Abstracts for the AGU Western Pacific Geophysics Meeting ,2008

Miner With a Heart of Gold Franklin White,2020-09-01 During the mid-twentieth century, Mineral Science and Engineering educator Frank White played an influential role in the advancement of his field, widely respected not only for his knowledge but also for his advocacy, leadership, and visionary perspective on both mining technologies and their impact on the environment. He looked at mining and metallurgical engineering through a much wider lens than was common at the time, embracing a diversity of cultures with environmental consciousness, inclusiveness, and a commitment to sustainability. Written by his son, this is the story of Frank White—a story that connects people, cultures, and histories from around the world: Australia, New Zealand, the Western Pacific, South East Asia, and North America. He lived through hardship, warfare, and economic upheavals, but with the love of his family, and the satisfaction of scientific and educational advancement, he remained always a seeker of knowledge, and an inspiration for all those whose lives he touched.

**Extractive Relations** John R. Owen, Deanna Kemp,2017-09-19 Extractive Relations explores the nature of industrial power and its role in shaping what we understand to be the global mining sector. The authors examine issues at the forefront

of contemporary debates: corporate obligations in safeguarding the rights of people displaced by mining, the recognition of community rights and interests in supporting or opposing mining developments, the handling of non-judicial grievances and workability of corporate remedy systems, and the logic of community relations departments in navigating these issues inside and outside of the typical modern mining establishment. The authors develop a unique theoretical approach that highlights the different types and uses of power in these settings. This perspective is supported by the authors' own sustained engagement with the mining sector over many years, drawing on cases from over twenty countries. The analysis of these issues from both 'inside' and 'outside' the sector is a key point of differentiation. For readers seeking to understand how mining companies interpret and interact with the communities and interests around their operations, this book provides invaluable insight and analysis.

**A Higher Sanskrit Grammar, for the Use of Schools and Colleges** Moreshvar Ramchandra Kāle,1969 The present grammar has been prepared with a view to meet the growing educational need of university students. The author has done his best to bring the present grammar up to the requirements of the students. In writing the various chapters of this book, the author has closely followed Pannini, as explained by Bhattoji Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are fully treated; compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the chapter on the Conjugation of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost everything given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible.

**Hostiles?** Sam Maddra,2006 In Hostiles? Sam A. Maddra relates an ironic tale of Indian accommodation - and preservation of what the Lakota continued to believe was a principled, restorative religion. Their alleged crime was their participation in the Ghost Dance. To the U.S. Army, their religion was a rebellion to be suppressed. To the Indians, is offered hope in a time of great transition. To Cody, it became a means to attract British audiences. With these hostile indians, the showman could offer dramatic reenactments of the army's conquest, starring none other than the very hostiles who had staged what British audiences knew from their newspapers to have been an uprising..

**Zigzag Street** Nick Earls,2011-02-01 A comic masterpiece -- Who Weekly. The book that began it all for Nick Earls. Here I am, on a work day of some importance, riding out of town in a cab with a babe I've just concussed with footwear. Richard Derrington is twenty-eight and single. More single than he'd like to be. More single than he'd expected to be, and not coping well. Since Anna trashed him six months ago he's been trying to find his way again. He's doing his job badly, he's playing tennis badly, his renovating attempts haven't got past the verandah, and he's wondering when things are going to change. Zigzag Street covers six weeks of Richard's life in Brisbane's Red Hill. Six weeks of rumination, chaos, poor judgement, interpersonal clumsiness...and, eventually, hope.

**Female Crime** Ngaire Naffine,2015-12-22 Female Crime, first published in 1987, surveys the major schools of criminology in order to explore the images of the female offender which underpin many contemporary crime theories. It reveals the ways in which male-centred norms dominated much analysis, and how crude stereotypes of women were a common attribute to the armoury of criminological research. Although feminists and other researchers are directing increasing attention to criminology, this was one of the first attempts to deploy feminist analyses developed within other disciplines to examine critically the range of modern criminological theories on women. Its findings demonstrate the importance of a program to create a new feminist criminology which recognises the female offender as a reasoning, purposeful subject. This title will be of interest to students of criminology.
