Geoffrey Wawro

A Mad Catastrophe Geoffrey Wawro,2014-04-29 A masterful account of the Hapsburg Empire's bumbling entrance into World War I, and its rapid collapse on the Eastern Front The Austro-Hungarian army that attacked Russia and Serbia in August 1914 had a glorious past but a pitiful present. Speaking a mystifying array of languages and lugging obsolete weapons, the Habsburg troops were hopelessly unprepared for the industrialized warfare that would shortly consume Europe. As prizewinning historian Geoffrey Wawro explains in *A Mad Catastrophe*, the disorganization of these doomed conscripts perfectly mirrored Austria-Hungary itself. For years, the Empire had been rotting from within, hollowed out by complacency and corruption at the highest levels. When Germany goaded Austria into starting the world war, the Empire's profound political and military weaknesses were exposed. By the end of 1914, the Austro-Hungarian army lay in ruins and the course of the war seemed all but decided. Reconstructing the climax of the Austrian campaign in gripping detail, *A Mad Catastrophe* is a riveting account of how Austria-Hungary plunged the West into a tragic and unnecessary war.

Europe's Last Summer David Fromkin,2009-05-27 The Great War not only destroyed the lives of over twenty million soldiers and civilians, it also ushered in a century of huge political and social upheaval, led directly to the Second World War and altered for ever the mechanisms of governments. And yet its causes, both long term and immediate, have continued to be shrouded in mystery. In *Europe's Last Summer*, David Fromkin reveals a new pattern in the happenings of that fateful July and August, which leads in unexpected directions. Rather than one war, starting with the assassination of Archduke Franz Ferdinand, he sees two conflicts, related but not inseparably linked, whose management drew Europe and the world into what *The Economist* described as early as 1914 as 'perhaps the greatest tragedy in human history'.

The Great World War, a History Frank Arthur Mumby,1915

George, Nicholas and Wilhelm Miranda Carter,2010-03-23 In the years before the First World War, the great European powers were ruled by three first cousins: King George V of Britain, Kaiser Wilhelm II of Germany, and Tsar Nicholas II of Russia. Together, they presided over the last years of dynastic Europe and the outbreak of the most destructive war the world had ever seen, a war that set twentieth-century Europe on course to be the most violent continent in the history of the world. Through brilliant and often darkly comic portraits of these men and their lives, their foibles and

obsessions, Miranda Carter delivers the tragicomic story of Europe's early twentieth-century aristocracy, a solipsistic world preposterously out of kilter with its times.

The Sleepwalkers Christopher Clark, 2012-09-27 The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In *The Sleepwalkers* Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings, Sunday Times 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' Washington Post 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading *The Sleepwalkers*], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, New York Times Book Review 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' Sunday Times Books of the Year 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' Mail Online 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' Boston Globe 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly sketching the context driving them ... A magisterial work' Wall Street Journal About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of *The Politics of Conversion*, *Kaiser Wilhelm II and Iron Kingdom*. Widely praised around the world, *Iron Kingdom* became a major bestseller. He has been

awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

Revival After the Great War Luc Verpoest, Leen Engelen, Rajesh Heynickx, Jan Schmidt, Pieter Uyttenhove, Pieter Verstraete, 2020-12-08 The challenges of post-war recovery from social and political reform to architectural design In the months and years immediately following the First World War, the many (European) countries that had formed its battleground were confronted with daunting challenges. These challenges varied according to the countries' earlier role and degree of involvement in the war but were without exception enormous. The contributors to this book analyse how this was not only a matter of rebuilding ravaged cities and destroyed infrastructure, but also of repairing people's damaged bodies and upended daily lives, and rethinking and reforming societal, economic and political structures. These processes took place against the backdrop of mass mourning and remembrance, political violence and economic crisis. At the same time, the post-war tabula rasa offered many opportunities for innovation in various areas of society, from social and political reform to architectural design. The wide scope of post-war recovery and revival is reflected in the different sections of this book: rebuild, remember, repair, and reform. It offers insights into post-war revival in Western European countries such as Belgium, France, the United Kingdom, Germany, Portugal, Spain, and Italy, as well as into how their efforts were perceived outside of Europe, for instance in Argentina and the United States.

The Creation of Iraq, 1914-1921 Reeva Spector Simon, Eleanor H. Tejirian, 2004-12-08 Leading scholars consider Iraq's history and strategic importance from the vantage point of its residents, neighbors (Iran, Turkey, and Kurdistan), and the Great Powers.

A Military Atlas of the First World War Arthur Banks, 2000-09-13 "With the ingenious use of maps, diagrams and statistics, this indispensable work explains the strategies of the combatants and the diplomatic history." —The Beacon This is a unique study of the conflict of 1914-18 on land, sea and in the air, through maps, diagrams and illustrations. Within the scope of some 250 maps, Arthur Banks has presented both broad general surveys of political and military strategy, and the most closely researched details of major individual campaigns and engagements. These are supplemented by comprehensive analysis of military strengths and command structures and illustrations. "One of the best books of maps I've seen about any war. With 250 separate maps, you get something on just about every aspect of the war, from the familiar Western Front to the Zeppelin raids over Britain, through to the campaigns in the Middle East and beyond." —History of War "I am delighted

that, after being out-of-print from time to time, this reprint has arrived, to answer the prayers of teachers, pupils, researchers and others who need a quick and accurate reference guide.” —Stand To! (journal of The Western Front Association)

The Story of the Great War Francis Joseph Reynolds, Allen Leon Churchill, Francis Trevelyan Miller, 1916

Dance of the Furies Michael S. Neiberg, 2011-04-25 By training his eye on the ways that people outside the halls of power reacted to the rapid onset and escalation of the fighting in 1914, Neiberg dispels the notion that Europeans were rabid nationalists intent on mass slaughter. He reveals instead a complex set of allegiances that cut across national boundaries.

The Pity of War Niall Ferguson, 2012-10-25 The controversial revisionist history of World War I that made Niall Ferguson's name The First World War killed around eight million men and bled Europe dry. More than any other event, it made the twentieth century. In this boldly conceived book and provocative, aimed to appeal not only to students but also to the general reader, Niall Ferguson explodes many of the myths surrounding the war. Niall Ferguson is Herzog Professor of Financial History at the Stern School of Business, New York University, Visiting Professor of History, Oxford University and Senior Research Fellow, Jesus College, Oxford. His other books for Penguin include *Empire*, *The Cash Nexus*, *Colossus*, *The War of the World*, *Virtual History*, *High Financier* and *Civilization*.

Why Did Europe Conquer the World? Philip T. Hoffman, 2017-01-24 The startling economic and political answers behind Europe's historical dominance Between 1492 and 1914, Europeans conquered 84 percent of the globe. But why did Europe establish global dominance, when for centuries the Chinese, Japanese, Ottomans, and South Asians were far more advanced? In *Why Did Europe Conquer the World?*, Philip Hoffman demonstrates that conventional explanations—such as geography, epidemic disease, and the Industrial Revolution—fail to provide answers. Arguing instead for the pivotal role of economic and political history, Hoffman shows that if certain variables had been different, Europe would have been eclipsed, and another power could have become master of the world. Hoffman sheds light on the two millennia of economic, political, and historical changes that set European states on a distinctive path of development, military rivalry, and war. This resulted in astonishingly rapid growth in Europe's military sector, and produced an insurmountable lead in gunpowder technology. The consequences determined which states established colonial empires or ran the slave trade, and even which economies were the first to industrialize. Debunking traditional arguments, *Why Did Europe Conquer the World?* reveals the startling reasons behind Europe's historic global supremacy.

The Great Powers and the European States System 1814-1914 Roy Bridge, Roger Bullen, 2014-01-14 This book illuminates, in the form of a clear, well-paced and student-friendly analytical narrative, the functioning of the European states system in its heyday, the crucial century between the defeat of Napoleon in 1814 and the outbreak of the First World War just one hundred years later. In this substantially revised and expanded version of the text, the author has included the results of the latest research, a body of additional information and a number of carefully designed maps that will make the

subject even more accessible to readers.

The Influence of Sea Power Upon History, 1660-1783 A. T. Mahan, 2012-07-12 DIV Influential classic of naval history and tactics still used as text in war colleges. Read by Kaiser Wilhelm, both Roosevelts, other leaders. First paperback edition. 4 maps. 24 battle plans. /div

Reshaping the German Right Geoff Eley, 1991 Examines the conditions under which a particular right-wing ideology was generated

The Shortest History of Germany: From Roman Frontier to the Heart of Europe - A Retelling for Our Times (The Shortest History Series) James Hawes, 2019-03-19 A highlight reel of the must-know moments across two millennia of world-changing history—from the Roman age to Charlemagne to von Bismarck to Merkel. The Shortest History books deliver thousands of years of history in one riveting, fast-paced read. A country both admired and feared, Germany has been the epicenter of world events time and again: the Reformation, both World Wars, the fall of the Berlin Wall. It did not emerge as a modern nation until 1871—yet today, Germany is the world’s fourth-largest economy and a standard-bearer of liberal democracy. “There’s no point studying the past unless it sheds some light on the present,” writes James Hawes in this brilliantly concise history that has already captivated hundreds of thousands of readers. “It is time, now more than ever, for us all to understand the real history of Germany.”

East Central Europe in the Modern World Andrew C. Janos, 2000 A study of East Central Europe and its place in the modern world. Combining narrative with analysis, it presents the past and present of East Central Europe in the larger context of the political and economic history of the continent.
