*The House of the Spirits* Isabel Allende, 2015-12-15 The Trueba family embodies strong feelings. This family saga starts at the beginning of the 20th century and continues through the assassination of Allende in 1973.

*The Great Gatsby* F. Scott Fitzgerald, 2023-12-28 *The Great Gatsby*, set in the town of West Egg on prosperous Long Island in the summer of 1922, concerns the young and mysterious millionaire Jay Gatsby and his quixotic passion and obsession for the beautiful former debutante Daisy Buchanan. The novel explores themes of decadence, idealism, resistance to change, social upheaval, and excess, creating a portrait of the Jazz Age or the Roaring Twenties that has been described as a cautionary tale regarding the American Dream.

**Impacto de los desastres en la salud pública** Eric K. Noji, 2000 Throughout the book the focus is on the level of epidemiologic knowledge about each aspect of disasters. Exposure-, disease-, and health-event surveillance are stressed because of the importance of objective data to disaster epidemiology and effective decision-making. In addition, the contributors pay particular attention to prevention and control measures, and provide practical recommendations in areas in which the public health practitioner needs more useful information. The text advocates stronger epidemiologic awareness as the basis for better understanding and control of disasters. A comprehensive theoretical and practical treatment of the subject, *The Public Health Consequences of Disasters* is an invaluable tool for epidemiologists, disaster relief specialists, physicians, and other public health professionals who treat disaster victims.

**Emotional Intelligence** Daniel Goleman, 1996 Is IQ destiny? Not nearly as much as we think. This fascinating and persuasive program argues that our view of human intelligence is far too narrow, ignoring a crucial range of abilities that matter immensely in terms of how we do in life. Drawing on groundbreaking brain and behavioral research, Daniel Goleman shows the factors at work when people of high IQ flounder and those of modest IQ do well. These factors add up to a different way of being smart -- one he terms emotional intelligence. This includes self-awareness and impulse control, persistence, zeal and self-motivation, empathy and social deftness. These are the qualities that mark people who excel in life, whose relationships flourish, who are stars in the workplace. Lack of emotional intelligence can sabotage the intellect and ruin careers. Perhaps the greatest toll is on children, for whom risks include depression, eating disorders, unwanted pregnancies, aggressiveness and crime. But the news is hopeful. Emotional intelligence is not fixed at birth, and the author

shows how its vital qualities can be nurtured and strengthened in all of us. And because the emotional lessons a child learns actually sculpt the brain's circuitry, he provides guidance as to how parents and schools can best use this window of opportunity in childhood. The message of this eye-opening program is one we must take to heart: the true bell curve for a democracy must measure emotional intelligence

*The Public Health Consequences of Disasters* Eric K. Noji, 1996-11-14 Natural and man-made disasters--earthquakes, floods, volcanic eruptions, industrial crises, and many others--have claimed more than 3 million lives during the past 20 years, adversely affected the lives of at least 800 million people, and caused more than 50 billion dollars in property damages. A major disaster occurs almost daily in some part of the world. Increasing population densities in flood plains, along vulnerable coastal areas, and near dangerous faults in the earth's crust, as well as the rapid industrialization of developing economies are factors likely to make the threat posed by natural disasters much bigger in the future. Illustrated with examples from recent research in the field, this book summarizes the most pertinent and useful information about the public health impact of natural and man-made disasters. It is divided into four sections dealing with general concerns, geophysical events, weather-related problems, and human-generated disasters. The author starts with a comprehensive discussion of the concepts and role of surveillance and epidemiology, highlighting general environmental health concerns, such as sanitation, water, shelter, and sewage. The other chapters, based on a variety of experiences and literature drawn from both developing and industrialized countries, cover discrete types of natural and technological hazards, addressing their history, origin, nature, observation, and control. Throughout the book the focus is on the level of epidemiologic knowledge on each aspect of natural and man-made disasters. Exposure-, disease-, and health-event surveillance are stressed because of the importance of objective data to disaster epidemiology. In addition, Noji pays particular attention to prevention and control measures, and provides practical recommendations in areas in which the public health practitioner needs more useful information. He advocates stronger epidemiologic awareness as the basis for better understanding and control of disasters. A comprehensive theoretical and practical treatment of the subject, *The Public Health Consequences of Disasters* is an invaluable tool for epidemiologists, disaster relief specialists, and physicians who treat disaster victims.

*Nineteen Eighty-Four* George Orwell, 2022-01-20 WAR IS PEACE FREEDOM IS SLAVERY IGNORANCE IS STRENGTH Winston Smith is a good worker. He supports the Party. He is good at his job rewriting history to Government specification. Big Brother watches him, but there is nothing to see. Winston's struggle against the totalitarian world he inhabits is a closely guarded secret. It exists only in his mind until he begins a secret love affair with Julia, a fellow worker. Is this enough to push him to revolution? Or is it the beginning of his downfall? A masterwork of dystopian fiction, *Nineteen Eighty-Four* is harrowingly prescient, and its impact has stretched around the globe. With a new introduction by political editor and writer Ian Dunt, this brand new edition of a science fiction classic is a must-have for any collector.

Chronicle of a Death Foretold Gabriel García Márquez,2014-10-15 NOBEL PRIZE WINNER • From the author of *One Hundred Years of Solitude* comes the gripping story of the murder of a young aristocrat that puts an entire society—not just a pair of murderers—on trial. A man returns to the town where a baffling murder took place 27 years earlier, determined to get to the bottom of the story. Just hours after marrying the beautiful Angela Vicario, everyone agrees, Bayardo San Roman returned his bride in disgrace to her parents. Her distraught family forced her to name her first lover; and her twin brothers announced their intention to murder Santiago Nasar for dishonoring their sister. Yet if everyone knew the murder was going to happen, why did no one intervene to stop it? The more that is learned, the less is understood, as the story races to its inexplicable conclusion.

**Ingenieria civil**, 1971

*The Kenya Ceramic Jiko* Hugh Allen,1991 Modelled on the Kenyan traditional stove, the Kenyan ceramic jiko burns 25 to 40 per cent less charcoal compared to traditional metal stoves and has been introduced successfully into many parts of Africa. This book describes methods of production and discusses questions of product quality.

**Les Misérables** Victor Hugo,2016

Hopscotch Julio Cortázar,2020-02-06 Julio Cortazar's crazed masterpiece, the forbearer of the Latin Boom in the 1960s - published in Vintage Classics for the first time 'Cortazar's masterpiece. This is the first great novel of Spanish America... A powerful anti-novel but, like deeply understood moments in life itself, rich with many kinds of potential meanings and intimations' Times Literary Supplement Dazed by the disappearance of his muse, Argentinian writer Horatio Oliveira wanders the bridges of Paris, the sounds of jazz and the talk of literature, life and art echoing around him. But a chance encounter with a literary idol and his new work - a novel that can be read in random order - sends Horatio's mind into further confusion. As a return to Buenos Aires beckons, Horatio's friend and fellow artist, Traveler, awaits his arrival with dread -the lives of these two young writers now ready to play out in an inexhaustible game of indeterminacy.

**The Curious Incident of the Dog in the Night-Time** Mark Haddon,2004-05-18 NATIONAL BESTSELLER • A modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. “Disorienting and reorienting the reader to devastating effect.... Suspenseful and harrowing.” —The New York Times Book Review Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

**Modern Stoves for All** Waclaw Micuta,1985 Revised edition of this practical survey of low-cost stoves for use in

developing countries. Prepared for skilled technicians who will be able to use the drawings as a basis for building stove models, for testing and adaptation to local conditions.

**The Rings of Saturn** W.G. Sebald,2013-11-30 'Sebald is the Joyce of the 21st Century' The Times What begins as the record of W. G. Sebald's own journey on foot through coastal East Anglia, from Lowestoft to Bungay, becomes the conductor of evocations of people and cultures past and present. From Chateaubriand, Thomas Browne, Swinburne and Conrad, to fishing fleets, skulls and silkworms, the result is an intricately patterned and haunting book on the transience of all things human. 'A novel of ideas with a difference: it is nothing but ideas... Formally dexterous, fearlessly written (why shouldn't an essay be a novel?), and unremittingly arcane; by the end I was in tears' Teju Cole, Guardian

**Born to Run** Christopher McDougall,2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

**Invisible Cities** Italo Calvino,2010-12-14 Fifty-five fictional cities, each described in beautiful detail - each with a woman's name... In Invisible Cities Marco Polo conjures up cities of magical times for his host, the Chinese ruler Kublai Khan, but gradually it becomes clear that he is actually describing one city: Venice. As Gore Vidal wrote 'Of all tasks, describing the contents of a book is the most difficult and in the case of a marvellous invention like Invisible Cities, perfectly irrelevant.' This is a captivating meditation on culture, language, time, memory and the nature of human experience. 'Invisible Cities changed the way we read and what is possible in the balance between poetry and prose... The book I would choose as pillow and plate, alone on a desert island' Jeanette Winterson 'Touches inexhaustibly on the essence of the human urge to create cities, be in cities, speak of cities' Guardian 'A subtle and beautiful meditation' Sunday Times

**Abundance** Peter H. Diamandis,Steven Kotler,2014-09-23 The authors document how four forces--exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. Abundance establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

**Venezuela** Rafael Uzcategui,2012-01-01 A critical look at the Chavez regime from a leftist Venezuelan perspective, this

account debunks claims made by Venezuelan and U.S. rightists that the regime is antidemocratic and dictatorial. Instead, the book argues that the Chavez government is one of a long line of Latin American populist organizations that have been ultimately subservient to the United States as well as multinational corporations. Explaining how autonomous Venezuelan social, labor, and environmental movements have been systematically disempowered by the Chavez regime, this analysis contends that these movements are the basis of a truly democratic, revolutionary alternative.

*Lord of the Flies* William Golding, 2012-09-20 A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, *Lord of the Flies* is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on *Lord of the Flies* by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.
