**David S. Katz**

The Stars Down to Earth and Other Essays on the Irrational in Culture Theodor W. Adorno, 2002 In this remarkable work written 50 years ago, Adorno showcases the dangers inherent in modern obsessions with consumption.

**The Stars Down to Earth** Theodor Adorno, 2020-09-23 The Stars Down to Earth shows us a stunningly prescient Adorno. Haunted by the ugly side of American culture industries he used the different angles provided by each of these three essays to showcase the dangers inherent in modern obsessions with consumption. He engages with some of his most enduring themes in this seminal collection, focusing on the irrational in mass culture - from astrology to new age cults, from anti-semitism to the power of neo-fascist propaganda. He points out that the modern state and market forces serve the interest of capital in its basic form. Stephan Crook's introduction grounds Adorno's arguments firmly in the present where extreme religious and political organizations are commonplace - so commonplace in fact that often we deem them unworthy of our attention. Half a century ago Theodore Adorno not only recognised the dangers, but proclaimed them loudly. We did not listen then. Maybe it is not too late to listen now.

*Adorno* Theodor Adorno, 2002-09-11 A collection of key articles on the irrational in mass culture, relevant to the understanding of phenomena such as astrology and New Age cults, the power of neo-fascist propaganda and the psychological basis of popular culture, showing Theodor Adorno at his brilliant and maddening best.

**The Language of Mediums and Psychics** Robin Wooffitt, 2017-03-02 Every week thousands of people in Europe and the USA consult psychic practitioners. Communication is crucial to the performance of psychic powers in a range of settings. Psychic practitioners use language to demonstrate their powers, whether they are reporting the words of their spirit contacts or interpreting the spread of Tarot cards. Their clients also accept or reject this information through talk. This book presents the first sustained study of the verbal interaction between the various kinds of psychic practitioners and their clients. Using conversation analysis, Robin Wooffitt examines the structure of the interaction, focusing on the ways in which psychic practitioners and their clients establish the authenticity of the claimed paranormal powers. Adopting a neutral standpoint towards the status of the claims of psychic practitioners, the book raises important issues about the role of social science in

understanding the activities of psychic practitioners and other kinds of parapsychological phenomena. This highly original study will appeal to students and scholars of discourse studies, and to sociologists interested in conversation analysis. It is written in a style accessible to non-specialists, and will also interest parapsychologists and social scientists studying psychic phenomena and the paranormal.

Critical Ecologies Andrew Biro,2011-03-19 Environmental movements are the subject of increasingly rigorous political theoretical study. Can the Frankfurt School's critical frameworks be used to address ecological issues, or do environmental conflicts remain part of the failed promise of this group? *Critical Ecologies* aims to redeem the theories of major Frankfurt thinkers—Theodor Adorno, Max Horkheimer, and Herbert Marcuse, among others—by applying them to contemporary environmental crises. *Critical Ecologies* argues that sustainability and critical social theory have many similar goals, including resistance to different forms of domination. Like the Frankfurt School itself, the essays in this volume reflect a spirit of interdisciplinarity and draw attention to intersections between environmental, socio-political, and philosophical issues. Offering textual analyses by leading scholars in both critical theory and environmental politics, *Critical Ecologies* underscores the continued relevance of the Frankfurt School's ideas for addressing contemporary issues.

*Interdisciplinary Economics* Wilfred Dolfsma,Stefan Kesting,2013-07-18 Kenneth Boulding was a prolific writer across so many different fields that not only is he often much referred to and cited, he is considered a core member of many of these fields. Boulding is the quintessential interdisciplinary scholar. He died in 1993, but he has left a legacy in economics, conflict studies, systems theory, ecology, biology, communication studies, and ethics. As an economist proper he has tested and expanded the boundaries of that field without unduly invading and undermining the expertise and established knowledge of the other social sciences. This proposed volume will allow scholars who have worked or are starting to work in areas that Boulding has initiated, established and made a continued contribution to, to understand the links between these fields and other related ones. The volume will establish a source of inspiration for some time to come.

Adorno's Theory of Philosophical and Aesthetic Truth Owen Hulatt,2016-09-27 In *Adorno's Theory of Philosophical and Aesthetic Truth*, Owen Hulatt undertakes an original reading of Theodor W. Adorno's epistemology and its material underpinnings, deepening our understanding of his theories of truth, art, and the nonidentical. Hulatt's novel interpretation casts Adorno's theory of philosophical and aesthetic truth as substantially unified, supporting the thinker's claim that both philosophy and art are capable of being true. For Adorno, truth is produced when rhetorical texture combines with cognitive

performance, leading to the breakdown of concepts that mediate the experience of the consciousness. Both philosophy and art manifest these features, although philosophy enacts these conceptual issues directly, while art does so obliquely. Hulatt builds a robust argument for Adorno's claim that concepts ineluctably misconstrue their objects. He also puts the still influential thinker into conversation with Hegel, Husserl, Frazer, Sohn-Rethel, Benjamin, Strawson, Dahlhaus, Habermas, and Caillois, among many others.

**Outlandish** Nico Israel, 2000 *Outlandish* addresses geographical displacement as a lived experience in the twentieth century, as a predicament of writing, and as a problem for theory. It focuses on the work of three transnational writers from diverse backgrounds working in different genres: Joseph Conrad, the Ukrainian-born Polish novelist and storywriter living in Britain at the turn of the century; Theodor W. Adorno, the German-Jewish philosopher and sociologist transplanted to Los Angeles during the Second World War; and Salman Rushdie, the Indian-born British novelist and journalist, recently released from the peculiar conditions of his notorious houseless arrest. The author argues that Conrad, Adorno, and Rushdie emblemize significant shifts over the course of the century, from a modernist expression of almost universal deracination, to a post-Auschwitz disarticulation of home and subjectivity, to an emergent conceptualization of displacement in terms of migrancy, hybridity, and flow. He theorizes a mode of reading between exile and diaspora--two fundamentally different descriptions of displacement--and allows the outlandish writing of these three figures to complicate this seemingly continuous trajectory. Drawing on texts from literary theory, philosophy, psychoanalysis, anthropology, and geography, the author explores what he calls the rhetoric of displacement--the struggle to assert identity out of place. He reads this writing predicament against the backdrop of the century's salient economic and technological changes, political upheavals, and mass migrations. In doing so, he draws attention to those aspects of exile and diaspora that have remained insufficiently considered: their relation to nationalism and colonialism, to authority and institutionality, and, above all, to broader questions of subjectivity, race, location, and language, as these concepts themselves subtly change over the course of the century.

Modern Critical Thought Drew Milne, 2008-04-15 This anthology presents a series of texts in which major twentieth-century thinkers engage in dialogue with their predecessors. Presents a series of texts in which major twentieth-century thinkers engage in dialogue with their predecessors. Offers an innovative way into understanding modern critical thought. Spans the period from Marx to the present day. A conversation of ideas emerges between one generation and the next. Editorial material defines key terms and maps out contested terrain. Each piece is prefaced by contextualising notes and suggestions for further reading.

Adorno Brian O'Connor, 2013 Theodor W. Adorno (1903-69) was one of the foremost philosophers and social theorists of the post-war period. In this lucid and comprehensive introduction, Brian O'Connor explains Adorno's philosophy for those

coming to his work for the first time. Essential reading for students of philosophy, sociology and literature.

Group Experiment and Other Writings Friedrich Pollock,Theodor W. Adorno,2011-02-15 During the occupation of West Germany after the Second World War, the American authorities commissioned polls to assess the values and opinions of ordinary Germans. They concluded that the fascist attitudes of the Nazi era had weakened to a large degree. The author and his colleagues, who returned in 1949 from the United States, were skeptical. In their view, public opinion is not simply an aggregate of individually held opinions, but is fundamentally a public concept, formed through interaction in conversations and with prevailing attitudes and ideas in the air. In this book, they published their findings on their group discussion experiments that delved deeper into the process of opinion formation.

**Populism and Conspiracy Theory** Michael Butter,Katerina Hatzikidi,Constanze Jeitler,Giacomo Loperfido,Lili Turza,2024-07-01 This book explores the close connections between populism and conspiracy theory. Populism and Conspiracy Theory contributes to filling the gap in the research in this area. The individual contributions in Part I provide in-depth analyses of specific configurations of populism and conspiracy theory. Part II includes nuanced considerations of more theoretical issues. The case studies cover both right-wing and left-wing manifestations of populism, while highlighting that populist movements often cut across the traditional left-right divide. Chapters focus on the twenty-first century and the first half of the twentieth century, as well as the impact of history and memory on contemporary discourses. Geographically, the case studies consider the Americas as well as Europe and Northern Africa. Theoretical discussions include the aesthetics and forms of populist conspiracism, or its dependence on new media. The disciplines represented in the volume range from political science and sociology via anthropology and history to linguistics and cultural studies. It will appeal to those interested in politics, specifically conspiracy theory, populism, democracy, and leadership. **Correspondence, 1939 - 1969** Theodor W. Adorno,Gershom Scholem,2021-05-06 At first glance, Theodor W. Adorno's critical social theory and Gershom Scholem's scholarship of Jewish mysticism could not seem farther removed from one another. To begin with, they also harbored a mutual hostility. But their first conversations in 1938 New York were the impetus for a profound intellectual friendship that lasted thirty years and produced more than 220 letters. These letters discuss the broadest range of topics in philosophy, religion, history, politics, literature, and the arts - as well as the life and the work of Adorno and Scholem's mutual friend Walter Benjamin. Unfolding with the dramatic tension of a historic novel, the correspondence tells the story of these two intellectuals who faced tragedy, destruction, and loss, but also participated in the efforts to reestablish a just and dignified society after World War II. Scholem immigrated to Palestine before the war and developed his pioneering scholarship of Jewish mysticism before and during the problematic establishment of a Jewish state.

Adorno escaped Germany to England, and then to America, returning to Germany in 1949 to participate in the efforts to rebuild and democratize German society. Despite the differences in the lifepaths and worldviews of Adorno and Scholem, their letters are evidence of mutual concern for intellectual truth and hope for a more just society in the wake of historical disaster. The letters reveal for the first time the close philosophical proximity between Adorno's critical theory and Scholem's scholarship of mysticism and messianism. Their correspondence touches on questions of reason and myth, progress and regression, heresy and authority, and the social dimensions of redemption. Above all, their dialogue sheds light on the power of critical, materialistic analysis of history to bring about social change and prevent repetition of the disasters of the past.

The Routledge International Handbook of Global Therapeutic Cultures Daniel Nehring, Ole Jacob Madsen, Edgar Cabanas, China Mills, Dylan Kerrigan, 2020-08-24 The Routledge International Handbook of Global Therapeutic Cultures explores central lines of enquiry and seminal scholarship on therapeutic cultures, popular psychology, and the happiness industry. Bringing together studies of therapeutic cultures from sociology, anthropology, psychology, education, politics, law, history, social work, cultural studies, development studies, and American Indian studies, it adopts a consciously global focus, combining studies of the psychologisation of social life from across the world. Thematically organised, it offers historical accounts of the growing prominence of therapeutic discourses and practices in everyday life, before moving to consider the construction of self-identity in the context of the diffusion of therapeutic discourses in connection with the global spread of capitalism. With attention to the ways in which emotional language has brought new problematisations of the dichotomy between the normal and the pathological, as well as significant transformations of key institutions, such as work, family, education, and religion, it examines emergent trends in therapeutic culture and explores the manner in which the advent of new therapeutic technologies, the political interest in happiness, and the radical privatisation and financialisation of social life converge to remake self-identities and modes of everyday experience. Finally, the volume features the work of scholars who have foregrounded the historical and contemporary implication of psychotherapeutic practices in processes of globalisation and colonial and postcolonial modes of social organisation. Presenting agenda-setting research to encourage interdisciplinary and international dialogue and foster the development of a distinctive new field of social research, The Routledge International Handbook of Global Therapeutic Cultures will appeal to scholars across the social sciences with interests in the advance of therapeutic discourses and practices in an increasingly psychologised society.

*Cultural Critique and the Global Corporation* Purnima Bose, Laura E. Lyons, 2010 This book examines the stories that corporations tell about themselves--and explores the powerful influence of corporations in the transformation of cultural and social life. Six case studies draw on CEO memoirs, annual reports, management manuals, advertising campaigns, and other sources to analyze the self-representations and rhetorical maneuvers that corporations use to obscure the full extent of their power. Images of corporate character and responsibility are intertwined with the changes in local economy, politics, and

culture wrought by globalization and neoliberalism. The contributors to this volume describe the effects of specific corporate practices on individuals and communities and how activists and academics are responding to labor and environmental abuses.

*The Occult Tradition* David S. Katz, 2005 Despite the growth of modern science and a general disenchantment of the world, the occult tradition has evolved in the West, manifesting itself in a variety of forms. This book describes the growth and meandering path of the occult tradition over the past 500 years, showing how the esoteric world view fits together.

**Cosmic Miniatures and the Future Sense** Leslie Adelson, 2017-04-10 Alexander Kluge's revolutionary storytelling for the 21st-century pivots on the production of anti-realist hope under conditions of real catastrophe. Rather than relying on possibility alone, his experimental miniatures engender counterfactual horizons of futurity that are made incrementally accessible to lived experience through narrative form. Innovative close readings and theoretical reflection alike illuminate the dimensional quality of future time in Kluge's radical prose, where off-worldly orientation and unnatural narrative together yield new sensory perspectives on associative networks, futurity, scale, and perspective itself. This study also affords new perspectives on the importance of Kluge's creative writing for critical studies of German thought (including Kant, Marx, Benjamin, and especially Adorno), Holocaust memory, contemporary globalization, literary miniatures, and narrative studies of futurity as form. *Cosmic Miniatures* contributes an experiential but non-empirical sense of hope to future studies, a scholarly field of pressing public interest in endangered times.

British Writing from Empire to Brexit Robert Spencer, Howard J. Booth, Anastasia Valassopoulos, 2025-02-27 This introduction to British literature from 1900 to 2021 looks at British writing from the perspective of the 2016 Brexit vote and its seismic repercussions. The book covers a wide variety of British literature in order to expose the cultural and political history of Britain, its repeated challenges and highly class-bound, patriarchal structure. *British Writing from Empire to Brexit: Writing, Identity, and Nation* offers a stark view of what British culture has come to represent, and the repercussions. Not shying away from discussions around imperialism, nationalism, and racism, Robert Spencer, Howard J. Booth, and Anastasia Valassopoulos offer a radical deconstruction of what Britishness can, and should, mean, promoting a convincing and accessible way to rethink the texts and field. The authors analyse novels, poetry, and prose which amplify the dissentient and dissident perspectives of women, gender non-conforming, and queer authors, as well as the varied viewpoints and insights of working-class, immigrant, postcolonial, Black, and Asian writers, showing how these works open up post-national futures after empire and after Brexit. Ultimately offering a model to rescue Britain from its current crises and anxieties, this book is an essential read for anyone approaching the study of British literature and culture, as well as those working on postcolonial studies, decolonisation, recent British history and politics, or with an interest in empire and Brexit.

*Yeats and European Drama* Michael McAteer, 2010-08-05 Michael McAteer examines the plays of W. B. Yeats, considering

their place in European theatre during the late nineteenth and early twentieth century. This original study considers the relationship Yeats's work bore with those of the foremost dramatists of the period, drawing comparisons with Henrik Ibsen, Maurice Maeterlinck, August Strindberg, Luigi Pirandello and Ernst Toller. It also shows how his plays addressed developments in theatre at the time, with regard to the Naturalist, Symbolist, Surrealist and Expressionist movements, and how symbolism identified Yeats's ideas concerning labour, commerce and social alienation. This book is invaluable to graduates and academics studying Yeats but also provides a fascinating account for those in Irish studies and in the wider field of drama.
