Critical Reading and Writing in the Digital Age Andrew Goatly, Preet Hiradhar, 2016-03-17 Critical Reading and Writing in the Digital Age is a fully introductory, interactive textbook that explores the power relations at work in and behind the texts we encounter in our everyday lives. Using examples from numerous genres – such as fiction, poetry, advertisements and newspapers – this textbook examines the language choices a writer must make in structuring texts, representing the world and positioning the reader. Assuming no prior knowledge of linguistics, Critical Reading and Writing in the Digital Age offers guidance on how to read texts critically and how to develop effective writing skills. Extensively updated, key features of the second edition include: a radically revised and repackaged section that highlights the theme of discourses of power and authority and the new possibilities for resisting them; a revamped analysis of the art of communication which has changed due to the advent of new media including Facebook and Wikipedia; fresh examples, exercises and case studies including fan fiction, articles from the BBC, Daily Mail and South China Morning Post, and a selection of international ads for a variety of products; a brand new companion website at www.routledge.com/cw/goatly featuring projects, quizzes and activities for each chapter, a glossary and further reading. Written by two experienced teachers, Critical Reading and Writing in the Digital Age is an ideal coursebook for students of English language.

Using Informational Text to Teach The Great Gatsby Audrey Fisch, Susan Chenelle, 2018-03-22 The Common Core State Standards initiated major changes for language arts teachers, particularly the emphasis on “informational text.” Language arts teachers were asked to shift attention toward informational texts without taking away from the teaching of literature. Teachers, however, need to incorporate nonfiction in ways that enhance rather than take away from their teaching of literature. The Using Informational Text series is designed to help. In this fourth volume (Volume 1: Using Informational Text to Teach To Kill a Mockingbird; Volume 2: Using Informational Text to Teach A Raisin in the Sun; Volume 3: Connecting Across Disciplines: Collaborating with Informational Text), we offer challenging and engaging readings to enhance your teaching of Gatsby. Texts from a wide range of genres (a TED Talk, federal legislation, economic policy material, newspaper articles, and 1920s political writing) and on a variety of topics (income inequality, nativism and immigration, anti-Semitism, the relationship between wealth and cheating, the Black Sox scandal and newspaper coverage, and prohibition) help students answer essential questions about F. Scott Fitzgerald’s novel. Each informational text is part of a student-friendly unit, with media links, reading strategies, vocabulary, discussion, and writing activities, and out-of-the-box class activities.
