*Folk Song in England* Steve Roud,2017-08-15 In Victorian times, England was famously dubbed the land without music - but one of the great musical discoveries of the early twentieth century was that England had a vital heritage of folk song and music which was easily good enough to stand comparison with those of other parts of Britain and overseas. Cecil Sharp, Ralph Vaughan Williams, Percy Grainger, and a number of other enthusiasts gathered a huge harvest of songs and tunes which we can study and enjoy at our leisure. But after over a century of collection and discussion, publication and performance, there are still many things we don't know about traditional song - Where did the songs come from? Who sang them, where, when and why? What part did singing play in the lives of the communities in which the songs thrived? More importantly, have the pioneer collectors' restricted definitions and narrow focus hindered or helped our understanding? This is the first book for many years to investigate the wider social history of traditional song in England, and draws on a wide range of sources to answer these questions and many more.

Ruth and Martin's Album Club Martin Fitzgerald,2017-09-07 The concept behind the Ruth and Martin's Album Club blog is simple: Make people listen to a classic rock album they've never heard before. Make them listen to it two more times. Get them to explain why they never bothered with it before. Then ask them to review it. What began as a simple whim quickly grew in popularity, and now Ruth and Martin's Album Club has featured some remarkable guests: Ian Rankin on Madonna's *Madonna*. Chris Addison on Marvin Gaye's *What's Going On*. Brian Koppelman on The Smiths' *Meat is Murder*. JK Rowling on the Violent Femmes' *Violent Femmes*. Bonnie Greer on The Beach Boys' *Pet Sounds*. Martin Carr on Paul McCartney's *Ram*. Brian Bilston on Neil Young's *Harvest*. Anita Rani on The Strokes' *Is This It*. Richard Osman on Roxy Music's *For Your Pleasure*. And many, many more. Each entry features an introduction to each album by blog creator Martin Fitzgerald. What follows are delightful, humorous and insightful contributions from each guest as they have an album forced upon them and - for better or worse - they discover some of the world's favourite music. Ruth and Martin's Album Club is a compilation of some of the blog's greatest hits as well as some exclusive material that has never appeared anywhere before. Throughout, we get an insight into why some people opt out of some music, and what happens when you force them to opt in.

Travels in West Africa Mary Kingsley,2019-06-28 Mary Henrietta Kingsley was an English ethnographic and scientific writer and explorer whose travels throughout West Africa and resulting work helped shape European perceptions of African cultures and British imperialism. After a preliminary visit to the Canary Islands, Kingsley decided to travel to the west coast of Africa. The only non-African women who regularly embarked on (often dangerous) journeys to Africa were usually the wives of missionaries, government officials, or explorers. Exploration and adventure were not seen as fitting roles for women in the Victorian era. Yet, when Mary Kingsley's invalid parents died within six weeks of each other, she followed in her explorer father's footsteps and traveled to Africa against her society's every convention. Here is her lively and witty account of that journey, an immediate bestseller when it first came out in 1897 and every bit as gripping today. Kingsley's complicated and indomitable character shines through in each sentence, as she describes hacking, marching, and climbing her way through the continent. After more than a century, she remains a feminist icon and a most remarkable woman.

**Foundations of Sport-Related Brain Injuries** Semyon M. Slobounov, Wayne J. Sebastianelli, 2006-08-25 In summarizing current insights and controversies over concussions in athletics, this book makes the vital point that symptom resolution does not necessarily mean injury resolution. Research shows that dysfunctional pathways continue for extended periods even after a minor concussion. Until the consequences of short-term perturbations and long-term residual brain dysfunctions are better understood, concussions must be treated with respect and given a higher priority for continued research activity.
