Sophie's World Jostein Gaarder, 2010-07-15 The international bestseller about life, the universe and everything. 'A simply wonderful, irresistible book' DAILY TELEGRAPH 'A terrifically entertaining and imaginative story wrapped round its tough, thought-provoking philosophical heart' DAILY MAIL 'Remarkable ... an extraordinary achievement' SUNDAY TIMES When 14-year-old Sophie encounters a mysterious mentor who introduces her to philosophy, mysteries deepen in her own life. Why does she keep getting postcards addressed to another girl? Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined. A phenomenal worldwide bestseller, SOPHIE'S WORLD sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. A brilliantly original and fascinating story with many twists and turns, it raises profound questions about the meaning of life and the origin of the universe.

Gestalt Therapy Verbatim Frederick S. Perls, 1992 Originally published: Lafayette, CA: Real People Press, 1969.

Technics and Civilization Lewis Mumford, 2010-10-30 Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, Technics and Civilization was the first comprehensive attempt in English to portray

the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of *Technics and Civilization* still deserve our attention, nearly three quarters of a century after they were written.”—*Journal of Technology and Culture*

The Shadow of the Wind Carlos Ruiz Zafon, 2005-01-25 Anyone who enjoys novels that are scary, erotic, touching, tragic and thrilling should rush right out to the nearest bookstore and pick up *The Shadow of the Wind*. Really, you should. —Michael Dirda, *The Washington Post* “Wondrous...masterful...*The Shadow of the Wind* is ultimately a love letter to literature, intended for readers as passionate about storytelling as its young hero.” —*Entertainment Weekly*, Editor's Choice “This is one gorgeous read.” —Stephen King I still remember the day my father took me to the Cemetery of Forgotten Books for the first time... Barcelona, 1945: A city slowly heals in the aftermath of the Spanish Civil War, and Daniel, an antiquarian book dealer's son who mourns the loss of his mother, finds solace in a mysterious book entitled *The Shadow of the Wind*, by one Julián Carax. But when he sets out to find the author's other works, he makes a shocking discovery: someone has been systematically destroying every copy of every book Carax has written. In fact, Daniel may have the last of Carax's books in existence. Soon Daniel's seemingly innocent quest opens a door into one of Barcelona's darkest secrets—an epic story of murder, madness, and doomed love.

A History Of Psychology: Main Currents In Psychological, 6/E Leahey, Leahey Thomas Hardy, 2004-09

NICOMACHEAN ETHICS Aristotle, 2017-04-20 ♦EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned. ♦

The Craftsman Richard Sennett, 2009-02-05 Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being,

which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. The Craftsman shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.

The Disappearing Spoon Sam Kean, 2010-07-12 From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters? The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. The Disappearing Spoon masterfully fuses science with the classic lore of invention, investigation, and discovery -- from the Big Bang through the end of time. Though solid at room temperature, gallium is a moldable metal that melts at 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their utensils disappear.

The Historian's Craft Marc Bloch , 2024-12-11 The work explores the craft of the historian from a number of different angles and discusses what constitutes history and how it should be configured and created in literary form by the historian. The scope of the work is broad across space and time: in one chapter, for instance, he cites a number of examples of erroneous history-writing and forgeries, citing sources as wide-ranging as the Commentaries of Julius Caesar and the Protocols of the Elders of Zion. His approach is one that is configured not for those who are necessarily professional historians themselves (members of what he referred to as 'the guild') but instead for all interested readers and non-specialists. Bloch also expressed the viewpoint that the craft of the historian should not be a judgmental one that the historian should attempt to explain and describe rather than evaluate in normative terms. At one stage in the work, for instance, Bloch observes that the mania for making judgments is a satanic enemy of true history.

Into the Wild Jon Krakauer, 2018-07-12 Jon Krakauer's Into the Wild examines the true story of Chris McCandless, a young man who walked deep into the Alaskan wilderness and whose SOS note and emaciated corpse were found four months later. With an introduction by novelist David Vann. In April 1992, Chris McCandless set off alone into the Alaskan wild. He had given his savings to charity, abandoned his car and his possessions, and burnt the money in his wallet, determined to live a life of independence. Just four months later, Chris was found dead. An SOS note was taped to his makeshift home, an abandoned bus. In piecing together the final travels of this extraordinary young man's life, Jon Krakauer writes about the

heart of the wilderness, its terrible beauty and its relentless harshness. Into the Wild is a modern classic of travel writing, and a riveting exploration of what drives some of us to risk more than we can afford to lose. From the author of Under the Banner of Heaven and Into Thin Air. A film adaptation of Into the Wild was directed by Sean Penn and starred Emile Hirsch and Kristen Stewart. 'It may be nonfiction, but Into the Wild is a mystery of the highest order.' - Entertainment Weekly

The Gutenberg Galaxy Marshall McLuhan,1962-01-01 Since its first appearance in 1962, the impact of The Gutenberg Galaxy has been felt around the world. It gave us the concept of the global village; that phrase has now been translated, along with the rest of the book, into twelve languages, from Japanese to Serbo-Croat. It helped establish Marshall McLuhan as the original 'media guru.' More than 200,000 copies are in print. The reissue of this landmark book reflects the continuing importance of McLuhan's work for contemporary readers.

Wonderful Life Stephen Jay Gould,2000 Centring on the discovery in the Burgess Shale of 530 million year old fossils unique in age, preservation and diversity, this book challenges perceptions about man's place in the history of life.

Eudemian Ethics Aristotle,Aeterna Press,2015-09-01 The Eudemian Ethics and the De Virtutibus et Vitiis have not received much attention from scholars. Mr. Ross's suggestions have been of the greatest use to me; Fritzsche's commentary I have sometimes referred to with advantage, and also to some notes printed by Prof. Henry Jackson and kindly sent me by him some years ago. Prof. Jackson is also the author of an article in the Journal of Philology, xxxii, which has shed a flood of light on the corrupt passage, Bk. VII, chs. 13, 14. Of course the principal help to the understanding of the two treatises is the Nicomachean Ethics, their resemblances to and differences from which work are of great interest. Aeterna Press

Rules for Radicals Saul Alinsky,2010-06-30 "This country's leading hell-raiser (The Nation) shares his impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

The Rings of Saturn W.G. Sebald,2013-11-30 'Sebald is the Joyce of the 21st Century' The Times What begins as the record of W. G. Sebald's own journey on foot through coastal East Anglia, from Lowestoft to Bungay, becomes the conductor

of evocations of people and cultures past and present. From Chateaubriand, Thomas Browne, Swinburne and Conrad, to fishing fleets, skulls and silkworms, the result is an intricately patterned and haunting book on the transience of all things human. 'A novel of ideas with a difference: it is nothing but ideas... Formally dexterous, fearlessly written (why shouldn't an essay be a novel?), and unremittingly arcane; by the end I was in tears' Teju Cole, Guardian
