Josep M. T. Grau i Pujol

Dels capbreus al registre de la propietat, 2010-10-29 Els capbreus medievals, els arxius patrimonials, el Registre d'Hipoteques i el Registre de la Propietat són fonts importants per a l'estudi de les formes, les condicions i les estructures de la propietat de la terra en les diverses èpoques que van ser vigents. El seu estudi pot ajudar a comprendre les característiques d'una societat en qualsevol època històrica. Però, per fer més comprensible l'objectiu principal d'aquest llibre, és necessari remarcar encara un altre aspecte comú a aquestes fonts. Per a ser vives, és a dir, útils, havien de recollir i recullen informació contemporània sobre l'estat, els moviments, els canvis i la qualitat dels drets de propietat. Per tant, es tracta de fonts que no només constitueixen importants bancs d'informació històrica, és a dir, que no només proporcionen dades històriques objectives útils a l'historiador sobre un tema important, sinó que constitueixen en si mateixes sistemes històrics d'informació, sovint complexos, sovint parcials, sempre condicionats pel marc jurídic, però també pel dia a dia de les relacions socials.

Catàleg del fons notarial del districte de Santa Coloma de Farners Josep M. T. Grau i Pujol, 1996 Els protocols notariaus del districte de Santa Coloma de Farners són repartits en una munió d'arxius del nostre país, si bé el seu gruix es troba a l'Arxiu Històric de Girona i a l'Arxiu Històric Comarcal de Santa Coloma de Farners. La seva importància és cabdal per a l'estudi de la Selva, perquè el districte de Santa Coloma comprenia totes les poblacions d'aquesta comarca llevat d'Amer. El catàleg inclou també algunes notaries foranes de l'Arxiu Comarcal de Santa Coloma.

Ariadne in the Grotesque Labyrinth Salvador Espriu,2012 One of the foundational texts of Catalan fiction, Salvador Espriu's *Ariadne in the Grotesque Labyrinth* is a collection of short stories in which action, character, and place are as winding and sumptuous as mythical maze of its title.

Gendarmes and the State in Nineteenth-Century Europe Clive Emsley,1999-10-14 The history of police and policing have been the subject of much interest and research in recent years, but this book provides the first serious academic exploration of the origins and development of the role of soldier-policemen: the gendarmeries of nineteenth-century Europe. The author presents a detailed account of the French Gendarmeries from the old regime up to the First World War, and looks at the reasons for how and why this model came to be exported across continental Europe in the wake of the Revolutionary and Napoleonic armies. In particular their role is examined within the differing national contexts of Italy, Germany and the Habsburg Empire. The gendarmeries, it is argued, played a significant role in establishing the state, particularly in rural areas. As the physical manifestation of the state, gendarmes carried the state's law and a promise of protection, whilst at the same time ensuring in turn that the state received its annual levies of conscripts and taxes This account fully explores how the organisation and style of nineteenth-century soldier-policing in France developed in such a way that it brought the idea of the state and the state's law to much of twentieth-century continental Europe.

Encyclopedia of Ephemera Michael Twyman,2018-10-24 The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The *Encyclopedia of Ephemera* is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak

volumes about status, taste, customs, and taboos, revealing the very roots of popular culture.

The Flight of Icarus James S. Amelang, 1998-08-01 Exploring autobiographical texts written by European urban craftsmen from the fifteenth to the eighteenth centuries, this wide-ranging book studies memoirs, diaries, family chronicles, travel narratives, and other forms of personal writings from Spain, France, Italy, Germany, and England. In the process, it considers the motivations of the authors, the changing forms and emphases of artisan narratives, and, more generally, the significance of written self-expression in early modern popular culture. By analyzing reading and writing as practices laden with social meaning, this work aims to illuminate the changing role of the lower classes and other groups considered marginal in the history of literature and literacy. It uncovers an "Icarian" logic by which writing about the self and one's immediate and private world developed as a complex response to widely shared expectations regarding the cultural and political subordination of craftsmen and others relegated to the margins of public life and discourse. The book also contributes to the contemporary interdisciplinary debate concerning the nature and evolution of autobiographical writing. It draws upon those currents within literary studies, such as feminist criticism, which favor a more flexible approach to the study of first-person narrative than that adopted by traditional literary critics and historians of ideas. It also argues for revising the standard history of autobiography, eschewing the teleological presentation of a small handful of classic texts in favor of a more nuanced trajectory in which a wide range of social actors helped shape the emerging patterns of modern self-understanding and expression.

"!No Pasarán!" Stephen M. Hart, 1988 The six essays collected in this volume are a selection from a number of papers which were given at a one-day colloquium on 'Art, Literature and the Spanish Civil War' which was held in Westfield College on 18 July 1986, precisely fifty years to the day after Franco's military coup in the Canary Islands, which was destined to have such a decisive effect on the course of Spanish history. Though this date subsequently became a Francoist celebration - the so-called 'Día del Alzamiento' (Day of the Uprising) - the papers collected here do not demonstrate a Francoist bias. The overall approach is intertextual and interdisciplinary, thereby stressing the international nature of the artistic response to the

war. For the benefit of the English reader, all foreign quotations are followed by an English translation.
