*Advances in Medical Education* A.J.J.A. Scherpbier, Cees P.M. van der Vleuten, J.J. Rethans, A.F.W. van der Steeg, 2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences. During and after the conference about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression.

Despite the large number of papers, the editors have attempted to review and edit the papers as care fully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to - occasionally tedious - editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo-Berger whose expertise with desk top publishing and perseverance was a great help.

**Organizational Learning Contracts** Paul S. Goodman,2011-04-29 This book addresses a new concept, the organizational learning contract, a shared agreement among the faculty, staff, and students in an educational institution about what, how, where, and when learning should take place. Goodman, who has pioneered the concept in his work with new and traditional institutions, examines the consequences of strong and weak contracts while bridging theory with practice. In the first section, Goodman develops the concept of the organizational learning contract, builds measures, and

The second section, which includes the perspectives of two leaders of start-up institutions who have created new organizational contracts, explores issues of design and change in introducing the concept into new and existing institutions.
