

Recruitment A Dystopian Novel

Robert A. Heinlein

Recruitment K. A. Riley, 2019-09-30 In the Valta, no matter what month you were born, everyone is assigned the same birthday. November 1st. It's the anniversary of the day when the government declared war on the Eastern Order. The day you turn seventeen, the Recruiters come to take you away. And no one ever hears from you again. It's October 31st. Today, Kress is sixteen years old. Tomorrow, she'll be taken. The good news? So will her best friend Cardyn, and Brohn, the handsome, enigmatic boy she's avoided all her life. The bad news? Recruitment isn't what any of them expected. Weeks of training await. Military and psychological tests, escape rooms, hand-to-hand combat. The Recruits are told they're the key to winning the war. But with each day that passes, things begin to make less sense. If only Kress had been able to bring her trained raven, Render, with her. If only none of them had ever had to come to this place.

Rebellion K a Riley, 2019-11-12 Aided by the Insubordinates, Kress and her Conspiracy wage a daring counter-offensive against the Patriot Army in an effort to liberate the city of San Francisco. Outnumbered, facing impossible odds, and opposed by a powerful and ruthless enemy named General Ekker, Kress and her friends hope for help as they struggle to understand and control their emerging abilities.

Render K. A. Riley, 2019-10-03 Spoiler-free description: With the truth finally revealed, Kress and Render lead the Seventeens on a dangerous journey. But nothing is ever quite as it seems, and danger lurks behind every corner...

The Cure K a Riley, 2021-06 Before the Blight, becoming an adult was something teenagers looked forward to. But now, turning eighteen means certain death. Unless you prove yourself worthy of the Cure. On her seventeenth birthday, Ashen Spencer is blindfolded and escorted to the massive, mysterious building known as the Arc to begin her year of training and testing in hopes that she can earn the Cure—a powerful drug given only to those deemed worthy to survive beyond their eighteenth birthday. Ashen has a chance to rise up from her former life of squalor and be granted a place in society, if the Panel—the mysterious group of powerful men and women in charge of the Arc—deems her year a success. She's assigned to work for twelve months as a servant for a wealthy family whose son is the most alluring young man she's ever met. At first, Ashen is grateful for the opportunity to earn her place in a society she's always dreamed of inhabiting. But as time passes and she begins to learn the truth about the people she admires so much and the home she left behind, she realizes she has a choice: Be part of the disease... Or be part of the Cure. For readers of *The Hunger Games*, *Divergent*, and *the Selection*.

Survival K a Riley,2019-08-18 In the year 2043, with the nation destroyed by war, seventeen-year-old Kress and her Conspiracy of friends embark on a dangerous cross-country mission to locate and recruit other Emergents, the name given to teenagers who have begun to exhibit strange evolutionary abilities. Not all Emergents are ready to accept who and what they are, however, and some have even started using their abilities for selfish or evil ends. Now Kress has to figure out who is friend and who is foe as she risks everything to expose the government's lies and take down the tyrannical President Krug once and for all. Picking up where the Resistance Trilogy leaves off, the stand-alone Emergents Trilogy follows Kress and her Conspiracy on a daring quest to restore democracy and truth to the country.

This Perfect Day Ira Levin,2024-08-06 A modern dystopian classic that stands alongside 1984 and Brave New World, Ira Levin's *This Perfect Day* is a stunningly prescient work of science fiction that asks what it means to remain human in a world increasingly governed by technology and AI. "Chip" (born Li RM35M4419) lives in a future controlled by an all-powerful global supercomputer, UniComp. In this seemingly utopian society, free from war and want, every aspect of human existence is meticulously planned and calibrated for efficiency by Uni, which guides the lives of each member of the Family—the eugenically-merged human race, who share a single language and religion, yet live under constant chemical conditioning and behavioral monitoring—long unaware that their sustenance comes at the expense of all individuality and autonomy. When Chip begins to question Uni's benevolence, he embarks on a perilous journey to reclaim his true self, and challenge Uni's rule. Its predictions already proving unnervingly on target, *This Perfect Day* is a thought-provoking exploration of free will, and of who ultimately holds the reins of power. Levin's masterful storytelling and vividly imagined world make for an epic tale that's as unsettling as it is unforgettable.)

Arise K a Riley,2021-11-04 Kress and Brohn, a young Emergent couple with techno-genetically enhanced abilities, embark on a quest to infiltrate the Cult of the Devoted in the skyscraping arcology in the middle of what's left of Denver, Colorado. When Brohn mysteriously vanishes early in their mission, Kress—accompanied by Render, her psychically-connected raven companion—is forced to undertake a perilous journey through a danger-filled, post-apocalyptic city to find him and get him back. In this high-stakes adventure, inspired by Homer's epic *The Odyssey*, Kress must battle manipulators, gangsters, giants, and ghosts, and will literally go through Hell to find the man she loves.

The Recruit Robert Muchamore,2014-04-15 A young foster child gets inducted into an elite group of underage spies in this gripping first book in the young adult *CHERUB* series perfect for graduates of *City Spies* and *Spy School*. Following the death of his mother, eleven-year-old James Choke gets separated from his half-sister, Lauren, and sent to a children's home. James may be a bit of a troublemaker, but he's also brilliant and soon makes an impression on his roommate—who introduces James to *CHERUB*. *CHERUB* is an organization of highly trained, extremely talented spies aged ten to seventeen who tackle sensitive missions where adult agents would draw too much attention. When James passes the entrance exams, his next

hurdle is the brutal one hundred days of basic training. From being forced to spend Christmas night outside in his underwear to a grueling three-day solo hike through a rain forest, James gets pushed to his limit and beyond...but he perseveres. James is soon sent overseas with one of his CHERUB mentors to monitor a dangerous group of people, but when deadly compounds enter the mix, will James's first mission also be his last?

When she and Fade discover that the neighboring enclave has been decimated by the tunnel monsters--or Freaks--who seem to be growing more organized, the elders refuse to listen to warnings.
