365 lois Robert Greene, 2022-08-30 Si vous pensez que les erreurs, les échecs ou les conflits doivent être évités à tout prix, que l'école que vous avez fréquentée ou que les gens que vous connaissez sont la clé indispensable de votre succès ou que la créativité est un don inné, c'est que vous êtes encore prisonnier de vos illusions et qu'il est temps pour vous de lever le voile sur la réalité qui vous entoure. Au cours de ces vingt-cinq dernières années, Robert Greene, l'expert mondial en matière de pouvoir et de stratégie, s'est appliqué à percer les secrets de la nature humaine pour nous aider à comprendre les motivations des autres, à déjouer les plans des grands manipulateurs, à maîtriser nos impulsions ou à reconnaître nos forces et faiblesses. Ces 365 lois prodiguent les réflexions et les enseignements pour tirer votre épingle du jeu et reprendre le pouvoir sur votre vie et sur votre environnement. Robert Greene est une voix incontournable de la vie professionnelle et du développement personnel en France et dans le monde. Grand amoureux d'histoire, de littérature et de la France en particulier, il parle plusieurs langues couramment (dont le français). Diplômé de Berkeley en Californie, en lettres classiques, il est l'auteur de nombreux best-sellers dont *Power* (plus de 120 000 exemplaires vendus) aux éditions Alisio.

The Laws of Human Nature Robert Greene, 2018-10-25 WINNER OF THE INTERNATIONAL BUSINESS BOOK AWARD 2019 From the million-copy bestselling author of *The 48 Laws of Power* Robert Greene is a master guide for millions of

readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defence.

The 48 Laws of Power Robert Greene, 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature* In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Mastery Robert Greene, 2012-11-19 'A Rambo-style mentality oozes from every khaki-ed, muscle-bound phrase' Daily Telegraph 'A wry primer for people who desperately want to be on top' People Around the globe, people are facing the same problem - that we are born as individuals but are forced to conform to the rules of society if we want to succeed. To see our uniqueness expressed in our achievements, we must first learn the rules - and then how to change them completely. Charles Darwin began as an underachieving schoolboy, Leonardo da Vinci as an illegitimate outcast. The secret of their eventual greatness lies in a 'rigorous apprenticeship': by paying close and careful attention, they learnt to master the 'hidden codes' which determine ultimate success or failure. Then, they rewrote the rules as a reflection of their own individuality, blasting previous patterns of achievement open from within. Told through Robert Greene's signature blend of historical anecdote and psychological insight and drawing on interviews with world leaders, *Mastery* builds on the strategies outlined in *The 48 Laws of Power* to provide a practical guide to greatness - and how to start living by your own rules.

LAWS OF POWER 'The hip-hop entrepreneur book' Independent 'My favourite book' Tinchy Stryder 'a rich mine of ideas and information' Scotland on Sunday The ultimate hustle is to move freely between the street and corporate worlds, to find your flow and never stay locked in the same position. This is a manifesto for how to operate in the twenty-first century, where everything has been turned on its head. Building on the runaway success of Robert Greene's *The 48 Laws of Power* (almost five million copies sold), the 'modern Machiavelli' teams up with rapper 50 Cent to show how the power game of success can be played to your advantage. Drawing on the lore of gangsters, hustlers, and hip-hop artists, as well as 50 Cent's business and artistic dealings, the authors present the 'Laws of 50', revealing how to become a master strategist and supreme realist. Success comes from seeking an advantage in each and every encounter, and The 50th Law offers indispensable advice on how to win in business - and in life.

Hairy, 2009-12-01 Robert Greene is not like other artists-or rather otherartists are not like Robert Greene. Greene is like a diamondin the rough-one of those unexpected gifts that come alongevery so often. -Jerry Saltz With an abundance of wet, hairy nudity and tropical hues, Greene evokes summer at its sexiest and most seductive. -Vince Aletti Painterly rhythms have seeped their way into RobertGreene's world of photography in *Hairy*, a collection ofGreene's images taken over many years, in many places, of many dogs, and many hairy men. An undercurrent of über-masculinity and its sexiness is revealed, yet notin the familiar form of muscular, hard-jawed, clean-cut youth. Instead, Greene celebrates a more restrained and naturalistic virility. Greene's photographic eye is full of adoration for his subjects and their environments. There is a very intimate, personal feeling here; one not posed, but observed and captured. Greene shifts from long-range portraiture, to close-upshots where specific textures, shapes, and tones become the subject of the image. This abstraction weaves a visual spell, such that even those without a predilection for hirsute men will be enthralled. The photographs provide the space for longing, imagination, and adventure. *Hairy* is an unusually quintessential book-portraying an incredibly focused and fleshed-out vision of a very beautiful, hairy world where man, dog, and nature swirl together. *Hairy* will be released in conjunction with an exhibition at Robert Miller Gallery in New York City.

Nice Girls Don't Get the Corner Office Lois P. Frankel, 2014-02-18 Before you were told to Lean In, Dr. Lois Frankel told you how to get that corner office. The New York Times bestseller, is now completely revised and updated. In this edition, internationally recognized executive coach Lois P. Frankel reveals a distinctive set of behaviors--over 130 in all--that women learn in girlhood that ultimately sabotage them as adults. She teaches you how to eliminate these unconscious mistakes that could be holding you back and offers invaluable coaching tips that can easily be incorporated into your social and business skills. Stop making nice girl errors that can become career pitfalls, such as: Mistake #13: Avoiding office politics. If you don't play the game, you can't possibly win. Mistake #21: Multi-tasking. Just because you can do something, doesn't mean you should do it. Mistake #54: Failure to negotiate. Don't equate negotiation with confrontation. Mistake #70: Inappropriate use of social media. Once it's out there, it's hard to put the toothpaste back in the tube. Mistake #82: Asking permission. Children, not adults, ask for approval. Be direct, be confident.

Arbitration and International Trade in the Arab Countries Nathalie Najjar,2017-10-23 Arbitration and International Trade in the Arab Countries by Nathalie Najjar is masterful compendium of arbitration law in the Arab countries. A true study of comparative law in the purest sense of the term, the work puts into perspective the solutions retained in the various laws concerned and highlights both their convergences and divergences. Focusing on the laws of sixteen States, the author examines international trade arbitration in the MENA region and assesses the value of these solutions in a way that seeks to guide a practice which remains extraordinarily heterogeneous. The book provides an analysis of a large number of legal sources, court decisions as well as a presentation of the attitude of the courts towards arbitration in the States studied. Traditional and modern sources of international arbitration are examined through the prism of the two requirements of international trade, freedom and safety, the same prism through which the whole law of arbitration is studied. The book thus constitutes an indispensable guide to any arbitration specialist called to work with the Arab countries, both as a practitioner and as a theoretician.

Practical Ethics Peter Singer,2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average?

Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, **Women, Business and the Law 2021** makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.
