Perfume Patrick Süskind, 2015-06-25 An erotic masterpiece of twentieth century fiction - a tale of sensual obsession and bloodlust in eighteenth century Paris 'An astonishing tour de force both in concept and execution' Guardian In eighteenth-century France there lived a man who was one of the most gifted and abominable personages in an era that knew no lack of gifted and abominable personages. His name was Jean-Baptiste Grenouille, and if his name has been forgotten today. It is certainly not because Grenouille fell short of those more famous blackguards when it came to arrogance, misanthropy, immorality, or, more succinctly, wickedness, but because his gifts and his sole ambition were restricted to a domain that leaves no traces in history: to the fleeting realm of scent . . . 'A fantastic tale of murder and twisted eroticism controlled by a disgusted loathing of humanity . . . Clever, stylish, absorbing and well worth reading' Literary Review 'A meditation on the nature of death, desire and decay . . . A remarkable début' Peter Ackroyd, The New York Times Book Review 'Unlike anything else one has read. A phenomenon . . . [It] will remain unique in contemporary literature' Figaro 'An ingenious and totally absorbing fantasy' Daily Telegraph 'Witty, stylish and ferociously absorbing' Observer

"The Star" for Beginners Martin Brassler, Francesco Paolo Ciglia, Petar D. Bojanić, 2021 In The Star of Redemption, written at the end and after World War I and published in 1921, Franz Rosenzweig presented an epoch-making Jewish-inspired philosophy of religion. In three steps, each with three chapters or books, Rosenzweig unfolds in it his view of God, the world, and man, their interrelationship, and their contribution and role in the redemption of the world. In this introduction, young and old Rosenzweig scholars take readers by the hand chapter by chapter, book by book. They lead safely through Rosenzweig's argumentation, making sometimes difficult lines of thought comprehensible and plausible. The chapter introductions open up reliable access for interested readers and new perspectives for connoisseurs.

The Star of Redemption Franz Rosenzweig, 1985-08-31 The Star of Redemption is widely recognized as a key document of modern existential thought and a significant contribution to Jewish theology in the twentieth century. An affirmation of what Rosenzweig called "the new thinking," the work ensconces common sense in the place of abstract, conceptual philosophizing and posits the validity of the concrete, individual human being over that of "humanity" in general. Fusing

philosophy and theology, it assigns both Judaism and Christianity distinct but equally important roles in the spiritual structure of the world, and finds in both biblical religions approaches toward a comprehension of reality.

Frank Kunert Frank Kunert,2013 Something strange is going on in the photographs by Frank Kunert: the table set for two has been so cleverly built around a corner that neither of the diners has to see the other, yet they can both watch their own television. Or a desk has a built-in bed for the much-desired office nap. And the outdoor toilet is located further away than one might hope for in an emergency - namely, on the moon. Kunert, a model builder and photographer, creates images of this kind in weeks of painstaking attention to detail, lending expression to the grotesque outgrowths of civilized life that is as humorous and exhilarating as it is profound. The ambivalence between tragedy and humour piques the artist time and again and permeates his surreal-looking visual worlds in an inexhaustible variety of ways. Melancholy and skewed wit are closely related in this wonderland of absurdities. -- back cover.

Lexicology, Semantics and Lexicography Julie Coleman,Christian J. Kay,2000-07-15 The papers in this volume show the range and direction of current work in historical semantics and word-studies. There is a strong focus throughout on semantic change and lexical innovation, interpreted within a sociolinguistic, cultural or textual context. Many of the papers draw on the remarkable range of electronic resources now available to historical linguists, notably corpora, dictionaries, bibliographies and thesauruses, and show the effects that these have had in stimulating new lines of research or the re-interpretation of previous conclusions. Cognitive semantics, and especially prototype theory, emerges as a challenging theoretical framework for much current research. The volume contains a selection from papers presented at the 10th International Conference on English Historical Linguistics (10ICEHL). They include work on historical lexicography and an account of the workshop on electronic dictionary resources, such as the Revised Oxford English Dictionary, which formed the centrepiece of the Fourth G. L. Brook Symposium.

Cultures of Communication from Reformation to Enlightenment James Van Horn Melton, 2017-05-15 Focusing on the territories of the Holy Roman Empire from the early Reformation to the mid-eighteenth century, this volume of fifteen interdisciplinary essays examines some of the structures, practices and media of communication that helped shape the social, cultural, and political history of the period. Not surprisingly, print was an important focal point, but it was only one medium through which individuals and institutions constructed publics and communicated with an audience. Religious iconography and ritual, sermons, music, civic architecture, court ceremony, street gossip, acts of violence, are also forms of communication explored in the volume. Bringing together scholars from diverse disciplines and scholarly backgrounds, this volume transcends narrow specializations and will be of interest to a broad range of academics seeking to understand the social, political and cultural consequences of the information revolution of Reformation Europe.

Names in the Economy Terhi Ainiola, Ulla Hakala, Paula Sjöblom, 2014-07-18 The economy has an increasingly powerful role in the contemporary global world. Academic scholars who study names have recognised this, and, as such, onomastic research has expanded from personal and place names towards names that reflect the new commercial culture. Companies are aware of the significance of naming. Brand, product and company names play an important role in business. Culture produces names and names produce culture. Commercial names shape cultures, on the one hand, and changes in cultures may affect commercial names on the other. The world of the economy and business has created its own culture of names, but this naming culture may also affect other names; even place names and personal names are influenced by it. Names in the Economy: Cultural Prospects is composed of 20 articles that were produced from a collection of papers presented in 2012 at the fourth Names in the Economy symposium in Turku, Finland. These articles will equally be of interest to both academics and professionals. The goal of this book is multidisciplinary and theoretically diverse: it contemplates commercial-bound names from the viewpoints of linguistics and onomastics, as well as marketing and branding research. In addition to traditional onomastic standpoints, there are newer linguistic theories, sociological and communicational views, multimodality theory, and branding theories. The authors are scholars from three continents and from ten different countries.

A Cultural History of the Modern Age Vol. 3 Egon Friedell, Volume three of A Cultural History of the Modern Age finishes a journey that begins with Descartes in the first volume and ends with Freud and the psychoanalytical movement in the third volume. Friedell describes the contents of these books as a series of performances, starting with the birth of the man of the Modern Age, followed by flowering of this epoch, and concludes with the death of the Modern Age. This huge landscape provides an intertwining of the material and the cultural, the civil and the military, from the high points of creative

flowering in Europe to death and emptiness. The themes convey multiple messages: romanticism and liberalism opens the cultural scene, encased in a movement from The Congress of Vienna and its claims of peaceful co-existence to the Franco-German War. The final segment covers the period from Bismarck's generation to World War I. In each instance, the quotidian life of struggle, racial, religious, and social class is seen through the lens of the mighty figures of the period. The works of the period's great figures are shown in the new light of the human search for symbolism, the search for superman, the rise of individualism and decline of history as a source for knowledge. This third volume is painted in dark colors, a foreboding of the world that was to come, of political extremes, and intellectual exaggerations. The author looks forward to a postmodern Europe in which there is a faint glean of light from the other side. What actually appeared was the glare of Nazism and Communism, each claiming the future.

Failure of a Revolution: Germany 1918-1919 Sebastian Haffner, 2019-08-16 The masterfully told story of what happened in Germany following its defeat in the first world war: the Kaiser's exit from the stage, the sailors' mutiny, the spreading of the revolution and its betrayal by its own chosen socialist leaders. Haffner recounts the murder of Karl Liebknecht and of Rosa Luxemburg — and the deliberate creation of those relentless counter-revolutionary forces that became the nightmare of the Third Reich. More than a brilliant historical study: it has vital lessons for our own day. "Haffner's history of the revolution is unrivalled — tight, precise, passionately rational, brilliantly formulated." — Profil/Wien "No-one else has described and analysed the events of 1918/19 that were decisive for the century as well and as convincingly as Sebastian Haffner." — Tagespiegel "For Haffner, the revolution was a social-democratic revolution. That it was nevertheless ultimately suppressed bloodily by social-democratic politicians confirms Haffner's suspicion that this was a case of betrayal." — Norddeutscher Rundfunk (North German Radio) "Haffner's book is one of the few that breaks open previously locked doors and shines a light on dark corners of our past." — Kölner Stadt-Anzeiger "Sebastian Haffner's brilliant intellect clarifies contrasts and similarities in situations, motivations and deeds and describes lucidly and dramatically the main lines of the complex developments from September 1918 to January 1919." — Dieter Wunderlich "Those who know Haffner's method of making the writing of history an inspection of the past motivated by the present, will appreciate this book." — zitty/Berlin

This Misery of Boots (1907) H. G. Wells, 2016-09-14 This book contains a fascinating essay presented by Wells to the Fabian Society in December 1905. The unwearable boots represent the unnecessary suffering caused by a system of privately owned capital—an imagine inspired by Wells' youth spent in an underground kitchen, the only view of the outside glimpses of people's feet on the pavement above. This Misery of Boots offers a fascinating insight into Wells' political beliefs and is not to be missed by collectors of his work. Herbert George Wells (1866 - 1946) was a prolific English writer who wrote in a variety of genres, including the novel, politics, history, and social commentary. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as *The Time Machine* (1895), *The Invisible Man* (1897), and

The War of the Worlds (1898). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.
