Ad Lucilium Epistulae Morales, Lucius Annaeus Seneca,1967

The Highest Mountain of Books in the World Rocio Bonilla,2016 Lucas was convinced he was born to fly. He spent hours watching birds and airplanes in flight and tried to design his own sets of wings -- many times. But each time they failed. He wrote letters to Santa, pleading for help, but was disappointed with the toy wings and capes he received. Then one day, something magical happened, without him even knowing it. His mother put a book in his hands -- and Lucas began to fly. And fly. And fly. Both a delightful story and a celebration of the wonder of books and their power to transport us to places beyond our imagination. Ages 4 to 8. Hardcover picture book with dust jacket. Full color throughout. 42 pages. 8-3/4 inches wide by 11-3/4 inches high. Rocio Bonilla was born in Barcelona, Spain, and received her Bachelor of Fine Arts degree from the University of Barcelona. She has worked as a photographer, painter, and teacher, and now spends most of her time illustrating books and painting children's murals. As a mother of three, she is continually fascinated by the unique and extraordinary universes that children create, as well as their enormous willingness and generosity to share them with others.

Primi passi nel mondo dell'ignoto Paolo Arpesani,2017-03-21 Trattasi di un manuale, con i primi elementi di base, che sarà utile a molti per avvicinarsi alla medianità con maggior consapevolezza e tranquillità. Fornisce indicazioni utili a chi, in numero sempre maggiore, si accosta, a volte in modo errato, improvvisato o superficiale ai contatti con il mondo dei

trapassati o di entità spirituali di altre dimensioni.

Science in the Kitchen and the Art of Eating Well Pellegrino Artusi, 2003-12-27 First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

Revelation ,2010-12-01 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. The Absorbent Mind Maria Montessori, 2013-03-25 *The Absorbent Mind* was Maria Montessori's most in-depth work on her educational theory, based on decades of scientific observation of children. Her view on children and their absorbent minds was a landmark departure from the educational model at the time. This book helped start a revolution in education. Since this book first appeared there have been both cognitive and neurological studies that have confirmed what Maria Montessori knew decades ago.

Rime bacciate tra numeri primi Letizia Vaioli, 2019-08-20 *La famiglia di Libero Martinelli*, matematico geniale con disturbi del linguaggio e del comportamento, parte improvvisamente senza fornire spiegazioni plausibili. Rimangono a casa Anna,

sorella disabile del matematico e Mia, amica d'infanzia del figlio Greg. Nel sottofondo di un rapporto tra generazioni diverse, Anna e Mia indagano sulla scomparsa della famiglia, avvalendosi dell'aiuto del poliziotto Sauro Caselli, responsabile a suo tempo dell'incidente che ha tolto ad Anna l'uso delle gambe. Al centro del giallo c'è il ritrovamento di un prezioso quaderno di appunti, trafugato alla fine del 1800 e miracolosamente ricomparso nello scenario della bellissima campagna toscana.
