Linguistics and Psychoanalysis Michel Arrivé,1992 between linguistic and psychoanalytic concepts necessarily arises.

Until now this question has been examined mainly by psychoanalysts, from their own perspective, but here it is investigated by a linguist, who systematically explores two domains. The first is related to the sign and symbol, where the meeting of Freud, Saussure and Hjelmselv occurred; whereas in the second, that of the signifier, Saussure reappears escorted by Lacan. But Freud is not far away, since the.

The Interpretation of Ritual J. S. La Fontaine,2004 First published in 1972. A revival of interest in primitive religion has been one of the most marked characteristics of British social anthropology of recent years. Inspired by the work of Audrey Richards, whose writing on ritual contains many of the insights that have been developed in later studies, this volume uses material drawn from all over Africa and Polynesia. The contributors include: Raymond Firth, Esther Goody, Aidan Southall, R.G. Abrahams, Edwin Ardener, J.S. La Fontaine, Monica Wilson, Elizabeth Bott, Edmund Leach and P.H. Gulliver.

The Venetian Painters Of The Renaissance Bernhard Berenson,2013-04-26 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Fecundity Figures John Baines,2001 Fecundity figures, personifications of non-sexual fertility, played a significant role in ancient Egyptian religious art.

Ancient Egyptian Calligraphy Henry George Fischer,1988 The aim of this book is twofold: first, to provide beginning students with step-by-step guidance in drawing hieroglyphs; and secondly, to supplement the observations of Gardiner in the Sign List at the back of his Egyptian Grammar. The examples include all 24 of the common forms of alphabetic (monoconsonantal) signs, and a selection of other signs that are either difficult to draw or that call for additional comment - a total of about 200 in all. Comparative material, emphasizing Old Kingdom models, is presented in 175 line drawings. By familiarizing themselves with this material, along with the points made in the Introduction, students will, at the same time, learn a good deal about hieroglyphic palaeography--Publisher's description.

Annales Gandenses Hilda Johnstone, 1985 These vivid Annals, written by a Franciscan friar in Ghent c.1308-10, describe events in the Low Countries between 1297 and 1310. The introduction shows their relation to the rivalry of Philip IV of France and Edward I of England -- and this in its turn was a remarkable episode in the history of a land torn between its political intimacy with the French crown and its economic links with England. But its interest is even greater than this, as Bryce Lyon pointed out in a generous review of the present volume when it first appeared. The central event in it is the Battle of Courtrai in 1302, when the Flemish burghers destroyed the army of Philip IV -- and the Annals show 'how Courtrai and the events about it were in large part products of the social and economic turmoil of industrial Flanders'. This edition is reprinted from the original published in the Nelson's Medieval Classics series in 1951.

Sacred Performances M. E. Combs-Schilling, 1989 With penetrating insight Combs-Schilling illuminates the remarkable survival of one of the world's oldest monarchies, still ruling after 1200 years. The author unravels the paradox of this ancient yet progressive institution that has weathered invasion, economic collapse, and colonial assault. The pillars of stability for which political analysts typically search -- military strength, bureaucratic control, and commercial prosperity -- have often been absent in Morocco, sometimes for centuries. How then has the monarchy stood firm? In this remarkable book, Combs-Schilling argues that the answer is to be found in the distinctive forms of ritual practice developed during times of great crises. Unique among Islamic governments, the Moroccan monarchy became central to the popular celebrations of the most sacred rituals of Islam, cloaking itself in their sanctity. Combs-Schilling breaks new ground in thinking about ritual. The author explores the consequences of the replication and reinforcement of Morocco's national ceremonies in villages and homes and the metaphorical equivalence thereby built. The author outlines how ritual metaphors simultaneously fuse the monarchy with the hallowed prophets of Islam and the mundane structures of family life. In elucidating the forcefulness of

ritual embodiment the book challenges anthropological theory. It demonstrates that rituals created realities by inscribing them deeply within the individual's body and mind. Rituals use eros and physical substance to build imaginative abstractions. Performances of exquisite beauty and grace make the monarchy intrinsic to definitions of male and female, to experience of birth, intercourse, death, and to the ultimate longing to break death's bonds. Combs-Schilling creates a model for national political analysis that takes meaning as well as strategic power into account. The author applies the anthropological analysis of rituals to new arenas -- the nation-state and the world political economy -- without ever losing sight of the individual and the flow of daily life. The book clarifies a distinctive form of nationalism that expands the boundaries articulated by Anderson in *Imagined Territories*. Rituals rather than territory or administration came to define the Moroccan monarchy and the Moroccan nation under Western assault, and enabled them to survive. For the novice, the book provides an unusual and compelling entry into Islamic culture and history. Yet it is provocative for the expert in its reinterpretation of the strategic dimensions of Muhammad's marriages and the political potency of the rituals of Islam where power, sacrifice, and sexual identity converge. By revealing the link between national ceremony and individual identity, the author calls into question the popular view that sharply divides East and West and suggests commonalities in the structures of political-sexual power that are built into societies that operate within the cultural contexts of the world's three monotheistic faiths: Islam, Judaism, and Christianity.
