Minería y desarrollo. Tomo 2 Mauricio Baquero Herrera,María del Pilar García,2016-04-01 La investigación cubre algunos de los aspectos más sensibles de la tensa relación ente la protección del medio ambiente y la actividad minera, en el marco general de la obra Minería y desarrollo. El análisis comienza por reconocer los múltiples conflictos que dicha relación sugiere, y ahonda en el estudio de los instrumentos que el ordenamiento jurídico ha desarrollado ya sea para prevenir las consecuencias negativas derivadas del desarrollo de la actividad minera o para definir las consecuencias de la acción antijurídica. Del mismo modo, este texto estudia desde múltiples perspectivas la forma como se han transformado los instrumentos económicos, financieros, de mercado y fiscales ante la necesidad de salvaguardar el patrimonio natural. Así las cosas, el estudio de la actividad minera, como el lector podrá reconocer a lo largo de este texto, se realiza sobre la base de dos pilares fundamentales a saber: el medio ambiente y el desarrollo sostenible. El primero, entendido de conformidad con lo determinado por la Ley 23 de 1973 y por el Decreto ley 2811 de 1974, es decir, como un patrimonio común cuyo mejoramiento y conservación son actividades de utilidad pública e interés social que exigen la participación del Estado y de los particulares. El segundo, el desarrollo sostenible, es entendido desde la concepción basal propuesta por el informe Nuestro Futuro Común como aquel que permite la satisfacción de las necesidades presentes sin comprometer la de las futuras generaciones. Sobre estas bases desarrollaremos algunas reflexiones preliminares que permitirán comprender el contexto de la obra.

Sociología de la felicidad Cecilia Arizaga,2017-11-22 Este libro explora los valores, las prácticas y los imaginarios de hombres y mujeres de sectores medios urbanos que en las últimas décadas se han posicionado como competitivos y ascendentes. Pero, al mismo tiempo, se trata de sectores altamente vulnerables en dos niveles: vulnerabilidad social, en referencia a perder el estatus alcanzado, y vulnerabilidad psicológica, en cuanto son demandados por un management del yo y la permanente búsqueda de la autenticidad y el bienestar en medio de un panorama cargado de incertidumbre. Desde esta perspectiva, la autora indaga en tres fenómenos como ventanas para explorar el tema: la idea de comunidad y construcción de un nosotros homogéneo en los lugares donde estos hombres y mujeres eligen vivir urbanizaciones cerradas suburbanas, torres exclusivas, barrios distinguidos, el cultivo de la sensibilidad en el ámbito doméstico y el consumo de psicotrópicos como modo para sostener un estilo de vida. Estos tres aspectos representan recursos mediante los cuales las clases medias intentan gestionar la incertidumbre, exorcizar temores, conquistar una felicidad que pueda ser exhibida ante propios y extraños y, en definitiva, forjar nichos de certeza y de bienestar emocional que ayuden a hacer su mundo cotidiano más vivible.

Y ahora, ¿qué? Aldana Contrera,Ileana Contrera,2022-04-26 Fantaseamos una y mil veces con la maternidad. Un día, el deseo se hace realidad, pero no es todo color de rosa... Nos sentimos mal, tenemos miedos, incertidumbre y muchas dudas. La vida tambalea. Entonces nos preguntamos: Y ahora, ¿qué? Ileana Contrera, psicóloga, y Aldana Contrera, puericultora y consultora en crianza, ambas creadoras de la cuenta de Instagram @lazonatal, revelan lo que nadie nos cuenta (y tenemos que saber) sobre embarazo, posparto, lactancia y crianza.

Carlos Fuentes, relectura de su obra Georgina García-Gutiérrez,1995

Protección jurisdiccional y observancia de la propiedad industrial y de los derechos de autor Juan Francisco Ortega Díaz, José Fernando Sandoval Gutiérrez, 2022-09-01 La observancia de la propiedad intelectual —eso que en el mundo anglosajón se conoce como enforcement— es una realidad que no ha tenido especial atención en la doctrina latinoamericana. La protección real y efectiva de estos derechos pareciera constituir un elemento teórico de interés menor. Sin embargo, sin el conjunto de acciones procesales y régimen jurídico que permite la observancia, el derecho de la propiedad intelectual devendría en una suerte de juego intelectual muy alejado de su instrumental función regulatoria. La intención de este libro es suplir esta falta de atención desde una perspectiva regional. Así, en estas páginas se analizarán cuestiones como el examen de la propia protección judicial de la propiedad intelectual —como categoría general— y la interpretación prejudicial andina, además de aspectos nucleares como la responsabilidad civil por infracción de derechos o el estudio de algunas de las acciones procesales más problemáticas de esta disciplina.

The Green Web Martin Holdgate, 2014-04-08 This text is a history of the world's oldest global conservation body - the World Conservation Union, established in 1948 as a forum for governments, non-governmental organizations and individual conservationists. The author draws on unpublished archives to reveal the often turbulent story of the IUCN and its achievements in, and influence on, conservation and environmental policy worldwide - establishing national parks and protected areas and defending threatened species.

Forma y voluntad Guillermo Aguirre-Martínez, 2015-10-21 Con *Forma y voluntad*, Guillermo Aguirre-Martínez expone los cimientos de una particular arquitectura de las ideas estéticas. El ensayo pretende ofrecer una exposición de los fenómenos y desarrollos cíclicos de los que forma parte y con los que interactúa la actividad estética. Procesos dinámicos divididos en el presente estudio en dos dualidades: civilización y cultura por un lado, y naturaleza y técnica por el otro, sin que ningún término de cada par anule a su complementario, pues todos ellos interaccionan recíprocamente en el camino que conduce hacia la obra de arte, núcleo y florecencia de todo desarrollo estético. Tomando como base la variedad de esferas con las que se pone en relación la creación estética, describe su constante transformación, una división elemental entre un arte figurativo y un arte abstracto, binomio que denota posiblemente mejor que cualquier otro los límites y potencialidades de la propia actividad artística.

Alconte Juan Montesinos Ortuño,2019-08-01 La novela, que no deja de ser metanovela, se construye y se explicita a sí misma a lo largo de su ejecución. \r\nLa obra se distribuye en dos partes aparentemente iguales. Sin embargo, si hubiéramos de caracterizarlas, diríamos que el «Acto I» representa el camino de ida o hacia arriba, y el «Acto II» el de vuelta o hacia abajo.
