey through the basic structures of matter, body, mind, soul, and spirit Types of psychopathology that emerge at the various levels of spiritual development Misuses and psychiatric complications of meditation practice Pioneering research into the cross-cultural stages of the meditative path A new preface by Ken Wilber, placing this work within his current integral model of consciousness Contributors include the psychiatrist Mark Epstein (author of *Thoughts without a Thinker* and several other books on Buddhism and psychology), and the Christian theologian John Chirban.

Eight Simple Qigong Exercises for Health Jwing-Ming Yang, 1997 Invigorate your body, improve blood and Qi (vital energy) circulation, and strengthen your internal organs with these simple Qigong exercises.

Chi Self-Massage Mantak Chia, 2006-06-05 Energetic massage techniques that dispel negative emotions, relieve stress, and strengthen the senses, internal organs, and nervous system • Shows how Chi Massage employs one's own internal energy to promote rejuvenation • Presents Chi Massage techniques for every organ and bodily system • Provides a daily practice routine that requires only 5 to 10 minutes to complete The Western concept of massage primarily concerns muscle manipulation. In the practice of Chi Massage, internal energy, or Chi, is manipulated to strengthen and rejuvenate the sense organs--eyes, ears, nose, tongue, teeth, and skin--and the internal organs. The Taoist techniques in this practice are more than 5,000 years old and, until very recently, were closely guarded secrets passed down from master to student with each master often knowing only a small part of the complete method. In *Chi Self-Massage* Master Mantak Chia pieces together the entire system of Chi Massage into a logical routine, revealing the methods used by Taoist masters to maintain their youthfulness. He explains the energetic theory behind Chi Massage and how negative emotions affect the organs and nervous system. By practicing the exercises outlined and following the daily routine that requires only 5 to 10 minutes to complete, readers can strengthen their senses--most notably vision, hearing, and taste--detoxify their internal organs and glands, help control negative emotions, relieve stress and constipation, and improve their complexion, teeth and gums, and overall stamina.

The Inner Smile Mantak Chia, 2008-08-12 A guide to the foundational practice of "smiling to the organs" to promote deep relaxation and internal health • Presents exercises that dissolve the physical and mental tensions that can cause energy blockages and unhealthy chi flow • Shows how to recognize illness at its inception on the organ level and how to balance the emotions to heal it The Inner Smile is a practice that focuses gratitude and joy on the internal organs to resolve the physical and mental tensions that can lead to illness. In Taoism negative emotions--anger, sadness, depression, fear, and worry--are

seen as low-grade energy that causes chronic disease and steals our major life force by creating energy blockages. Master Mantak Chia shows that the internal awareness produced by the simple yet powerful Inner Smile meditation practice flushes the organs of poisonous negative energy that may be blocking chi energy flow in order to nourish the entire body. Just as a genuine outer smile transmits positive energy and has the power to warm and heal, an inner smile produces a high grade of energy that promotes powerful internal healing, deep relaxation, happiness, and longevity. Smiling to the organs and thanking them for the work they do helps to reawaken the intelligence of the body, which, once activated, can dissipate emotional imbalances and inner disharmony before serious illness manifests.

Cosmic Detox Mantak Chia, William U. Wei, 2011-04-25 How to cleanse the nine openings of the body for detoxification and self-healing • Explains how to purify the body's internal environment through mono diets, fasts, and colonic cleanses to prevent degenerative disease and premature aging • Presents a 14-day total-body cleansing guide • Includes chi self-massage and healing sound practices as well as natural recipes for herbal tonics and cleansing flushes Long known by Taoist masters, the body has an innate ability to heal itself, an ability that is hampered by toxins in the food we ingest and energy blockages that arise from illnesses and obstacles in our lives. These blockages transform the body's energy rivers into a polluted and stagnant swamp--the root of degenerative disease as well as premature aging. Revealing the detoxification and rejuvenation practices of the Taoist sages, Master Mantak Chia and William U. Wei show how to reactivate your body's self-healing abilities by gradually and safely expelling accumulated toxins through fasting, mono diets, and cleansing the nine openings of the body. Using the practices of chi self-massage and healing sounds along with natural recipes for herbal tonics and cleansing flushes for each of the openings and their related organs, the authors explain how to balance and purify the body's internal environment through acid and alkaline foods, urine therapy, colonic cleanses, dry skin brushing, ear candling, and energized water. Concluding with a 14-day total-body cleansing program, Cosmic Detox offers tools to keep the energy rivers clean and flowing, preparing the body for higher level Taoist practices as well as enabling healing of our emotional and spiritual bodies.

Tai Chi Fa Jin Mantak Chia, Andrew Jan, 2012-02-08 A guide to the seemingly effortless yet explosively powerful martial art techniques of Fa Jin • Explains how to collect energy within and discharge it for self-defense as well as healing • Explores how to counter the natural instinct to resist force with force and develop yielding softness through the 13 Original Movements of Tai Chi • Illustrates routines for the partner practice of “Push Hands” (Tui Shou) Fa Jin, an advanced yang style of Tai Chi, complements the physical, mental, and spiritual conditioning available through solo Tai Chi practice and the internal martial arts of Taoism. Fa Jin enables adepts to harness the energy of yin, yang, and the earth in the lower tan tien and discharge it as an extremely close-range yet explosively powerful blow in self-defense and partner practice as well as in healing techniques. Integrating the teachings of many Taoist masters, including Chang San-Feng, the creator of Tai Chi; Wang Tsung-Yueh, the legendary 19th-century master; Bruce Lee, the actor and martial artist who made the “one-inch punch” technique famous; and the Magus of Java, a living master able to discharge energy in the form of electric shocks, this book explores the history, philosophy, internal exercises, and physical practices of Fa Jin. Drawing on Iron Shirt Chi Kung and Tan Tien Chi Kung techniques, Master Mantak Chia and Andrew Jan reveal the secrets to collecting yin and yang in the lower tan tien and discharging the energy in a seemingly effortless yet explosive blow. Illustrating several routines of the Tai Chi partner practice of “Push Hands” (Tui Shou), they explain how to apply Fa Jin techniques by “listening” to your opponent’s intentions and countering the natural instinct to resist force with force through yielding softness and redirection. The authors also detail how to prepare for this advanced practice through stretching, meditation, breathing, relaxation, and energetic exercises.
