Aspectos Axiológicos De La Práctica Docente Juan Enrique Martínez Cantú, Daniel Desiderio Borrego Gómez, Daniel Cantú Cervantes, 2023-01-16 El presente libro aborda el tema axiológico derivado de las practicas docente en la Unidad Académica Multidisciplinaria de Ciencias Educación y Humanidades, dependiente de la Universidad Autónoma de Tamaulipas, para tal efecto se realizó un acercamiento teórico con la intención de conocer a profundidad los elementos conceptuales de origen de la axiología y sus diferentes corrientes interpretativas y clasificaciones a partir de las diferentes áreas del conocimiento humano como la filosofía, antropología, sociología y psicología. Se abordan temáticas básicas de carácter conceptual que permiten vislumbrar una visión del actual panorama social con respeto a los valores y su relativa perdida derivada de los cambios sociales originados por la dinámica globalizadora, contiene un acercamiento al término axiología, el cual contempla su desarrollo histórico y las corrientes objetivista, subjetivista, sociológica y finalmente la integradora. Por otra parte se presentan los resultados y conclusiones a las que se llega con la investigación desarrollada.

Transformando la práctica docente Cecilia Fierro, Bertha Fortoul, Lesvia Rosas, 1999 La mayor parte de los proyectos latinoamericanos de reforma educativa exigen que el maestro sea protagonista activo de las disposiciones orientadas a mejorar la calidad de la educación. Apoyar su formación a lo largo del ejercicio profesional se plantea entonces como una tarea prioritaria; sin embargo, los empeños a este fin dirigidos no siempre logran incorporar plenamente a los profesores, quienes siguen siendo, en muchas ocasiones, meros ejecutores de programas cuyos propósitos no comprenden o no comparten y que por tanto se reflejan pobremente en el trabajo dentro del aula. Las autoras de Transformando la practica docente han apostado por las posibilidades del cambio educativo promovido desde el maestro y han puesto a prueba su actual propuesta en varias experiencias concretas que alimentan este volumen. En el marco de trabajos grupales en talleres o cursos practicos, los docentes se van introduciendo, a traves de una serie de ejercicios aqui descritos, en un proceso de revision critica desu labor de ensenanza, al tiempo que transitan de la autovaloracion al descubrimiento de la riqueza y la complejidad que su actividad encierra, para al final del camino ver transformado de manera positiva su propio quehacer. Este libro sera sin duda una muy util herramienta para maestros en ejercicio y para formadores de docentes interesados en aplicar medidas innovadoras en la practica docente y en la gestion escolar: asi lo demuestra la entusiasta recepcion de esta

propuesta entre amplios sectores magisteriales, que se han convertido en sus principales promotores.

The Socialization of Teachers (RLE Edu N) Colin Lacey,2012-05-04 The change from a student role to a teacher role can be one of the most abrupt and stressful transitions in working life but the process of socialization does not end when the student becomes a fully qualified teacher, as many writers, laymen and sociologists, would have us believe. Colin Lacey argues that socialization is a partial and rarely homogenous process. He illustrates this from a wide variety of interesting case material to show how student teachers adapt their responses to the classroom situation.

Stillness Speaks Eckhart Tolle,2010-10-05 New York Times bestselling author Eckhart Tolle — Learn the transformative power of living in the now Attaining Eckhart Tolle’s state of presence: In *Stillness Speaks*, Eckhart Tolle illuminates the fundamental elements of his teaching, addressing the needs of the modern seeker by drawing from all spiritual traditions. At the core of the book is what the author calls “the state of presence,” a living in the ‘now’ that is both intensely inspirational and practical. The power of now: When the pressures of future and past thinking disappear, fear and frustration also vanish, conquered by the moment. *Stillness Speaks* takes the form of 200 individual entries, organized into 10 topic clusters that range from “Beyond the Thinking Mind” to “Suffering and the End of Suffering.” Each entry is concise and complete in itself, but, read together, take on a transformative power. If you have read *The Untethered Soul* by Michael Singer, *Buddha’s Brain* by Rick Hanson, or other Eckhart Tolle books such as *The Power of Now*, you will want to own and read *Stillness Speaks*.

Understanding the Development of Inclusive Schools Mel Ainscow, 2002-01-04 The current emphasis on individualised intervention programmes for students with special needs may not only be impractical, but also undesirable. This book compares and contrasts special needs approaches with school effectiveness strategies. The author sets out theories about inclusive schooling that arise out of a detailed scrutiny of practice. The link between theory and practice will be welcomed by many practitioners. With extensive examples from the field to illustrate Ainscow's ideas, this is an eminently accessible text.

Revista CoPaLa Eduardo Andrés Sandoval Forero, 2017-03-01 Frente a las múltiples violencias sistémicas y sociales manifestadas de manera objetiva y subjetiva en la vida cotidiana del producto colonial denominado América Latina, se presentan diversas maneras de pensar y de actuar para la construcción de la paz, es decir que hay distintas formas teóricas y prácticas de convivir sobre la convivencia de los seres humanos. Una de las varias perspectivas es la propuesta de la "Paz Integral", activa, noviolenta y duradera, es decir una paz sustentable, a partir de un re-enfoque que tenga como base, por un lado, el conocimiento de nuestras realidades latinoamericanas, y por otro, referentes hipotéticos de las teorías del pensamiento crítico latinoamericano en cualquiera de sus exposiciones.

International Handbook of Educational Change Andy Hargreaves, A. Lieberman, M. Fullan, D.W. Hopkins, 1998-05-31 The International Handbook of Educational Change is a state of the art collection of the most important ideas and evidence of

educational change. The book brings together some of the most influential thinkers and writers on educational change. It deals with issues like educational innovation, reform, restructuring, culture-building, inspection, school-review, and change management. It asks why some people resist change and what their resistance means. It looks at how men and women, older teachers and younger teachers, experience change differently. It looks at the positive aspects of change but does not hesitate to raise uncomfortable questions about many aspects of educational change either. It looks critically and controversially at the social, economic, cultural and political forces that are driving educational change. School leaders, system administration, teacher leaders, consultants, facilitators, educational researchers, staff developers and change agents of all kinds will find this book an indispensable resource for guiding them to both classic and cutting-edge understandings of educational change, no other work provides as comprehensive coverage of the field of educational change.
