Social Work and the City Charlotte Williams, 2016-07-18 This book critically explores ways of thinking about the city and its relevance for the profession of social work. It provides a colourful illustration of practice drawing on examples of social work responses to a range of issues emerging from the unprecedented scale, density and pace of change in cities. The associated challenges posed for social work include: the increased segregation of the poor, the crisis of affordable housing, homelessness, gentrification, ageing, displacement as a result of migrations, and the breakdown of social support and care. Drawing on multiple disciplines, this groundbreaking work shows that these familiar features of the twenty-first century can be counteracted by the positive aspects of the city: its innovation, creativity and serendipity. It has a redistributive, caring and cohesive potential. The city can provide new opportunities and resources for social work to influence, to collaborate, to foster participation and involvement, and to extend its social justice mandate. The book shows that the city represents a critical arena in terms of the future of social work intervention and social work identity. In doing so, it will be of great interest to students and scholars of social work, social policy, community work and urban studies.

The Creative PhD Tara Brabazon, Tiffany Lyndall-Knight, Natalie Hills, 2020-06-15 Doctorates awarded based on artefact and exegeses are a minority enrolment which suffer from wildly diverse examination expectations and assumptions about quality. Widening the disciplinary parameters and currency of this kind of doctorate *The Creative PhD* is the first book that challenges the standards, structure and value of this research.

Social Work Education and Practice: Scholarship and Innovations in the Asia Pacific Nikku Bala Raju, Hatta Zulkarnain Ahmad, 2014 Social work as a body of knowledge is and should be in a constant state of dynamism. No region, theory or model should claim exclusivity to the profession and new ideas viz-a-viz 'innovations' have to be viewed as adding to the richness of that body. In writing this book the authors aim to highlight how important it is, across the globe, to advance society via the classroom. The book's editors argue that one has only to summon the courage to challenge existing and dominant paradigms and models to begin to enhance the field of social work. This book shares a range of innovations that are taking place in schools of social work in universities in the Asia Pacific region. The book focuses on exemplifying innovation in social work and its associated scholarship.

Practising Social Work Ethics Around the World Sarah Banks, Kirsten Nøhr, 2013-03 Ethical considerations are central to

social work, yet there are often situations where values conflict. This text looks at real life case studies of ethical problems in the areas of: respecting rights, negotiating roles and boundaries, being fair, challenging and developing organisations and working with policy and politics.

Challenges, Opportunities and Innovations in Social Work Field Education Ronnie Egan, Nicole Hill, Wendy Rollins, 2020-11-12 This book collates and analyses the current research, debates, opportunities and practices in social work field education into one volume and contextualises this material within the broader context of social work. Current concerns about risk and uncertainty in field education are explored from multiple stakeholder perspectives. Social work field education is an integral component of social work education, yet its sustainability is increasingly challenged. Issues such as finding enough quality placements with accredited social workers, curriculum development, student diversity, and placement assessment of learning are being examined by researchers and practitioners alike. This represents a challenge for the social work profession generally. By drawing on traditional and alternative pedagogical perspectives on field education and constructions of risk and uncertainty evident in current discourse, the book presents innovative responses to existing challenges. Providing a reference point for future knowledge building in sustainable field education pedagogy and practice, this book will interest university field education programs and industry field educators internationally.

Irish South Australia Susan Arthure, Fidelma Breen, Stephanie James, Dymphna Lonergan, 2019-01-17 Its capital is named after German-born Queen Adelaide, its main street after her English husband, King William IV, so it is not surprising that little is known about South Australia's Irish background. However, the first European to discover Adelaide's River Torrens in 1836 was Cork-born and educated George Kingston, who was deputy surveyor to Colonel Light; the river was named in turn for Derryman Colonel Torrens, Chairman of the South Australian Colonisation Commission. Adelaide's first judge and first police commissioner were immigrants from Kerry and Limerick. Irish South Australia charts Irish settlement from as far north as Pekina, to the state's south-east and Mount Gambier. It follows the diverse fortunes of the Irish-born elite such as George Kingston and Charles Harvey Bagot, as well as doctors, farmers, lawyers, orphans, parliamentarians, pastoralists and publicans who made South Australia their home, with various shades of political and religious beliefs: Anglicans, Catholics, Dissenters, Federationists, Freemasons, Home Rulers, nationalists, and Orangemen. Irish markers can be found in South Australian archaeology, architecture, geography and history. Some of these are visible in the hundreds of Irish place names that dot the South Australian landscape, such as Clare, Donnybrook, Dublin, Kilkenny, Navan, Rostrevor, Tipperary, and Tralee (as Tarlee). The book's editors are twentieth-century Irish immigrants from Dublin (Dymphna Lonergan), Portadown (Fidelma Breen), Trim (Susan Arthure), and by descent from eight Irish-born (Stephanie James).

Social Work Education Noble, Carolyn, Henrickson, Mark, Han, In Young, 2013-05-16 Social work and social development in the Asia-Pacific region continue to grow in new and exciting ways. Social work educators are an essential

part of shaping social work and development. In this second edition we hear four new voices, from Cambodia, Fiji, Japan and Vietnam, together with revised and updated chapters from social work educators in Australia, China, Hong Kong, India, Korea, Nepal, and New Zealand. Summaries of each chapter are included in Chinese, Japanese and Korean, as well as in the first language of the author. Despite the astonishing diversity of languages, cultures, philosophies, religions, economic systems and ways that social work is taught and practised in the region, social work in the Asia-Pacific is becoming more internationally cohesive. At the same time it maintains strong foundations in its local contexts. In an increasingly globalised world, international social work belongs in every 21st-century social work curriculum. While this book does not provide all the answers, it will help educators and practitioners ask better questions.

Strategies for Work With Involuntary Clients Ronald H. Rooney, 2009-01-28 Involuntary clients are required to see a professional, such as juveniles on probation, or are pressured to seek help, such as alcoholics threatened with the desertion of a spouse. For close to two decades, *Strategies for Work with Involuntary Clients* has led in its honest analysis of the involuntary transaction, suggesting the kind of effective legal and ethical intervention that can lead to more cooperative encounters, successful contracts, and less burnout on both sides of the treatment relationship. For this second edition, Ronald H. Rooney has invited experts to address recent theories and provide new information on the best practices for specific populations and settings. He also adds practical examples and questions to each chapter to better facilitate the involvement of students and readers, plus a section on motivational interviewing.

Palliative Care Geoff Mitchell, 2018-05-08 Series Editors: Moira Stewart, Judith Belle Brown and Thomas R Freeman As the population in western cultures ages, more people suffer chronic, ultimately life-limiting diseases and medical professionals need to be equipped to cope with the ever growing pressure of palliative care. This book gives guidance on how to approach patients with life limiting illness. While the problems most people present to the doctor appear relatively straightforward, a whole person approach to understanding the complex interaction between the person, their illness and their environment should lead to a more complete consideration of the illness and better health outcomes. For issues of palliative care, such an approach is essential to identify and meet the many needs of desperately ill people. *Palliative Care* offers a fresh look at the management of patients. With international, evidence-based contributions, the book suggests practical and challenging ways to care for the dying. It is ideal for all healthcare professionals working in palliative care, General Practitioners and medicine and healthcare students.

China's Changing Economy Curtis Andressen, 2016-05-20 One of the most dramatic events in the global economy over the past few decades has been the rise of China as a global economic power. From humble beginnings in the late 1970s, the policy shift in China from a planned to market economy has led to economic growth of tremendous speed. This book examines the changes taking place in China's economy today and the impacts of these changes in China and abroad. The

central theme is that the rapid economic growth has come at a cost, as many problems have emerged as a result in China's economy and society, including a dramatic rich-poor gap, labour issues, problems in the banking sector and severe inflation in the cost of housing, as well as challenges with respect to China's external trade. The Chinese government recognizes these problems and is taking steps to rebalance its economy and society. The book takes a political economy perspective in order to investigate the interplay between the political system in China and the way in which the economy is structured, and the manner in which economic changes take place. Demonstrating that in order for China to achieve sustained economic growth and social improvement it must undertake serious policy changes, it also highlights that if countries are going to deal with China in a stable and productive manner, a thorough understanding of key contemporary developments in that country is vital. Covering a range of the most pertinent issues facing China today, this book will be of interest to students and scholars of Chinese Economics, Economic Development and Political Economy.

Handbook of Social and Emotional Learning ,

Practice Wisdom Joy Higgs, 2019-07-01 Practice wisdom is needed because the challenges people face in life, work and society are not simple and require more than knowledge, actions and decision making capabilities. In professional practice

wisdom enhances people's capacity to succeed and evolve and to assist their clients in achieving positive, relevant and satisfying outcomes. *Practice Wisdom: Values and Interpretations* brings diverse views and interpretations to an exploration of what wisdom in professional practice means and can become: academically, practically and inspirationally. The authors reflect on core dimensions of practice wisdom like ethics, mindfulness, moral virtue, particularisation and metacognition. The chapter authors tackle the trials that practice wisdom seekers encounter including the demand for resilience, perseverance, finding credibility and humility in practice wisdom, and linking wisdom into evidence for sound professional decision making. Readers are invited to consider what the place of practice wisdom encompasses in pursuing good practice outcomes amidst the turmoil and pressure of professional practice today. Do the imperatives of evidence-based practice and accountability leave enough space for wise practice or is wisdom seen by modern practice worlds as unnecessary, antiquated, unrealistic and redundant? Without a doubt these questions are answered positively in this book in support of the place and value of practice wisdom in professional practice today.

This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches, each of which shine a spotlight on a different aspect of the human condition. This sweeping overview of the field untangles the increasingly complex problems, ideologies, and value sets that define contemporary social work practice. The result is an essential A-to-Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty.

Faces of Homelessness in the Asia Pacific Carole Zufferey, Nilan Yu, 2017-07-20 Across the Asia Pacific, there are a vast range of experiences of homelessness and an equally diverse range of responses from state systems. Since understandings of homelessness are also heavily dependent on geographical, cultural, and historical contexts, attitudes towards it as a 'social problem' are essentially underpinned by ideological considerations. With a particular focus on critical and international policy and practice, this book builds upon the current scholarship of homelessness across the Asia Pacific. Through examining and comparing a range of state responses, it explores the differing definitions and lived experiences of the issue in a number of countries, including Japan, China, India, Korea, and Australia. The book analyses a range of key themes from welfare provision and legislation to the services provided and the roles played by non-governmental organisations, whilst also recognising the effects of class, gender and ethnicity on homelessness in the region. Taking an interdisciplinary approach, *Faces of Homelessness in the Asia Pacific* will be useful to students and scholars of Social Policy, Urban Sociology, Psychology and Asian Studies.
