Letters of a Peruvian Woman Françoise de Graffigny,2009-01-08 'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by Déterville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the Letters of a Peruvian Woman recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Françoise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes 'civilization'. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Pescara Tales (1902) Gabriele D'Annunzio,2017-07 The setting for his collection of eighteen stories by Gabriele D'Annunzio (1863-1938) was the Adriatic seaport of Pescara and its hinterland in the Italian region of Abruzzo, the author depicting events and personalities from the time of his youth, but also drawing from bygone incidents that were yet memorable in the area's folk history. Pescara may not have had the cachet of celebrated cities such as Venice or Florence,

but sympathetically and wryly revealed here by the pen of one of Italy's great writers it lives and breathes with a vitality probably best compared to that of James Joyce's 'dear dirty Dublin'. Indeed Joyce, who admired D'Annunzio, may well have been inspired by the Italian's cameos of small-town life, his parade of saints, voluptuaries and reprobates, their repressions, obsessions, individual dissolutions, collective explosions of anarchy, and their aptness for bizarre behavior that extended from the catatonic to the manic. D'Annunzio came to recognize just how exotic his native region was after he had left it for Rome, where he worked for some years as a journalist and essay writer in the employ of various literary magazines. His Abruzzo articles, and especially those in which he records examples of extraordinary devotional behavior (akin to what Mark Twain was witnessing at that time on the banks of the Ganges), became the basis of the stories in this collection. D'Annunzio was a published poet at the age of sixteen, and his verse has never been absent from the Western Canon since. Something of his painterly style, the layered brushwork of his descriptions, the gorgeous romantic renderings of rural scenes and the moods of the sea, his celebrations of sensuality, his aesthete's fascination with all the possible bodily conditions, from the virginal-voluptuous to the decayed and moribund (he has been hailed as 'the body's poet'), will amaze and delight the reader even in the blandest and most dictionary-dependent translation. The present one is no such, however. Vladislav Zhukov is an experienced translator who has rendered works from four languages into English, including a substantial book of poetry, three volumes of short stories, and a novel (all available on Amazon.com). His knowledge of Italian is that of someone who acquired the language while living in Italy during his youth.

The Shadow Line Joseph Conrad, 2022-09-13 There is a reason why the sea is so often chosen for the setting of psychological thrillers - there is nowhere to escape to. Joseph Conrad returned to the ocean waves for 'The Shadow Line', which tells the story of a young captain trying to control and lead a ship for the first time - and the struggles that come with it! He is thrown into one crisis after another: provisions running low, his crew fighting malaria, and somebody hiding the medicine. Amid rumours of the previous captain's ghost haunting the ship, Conrad skillfully builds a claustrophobic, cloying atmosphere. Can the young captain hold his nerve and save the ship and the crew? This thrilling book is perfect for fans of 'Moby Dick' by Herman Melville and Ernest Hemingway's 'The Old Man and the Sea'. Joseph Conrad (1857-1924) was a Polish-born author who left Poland in his teens to avoid enlistment in the Russian Army. He learned English aboard British ships and started writing in the language after settling in England. His most famous novel is 'Heart of Darkness' (1899), which was inspired by his experiences on the open sea. He also wrote the classic novels 'Lord Jim' and 'Nostromo'. Among countless film and TV adaptations of his work were 'Apocalypse Now', a Vietnam War movie based on 'Heart of Darkness', and 'The Secret Agent', starring Bob Hoskins and Patricia Arquette.

Venice and Its Story Thomas Okey, 2022-08-10 This book explores the history of Venice, a State unparalleled in Europe

for permanence and stability. For centuries Venice occupied that position of maritime supremacy now held by Great Britain, and time was when an English king was fain to crave the loan of a few warships to vindicate his rights in France. The autonomy of the Venetian Republic was so imposed on men's minds that it was regarded as in the very nature of things, and even so acute an observer as Voltaire wrote in the *Dictionnaire Philosophique*, less than three decades before her fall: Venice has preserved her independence during eleven centuries, and I flatter myself will preserve it forever. In this book, the author has freely drawn from the old chronicles, while not neglecting modern historians, the chiefest of whom is the Triestine Hebrew scholar, Samuele Romanin...For purposes of description in this book, the author divided the city and outlying islands of the Venetian lagoon into twenty sections, arranged rather concerning their relative historical and artistic importance than to strict topographical considerations, although these have not been lost sight of.

The Bronze Age in Europe J. M. Coles,A. F. Harding,2014-10-30 This book provides an account of the development of European culture and society during the Bronze Age, the time span between c. 2000 and 700 BC. It was a period of remarkable innovation, seen for instance in the development and growth of metallurgy as a major industry, the spread of trading contacts, the origins of urbanism and the beginnings of social stratification. The study is divided chronologically into two, the earlier and later Bronze Age, giving a clear picture of the nature of the radical changes which occurred in the period as a whole. The geographical area covered, from the Atlantic shores across Europe into the Soviet Union and from northern Scandinavia to the Mediterranean, is too vast to be taken as one unit, and has been broken down into five regions; each is discussed in terms of settlement form, burial practices, ritual and religious sites, material culture, economic and social background, and trading patterns. The book describes and develops common themes that link together the different areas and cultural groups, rather than taking the topographical approach often adopted by Bronze Age specialists, and uses the results of radiocarbon dating to establish an objective chronology for the period. The text is generously illustrated and fully documented with radiocarbon dating tables and extensive bibliography. Our understanding of Bronze Age Europe is still increasing, but no other book of this scope had been written before this, in 1979. It is a major study of its time of interest to anyone looking beyond popular accounts of the day.

SONG OF MYSELF (The Original 1855 Edition & The 1892 Death Bed Edition) Walt Whitman,2017-12-06 Song of Myself is a poem by Walt Whitman that is included in his work *Leaves of Grass*. It has been credited as representing the core of Whitman's poetic vision. The poem was first published without sections as the first of twelve untitled poems in the first

(1855) edition of *Leaves of Grass*. The first edition was published by Whitman at his own expense. In 1856 it was called *A Poem of Walt Whitman, an American* and in 1860 it was simply termed *Walt Whitman*. Walter Walt Whitman (1819 – 1892) was an American poet, essayist and journalist. His work was very controversial in its time, particularly his poetry collection *Leaves of Grass*, which was described as obscene for its overt sexuality.

Mechanics of Coastal Sediment Transport J?rgen Freds?e, Rolf Deigaard, 1992 This book treats the subject of sediment transport in the marine environment, covering transport of non-cohesive sediment by waves and current in- and outside the surf zone. It can be read independently, but a background in hydraulics and basic wave mechanics is required. It is intended for M.Sc. and Ph.D. students. The primary aim of the book is to describe the physical processes of sediment transport and how to represent them in mathematical models. It does not present a large number of different formulae for the sediment transport rates under various conditions. The book can be divided in two main parts; in the first, the relevant hydrodynamic theory is described; in the second, sediment transport and morphological development are treated. The hydrodynamic part contains a review of elementary theory for water waves, chapters on the turbulent wave boundary layer and the turbulent interaction between waves and currents, and finally, surf zone hydrodynamics and wave driven currents. The part on sediment transport introduces the basic concepts (critical bed shear stress, bed load, suspended load and sheet layer, near-bed concentration, effect of sloping bed); it treats suspended sediment in waves and current and in the surf zone, and current and wave-generated bed forms. Finally, the modelling of cross-shore and long-shore sediment transport is described together with the development, of coastal profiles and coastlines.
