Transgressions Ingereth Macfarlane, Mark Hannah, 2007-12-01 This volume brings together an innovative set of readings of complex interactions between Australian Aboriginal people and colonisers. It has its origins in 2003 when Mark Hannah, then a doctoral student in the Centre for Cross Cultural Research at The Australian National University, invited a group of early career scholars to meet in Canberra. They brought their diverse social science and humanities backgrounds to the uncovering of creative Indigenous responses to the colonial encounter in Australia, and fresh ways of writing about these. Their studies were focused in diverse parts of Australia and on different time periods, but shared a common interest in developing critical re-assessments of Australian colonial and anti-colonial histories. Their meeting encouraged face-to-face exchanges that could short-circuit the isolation often experienced by cross-disciplinary, original scholars. It also emphasised writerly aspects of creative thinking, promoting the portrayal of character, alternative prose styles and inventive narrative forms. The authors' responses to these invitations have flavoured the commissioned papers presented here. The critical and creative drives which inform them shines out in their writing. They are exciting and sometimes surprising in the angles they take, and the cross-overs of genre or subject that they offer.--Provided by publisher.

Cornish Saints & Sinners J. Henry Harris, 2021-05-19 In *Cornish Saints & Sinners*, J. Henry Harris weaves a captivating tapestry of stories that traverse the rich cultural landscape of Cornwall, blending historical narratives with local legend. The book employs a unique literary style that combines vivid storytelling with an analytical approach, offering readers an engaging exploration of the lives of various saints and sinners who have shaped Cornish identity. Harris delicately interlaces folk traditions, ecclesiastical history, and contemporary reflections, positioning the work within the broader context of regional literature that celebrates the complexities of moral character and communal heritage in Cornwall. J. Henry Harris, a scholar with deep roots in Cornish culture and history, draws on extensive archival research and oral histories to illuminate the vibrant tapestry of Cornwall's past. His background in folklore studies and extensive publications on regional myths and social history serve as a foundation for this work. Harris's passion for his homeland's stories and his academic rigor merge to create a thorough examination of both celebrated figures and unsung heroes, revealing the nuanced interplay between righteousness and moral ambiguity. This book is a must-read for anyone interested in regional history, folklore, or the

enduring impact of cultural narratives on local identity. Harris's insightful exploration invites readers to discover the complexities of human experience through the lens of Cornwall's saints and sinners, making it an invaluable addition to both academic libraries and personal collections.

The Naturalist and His 'beautiful Islands' David Russell Lawrence,2014-10-28 'I know no place where firm and paternal government would sooner produce beneficial results than in the Solomons ... Here is an object worthy indeed the devotion of one's life'. Charles Morris Woodford devoted his working life to pursuing this dream, becoming the first British Resident Commissioner in 1897 and remaining in office until 1915, establishing the colonial state almost singlehandedly. His career in the Pacific extended beyond the Solomon Islands. He worked briefly for the Western Pacific High Commission in Fiji, was a temporary consul in Samoa, and travelled as a Government Agent on a small labour vessel returning indentured workers to the Gilbert Islands. As an independent naturalist he made three successful expeditions to the islands, and even climbed Mt Popomanaseu, the highest mountain in Guadalcanal. However, his natural history collection of over 20,000 specimens, held by the British Museum of Natural History, has not been comprehensively examined. The British Solomon Islands Protectorate was established in order to control the Pacific Labour Trade and to counter possible expansion by French and German colonialists. It remaining an impoverished, largely neglected protectorate in the Western Pacific whose economic importance was large-scale copra production, with its copra considered the second-worst in the world. This book is a study of Woodford, the man, and what drove his desire to establish a colonial protectorate in the Solomon Islands. In doing so, it also addresses ongoing issues: not so much why the independent state broke down, but how imperfectly it was put together in the first place.

Captain Swing Eric Hobsbawm,George Rudé,2014-08-12 Sir Your name is down amongst the Black hearts in the Black Book and this is to advise you and the like of you, who are Parson Justasses, to make your wills Ye have been the Blackguard Enemies of the People on all occasions, Ye have not yet done as ye ought - Swing In our increasingly mechanized age, the Swing revolts are a timely record of the relationship between technological advance, labour and poverty. With the onset of the Industrial Revolution, capitalism swept from the cities into the countryside, and tensions mounted between agricultural workers and employers. From 1830 on, a series of revolts, known as the Swing shook England to its core. Landowners wanting to make their land more profitable started to use machinery to harvest crops, causing widespread misery among rural communities. Captain Swing reveals the background to that upheaval, from its rise to its fall, and shines a light on the people who tried to change the world and save their livelihoods.

A Book of Quaker Saints L. V. Hodgkin,2019-12-24 'A book of Quaker Saints' is a children's educational book by Lucy Violet Hodgkins on the lives of the Early Quakers. In the author's words, 'It must be remembered that this is not a History of the Early Quaker Movement, but a book of stories of some Early Quaker Saints'. These stories are sometimes told with the help of imaginary 'witnesses' to help with the storyline. It includes, among others, stories about George Fox, famous for founding the Quakers Movement.

Victorian Environments Grace Moore,Michelle J. Smith,2018-03-07 This collection will draw attention to new ideas in both Victorian studies and in the emerging area of literature and the environment. Adopting a broad interpretation of the term 'environment' the work aims to draw together new approaches to Victorian texts and cultures that conceptualise and are influenced by environments ranging from rural to urban, British to Antipodean, and from the terrestrial to the aquatic. With the pressures of industrialism and the clustering of workers in urban centres, the Victorians were acutely aware that their environment was changing. Torn between nostalgia for a countryside that was in jeopardy and exhilaration at the rapidity with which their surroundings altered, the literature and culture produced by the Victorians reflects a world undergoing radical change. Colonization and assisted emigration schemes expanded the scope of the environment still further, pushing the boundaries of the 'home' on an unprecedented scale and introducing strange new worlds. These untamed physical environments enabled new freedoms, but also posed challenges that invited attempts to control, taxonomize and harness the natural world. *Victorian Environments* draws together leading and emerging international scholars for an examination of how various kinds of environments were constructed, redefined, and transformed, in British and colonial texts and cultures, with particular attention to the relationship between Australia and Britain.

The Reckoning Jess Hill,2021-11-29 Tracing the impact of Australia's #MeToo moment In 2021, Australia saw rage and revelation, as #MeToo powered an insurgency against sexism and sexual violence. From once isolated survivors to political

staffers, women everywhere were refusing to keep men's secrets. In this electrifying essay, Jess Hill traces the conditions that gave birth to #MeToo and tells the stories of women who - often at great personal cost - found themselves at the centre of this movement. Hill exposes the networks of backlash against them - in government, media, schools, and in our national psyche. This is a powerful essay about shame, secrecy and, most of all, a revolutionary movement for accountability. "Here's what men like Scott Morrison don't understand: political spin has no power against the rage unleashed by #MeToo. At its heart, this is an accountability movement . . . The cultural revolution of #MeToo is not just about sexual violence. It is taking aim at patriarchy's most sacred compact: the keeping of men's secrets."—Jess Hill, *The Reckoning*
