

The Racial Contract Charles Mills

Debbie Bargallie

The Racial Contract Charles W. Mills, 2022-04-15 The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged contract has shaped a system of global European domination: how it brings into existence whites and non-whites, full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent The Racial Contract continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

The Contract and Domination Carole Pateman, Charles Mills, 2013-04-23 Contract and Domination offers a bold challenge to contemporary contract theory, arguing that it should either be fundamentally rethought or abandoned altogether. Since the publication of John Rawls's A Theory of Justice, contract theory has once again become central to the Western political tradition. But gender justice is neglected and racial justice almost completely ignored. Carole Pateman and Charles Mills's earlier books, The Sexual Contract (1988) and The Racial Contract (1997), offered devastating critiques of gender and racial domination and the contemporary contract tradition's silence on them. Both books have become classics of revisionist radical democratic political theory. Now Pateman and Mills are collaborating for the first time in an interdisciplinary volume, drawing on their insights from political science and philosophy. They are building on but going beyond their earlier work to bring the sexual and racial contracts together. In Contract and Domination, Pateman and Mills discuss their differences about contract theory and whether it has a useful future, excavate the (white) settler contract that created new civil societies in North America and Australia, argue via a non-ideal contract for reparations to black Americans, confront the evasions of contemporary contract theorists, explore the intersections of gender and race and the global sexual-racial contract, and reply to their critics. This iconoclastic book throws the gauntlet down to mainstream white male contract theory. It is vital reading for anyone with an interest in political theory and political philosophy, and the systems of male and racial domination.

Black Rights/white Wrongs Charles Wade Mills,2017 Liberalism is the political philosophy of equal persons, yet liberalism has denied equality to those it saw as black sub-persons. In *Black Rights/White Wrongs: The Critique of Racial Liberalism*, political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in the United States today.

The Racial Contract Charles Wade Mills,1997-09-11 Argues that racially structured discrimination is the norm by using social contract theory.

From Class to Race Charles Mills,2003-11-19 In *From Class to Race*, Charles Mills maps the theoretical route that brought him to the innovative conceptual framework outlined in his academic bestseller *The Racial Contract* (1997). Mills argues for a new critical theory that develops the insights of the black radical political tradition. While challenging conventional interpretations of key Marxist concepts and claims, the author contends that Marxism has been 'white' insofar as it has failed to recognize the centrality of race and white supremacy to the making of the modern world. By appealing to both mainstream liberal values and the structuralism traditionally associated with the left, Mills asserts that critical race theory can radicalize the mainstream Enlightenment and develop a new kind of contractarianism that deals frontally with race and other forms of social oppression rather than evading them.

Blackness Visible Charles W. Mills,2015-12-18 Charles Mills makes visible in the world of mainstream philosophy some of the crucial issues of the black experience. Ralph Ellison's metaphor of black invisibility has special relevance to philosophy, whose demographic and conceptual whiteness has long been a source of wonder and complaint to racial minorities. Mills points out the absence of any philosophical narrative theorizing and detailing race's centrality to the recent history of the West, such as feminists have articulated for gender domination. European expansionism in its various forms, Mills contends, generates a social ontology of race that warrants philosophical attention. Through expropriation, settlement, slavery, and colonialism, race comes into existence as simultaneously real and unreal: ontological without being biological, metaphysical without being physical, existential without being essential, shaping one's being without being in one's shape. His essays explore the contrasting sums of a white and black modernity, examine standpoint epistemology and the metaphysics of racial identity, look at black-Jewish relations and racial conspiracy theories, map the workings of a white-supremacist polity and the contours of a racist moral consciousness, and analyze the presuppositions of Frederick Douglass's famous July 4 prognosis for black political inclusion. Collectively they demonstrate what exciting new philosophical terrain can be opened up once the color line in western philosophy is made visible and addressed.

Why Race Still Matters Alana Lentin,2020-04-22 'Why are you making this about race?' This question is repeated daily in public and in the media. Calling someone racist in these times of mounting white supremacy seems to be a worse insult than racism itself. In our supposedly post-racial society, surely it's time to stop talking about race? This powerful refutation is

a call to notice not just when and how race still matters but when, how and why it is said not to matter. Race critical scholar Alana Lentin argues that society is in urgent need of developing the skills of racial literacy, by jettisoning the idea that race is something and unveiling what race does as a key technology of modern rule, hidden in plain sight. Weaving together international examples, she eviscerates misconceptions such as reverse racism and the newfound acceptability of 'race realism', bursts the 'I'm not racist, but' justification, complicates the common criticisms of identity politics and warns against using concerns about antisemitism as a proxy for antiracism. Dominant voices in society suggest we are talking too much about race. Lentin shows why we actually need to talk about it more and how in doing so we can act to make it matter less.

Unmasking the Racial Contract Debbie Bargallie, 2020 Growing numbers of Indigenous people in Australia are entering historically white, structurally racist workplaces. This book is a study of one such workplace: the Australian Public Service. Bargallie shows that despite claims of fairness, inclusion, opportunity, respect and racial equality for all, Indigenous employees continue to languish on the lower rungs of the Australian Public Service employment ladder. By showing how racism is normalised in white institutions, Bargallie aims to help us see and understand -- and ultimately challenge -- racism. Written from an Indigenous standpoint, it uses race as a key framework to critically examine the discrimination faced by Indigenous employees in an Australian institution. Bargallie provides an insiders perspective, privileging the voices of other Indigenous employees, and she applies critical race theory to unmask the racial contract that underpins the 'absent presence' of racism in the Australian Public Service. Bargallie provides an important counter-narrative to the pervasive myth of meritocracy, and encourages readers to consider the effects of the racial contract in colonial-colonised relations in Australia more broadly.

Race and Epistemologies of Ignorance Shannon Sullivan, Nancy Tuana, 2012-02-01 Offering a wide variety of philosophical approaches to the neglected philosophical problem of ignorance, this groundbreaking collection builds on Charles Mills's claim that racism involves an inverted epistemology, an epistemology of ignorance. Contributors explore how different forms of ignorance linked to race are produced and sustained and what role they play in promoting racism and white privilege. They argue that the ignorance that underpins racism is not a simple gap in knowledge, the accidental result of an epistemological oversight. In the case of racial oppression, ignorance often is actively produced for purposes of domination and exploitation. But as these essays demonstrate, ignorance is not simply a tool of oppression wielded by the powerful. It can also be a strategy for survival, an important tool for people of color to wield against white privilege and white supremacy. The book concludes that understanding ignorance and the politics of such ignorance should be a key element of epistemological and social/political analyses, for it has the potential to reveal the role of power in the construction of what is known and provide a lens for the political values at work in knowledge practices.

Radical Theory, Caribbean Reality Charles Wade Mills, 2010 *Radical Theory, Caribbean Reality* is a collection of

articles written over many years that explores the common themes of race and class in the Caribbean and the attempt to overcome social domination. Beginning with an autobiographical account of how his own philosophical outlook was shaped by the radicalization of the region following the 1968 Rodney riots, Jamaican philosopher Charles Mills looks both at those turbulent times and at their aftermath. The essays examine abstract political theory (Marxism, critical race theory, liberal social contract theory) while also focusing on specific Caribbean ideas, issues and events, such as M.G. Smith's plural society thesis, portrayals of the Jamaican left in popular thrillers, the collapse of the Grenada Revolution, smadditizin' as the affirmation of personhood in a racist society and the evolution of Stuart Hall's views on race. As such, they all share a concern with the struggle for a more just social order and are radically oriented. The title has a double meaning insofar as it signifies both the application of radical theory to the Caribbean reality, and the ways in which that reality has too often collided with the theory; revealing its inadequacies. As Mills explains, The overall aim is to elucidate some classic subjects and themes in radical theory, both generally and with local Caribbean application, and to map in the process a trajectory of intellectual development not peculiar to my own history but traced by many others of my generation also. Radical Theory, Caribbean Reality is a long overdue collection on the Caribbean from one of its most accomplished scholars....Mills's books to date have focused either on broad questions of race or specific matters related to ideology. This, in a sense, represents his coming home to the Caribbean and his analysis of late-twentieth-century Caribbean politics and society.---Brian Meeks, Professor of Social and Political Change, Director of the Sir Arthur Lewis Institute of Social and Economic Studies, and Director of the Centre for Caribbean Thought, University of the West Indies, Jamaica

Race and Racism in Modern Philosophy Andrew Valls,2005 An innovative, substantial intervention in critical race theory, this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy.

Martin Versfeld Ernst Wolff ,2021-10-15 Martin Versfeld (1909-1995) is one of South Africa's greatest philosophers, appreciated by academics and activists, poets and the broader public. His masterful prose spans the tension between disquiet

and joy. Detractor of the violent trends of modernity, a critic of apartheid from the first hour, he was among the first philosophers of ecology. At the same time he celebrated the generosity of the world and advocated an ethics of simplicity, drawing on mediaeval theology and Eastern wisdom. His philosophy offered food for thought in dark times of the 20th century, as it still does for us in the 21st century. This first book-length study on Versfeld is an invitation to think with him on justice and exploitation, cultural difference and human nature, religion and the environment, time and connectedness.

The Capacity Contract Stacy Clifford Simpican, 2015-03-15 In the first sustained examination of disability through the lens of political theory, *The Capacity Contract* shows how the exclusion of disabled people has shaped democratic politics. Stacy Clifford Simpican demonstrates how disability buttresses systems of domination based on race, sex, and gender. She exposes how democratic theory and politics have long blocked from political citizenship anyone whose cognitive capacity falls below a threshold level—marginalization with real-world repercussions on the implementation of disability rights today. Simpican’s compelling ethnographic analysis of the self-advocacy movement describes the obstacles it faces. From the outside, the movement must confront stiff budget cuts and dwindling memberships; internally, self-advocates must find ways to demand political standing without reinforcing entrenched stigma against people with profound cognitive disabilities. And yet Simpican’s investigation also offers democratic theorists and disability activists a more emancipatory vision of democracy as it relates to disability—one that focuses on enabling people to engage in public and spontaneous action to disrupt exclusion and stigma. Taking seriously democratic promises of equality and inclusion, *The Capacity Contract* rejects conceptions of political citizenship that privilege cognitive capacity and, instead, centers such citizenship on action that is accessible to all people.

Living with Class R. Scapp, B. Seitz, 2013-12-18 A philosophical-cultural exploration, this book expands the discussion of class from a novel perspective. Following the current debates about wealth and class, the contributors address the social and cultural phenomena of class from a uniquely innovative philosophical approach and reconsider philosophical givens within the context of culture.

Shadow Country Peter Matthiessen, 2010-07-01 Inspired by a near-mythic event of the wild Florida frontier at the turn of the twentieth century, *Shadow Country* reimagines the legend of the inspired Everglades sugar planter and notorious outlaw E. J. Watson, who drives himself to his own violent end at the hands of his neighbours. His son Lucius investigates the killing which has come to obsess him. In this bold new rendering of the Watson trilogy Matthiessen has deepened the insights and motivations of his characters, consolidating his fictional masterwork into a poetic, compelling novel of a monumental scope and ambition, with breathtaking accomplishment.

The Racial State David Theo Goldberg, 2002 By interrogating conceptual shifts in defining the racial state over time, Goldberg shows that debates and struggles about race in a wide variety of societies are really about the nature of political

constitution and community. The book concludes with a discussion of how state and citizenship might be reconceived on assumptions of heterogeneity, mobility, and global openness. In this way, at the same time as providing a comprehensive account of modern state formation through racial configuration, this book also rethinks contemporary racial theorising.

Edmund Burke for Our Time William F. Byrne, 2021-08-15 This highly readable book offers a contemporary interpretation of the political thought of Edmund Burke, drawing on his experiences to illuminate and address fundamental questions of politics and society that are of particular interest today. In *Edmund Burke for Our Time*, Byrne asserts that Burke's politics is reflective of unique and sophisticated ideas about how people think and learn and about determinants of political behavior.
