**Midwifery** Jan Pincombe, Sally Pairman, Sally K. Tracy, Carol Thorogood, 2010-08-30 Midwifery Preparation for Practice 2e is the only text which reflects the historical and socio - political environment in which midwives in Australia and New Zealand practice. In addition, it is the only text which incorporates the philosophy and standards endorsed by New Zealand and Australian Colleges of Midwives while also focusing on the partnership between midwives with women and the woman-centred model of midwifery care. The second edition has built on the existing philosophy and structure of Midwifery: Preparation for Practice, though with a greater emphasis on the development of critical thinking and researching skills. Key chapters have been re-written to reflect recent changes in government legislation while current research and pertinent examples are included throughout the text. This new edition is supported by a comprehensive suite of resources for both Instructors and Students using the Evolve website as a platform. These ancillaries will re-enforce the critical thinking elements for students with interactive case studies and scenario based learning exercises as well as the multiple choice questions. - Presents unique philosophy and woman-centered approach in line with the standards set by the ACNM and NZCM - Key contributors from Australia and New Zealand - Key terms, Chapter Overview, Learning Outcomes and Review Questions included in every chapter. - Reflective exercises, Critical thinking exercises and Clinical Scenarios to encourage active student learning - 2 new Indigenous chapters highlight key health aspects relevant for Midwives working with Aboriginal and Torres Strait Islander women and Maori women - New chapter on Perineal care and repair - Increased coverage of anatomy and physiology - Instructor and Student resources on Evolve with a focus on critical thinking - Weblinks, interactive case studies, PowerPoints, additional exercises with questions and answers

**Mothers and King Baby** Philippa Mein Smith, 1997-06-23 This book is about infant mortality decline, the rise of the infant welfare movement, outcomes in terms of changing priorities in child health and what happened to mothers and babies. Infant welfare raised public awareness but did not contribute as powerfully to improved infant survival - and so longer life - as protagonists claimed. This work shows what it meant for reformers, babies and mothers when the call was 'population is

power: the nation that has the babies has the future'.

*Joints and Connective Tissues* Kerry Phelp, Craig Hassed,2012-10-31 *Joints and Connective Tissues - General Practice: The Integrative Approach Series*. In order to diagnose and manage the patient presenting with musculoskeletal symptoms, it is important to distinguish whether the pathology is arising primarily in the so-called hard tissues (such as bone) or the soft tissues (such as cartilage, disc, synovium, capsule, muscle, tendon, tendon sheath). It is also important to distinguish between the two most common causes of musculoskeletal symptoms, namely inflammatory and degenerative.

*Abortion Care is Health Care* Barbara Baird,2023-10-03 In *Abortion Care is Health Care* Barbara Baird tells the history of the provision of abortion care in Australia since 1990. Against the backdrop of a reticent public sector Baird describes a system of predominantly private provision, which has excluded women already marginalised by poverty, rural and remote residency, lack of Medicare entitlement, racism and other factors. Tracing changes in the private sector, the long struggle to make medical abortion available and the nationwide decriminalisation of abortion since 2002, Baird introduces readers to the large cast of 'champions' and everyday healthcare workers and activists who have persisted in their commitment to make abortion care available when governments and the medical profession have so often failed. Drawing on oral history interviews conducted nationwide with abortion-providing doctors, nurses, counsellors and managers, women's health workers, academics and community activists, Baird brings a critical feminist analysis to create a sophisticated historical narrative of abortion provision over the last thirty years.
