**Divina!** Giovanni Ciacci, 2014-10-23T00:00:00+02:00 L'ESPERTO D'IMMAGINE PIÙ FAMOSO OGGI FARÀ DI TE UNA REGINA Il costumista che ha deciso il look di personaggi come Antonella Clerici, Valeria Marini, Caterina Balivo, Francesca Neri, Mariangela Melato, Massimo Ranieri e ha collaborato con i più grandi fotografi e registi (Bigas Luna, Carlos Saura, Helmut Newton, David LaChapelle, Giorgio Albertazzi...) in questo libro insegna a tutte le donne come valorizzare la propria femminilità e sentirsi uniche, «divine». Tutte le donne vorrebbero cambiare ma non osano o non sanno farlo: vanno aiutate a conoscersi e valorizzarsi. In questo libro, il più ambito e amato consulente d'immagine italiano insegna a sfruttare al meglio la propria femminilità, attraverso la sua grandissima esperienza nel mondo dello spettacolo e della moda. Perché ogni donna è una storia a sé, e va quindi guidata a trovare uno stile personale. E perché difetti e imperfezioni possono diventare punti di forza del look! «IO NON VESTO UN CORPO: VESTO UN SOGNO. Da sempre vesto le donne di spettacolo, le dive. Quando incontro una signora per un cambio look, la penso e la tratto sempre come una diva perché voglio farla sentire così, come una star, come una regina.» Giovanni Ciacci

Bulgari - Roma Jan Kralicek, 2020-12-01 A cool guide to Rome, with an emotional tour of the city's key historical sites and monuments revisited through the inspiration behind Bvlgari's jewelry. Since 1884, the majestic beauty of the Eternal City

and its rich archaeological, artistic, and cultural heritage have represented an inexhaustible source of inspiration for Bvlgari. Yesterday as today, Rome's monuments and artistic details are gracefully evoked in the brand's jewelry creations. For example, the design of the iconic B-zero1 ring was inspired by the Colosseum, the ultimate symbol of the city, and likewise the recurrent octagonal geometries watch dial refers to the coffered ceiling of the Basilica of Maxentius. This handy, pocket-sized volume takes us on an unprecedented historical, artistic, and emotional tour of the city. In addition to an actual guide to the monuments, the narration is enriched by short stories by some of the best-known Roman authors from the world of contemporary Italian literature, inspired by the most iconic locations in the city. The book is further enhanced by contributions from figures linked to the city by birth or by adoption, including renowned names from fashion, cinema, sport, and music. The Bvlgari jewelry and the places in Rome that inspired it are photographed in stunning images with artistic direction by Jan Králíček.

Geography and Revolution David N. Livingstone, Charles W. J. Withers, 2010-08-15 A term with myriad associations, revolution is commonly understood in its intellectual, historical, and sociopolitical contexts. Until now, almost no attention has been paid to revolution and questions of geography. *Geography and Revolution* examines the ways that place and space matter in a variety of revolutionary situations. David N. Livingstone and Charles W. J. Withers assemble a set of essays that are themselves revolutionary in uncovering not only the geography of revolutions but the role of geography in revolutions. Here, scientific revolutions—Copernican, Newtonian, and Darwinian—ordinarily thought of as placeless, are revealed to be rooted in specific sites and spaces. Technical revolutions—the advent of print, time-keeping, and photography—emerge as inventions that transformed the world's order without homogenizing it. Political revolutions—in France, England, Germany, and the United States—are notable for their debates on the nature of political institutions and national identity. Gathering insight from geographers, historians, and historians of science, *Geography and Revolution* is an invitation to take the where as seriously as the who and the when in examining the nature, shape, and location of revolutions.

**The Castle on the Hudson** Renato Cantore, 2017-07-25 T00:00:00+02:00 Charles Paterno was seven when he left Castelmezzano, a small mountain town in Basilicata to set sail on one of the rattletrap ships headed to America. Thirty years later he was one of the top builders in New York City, among the first to construct the skyscrapers that would form the world's most famous skyline. Intelligence, brilliance, intuition and an ability to stay ahead of the times made him a leading figure in the life of Manhattan. He created garden communities, focused on new technologies and turned to the best architects. Paterno didn't just want to offer houses, but new lifestyles to tens of thousands of people. His first American dream looked like a white castle at the northernmost tip of Manhattan, where he lived for years with his wife and son, surrounded by a small but very loyal retinue. A friend of Giuseppe Prezzolini, he donated a library of 20,000 books, the Paterno Library, to the Casa Italiana at Columbia University. Fiorello La Guardia, the Italian-American mayor of New York City, called him a genius. Born into poverty, Paterno died a wealthy man on the green of the most exclusive country club in Westchester.

*Who Controls the Internet?* Jack Goldsmith, Tim Wu, 2006-03-17 Is the Internet erasing national borders? Will the future of the Net be set by Internet engineers, rogue programmers, the United Nations, or powerful countries? Who's really in control of what's happening on the Net? In this provocative new book, Jack Goldsmith and Tim Wu tell the fascinating story of the Internet's challenge to governmental rule in the 1990s, and the ensuing battles with governments around the world. It's a book about the fate of one idea--that the Internet might liberate us forever from government, borders, and even our physical selves. We learn of Google's struggles with the French government and Yahoo's capitulation to the Chinese regime; of how the European Union sets privacy standards on the Net for the entire world; and of eBay's struggles with fraud and how it slowly learned to trust the FBI. In a decade of events the original vision is uprooted, as governments time and time again assert their power to direct the future of the Internet. The destiny of the Internet over the next decades, argue Goldsmith and

Wu, will reflect the interests of powerful nations and the conflicts within and between them. While acknowledging the many attractions of the earliest visions of the Internet, the authors describe the new order, and speaking to both its surprising virtues and unavoidable vices. Far from destroying the Internet, the experience of the last decade has led to a quiet rediscovery of some of the oldest functions and justifications for territorial government. While territorial governments have unavoidable problems, it has proven hard to replace what legitimacy governments have, and harder yet to replace the system of rule of law that controls the unchecked evils of anarchy. While the Net will change some of the ways that territorial states govern, it will not diminish the oldest and most fundamental roles of government and challenges of governance. Well written and filled with fascinating examples, including colorful portraits of many key players in Internet history, this is a work that is bound to stir heated debate in the cyberspace community.

**A Journey to the End of the Millennium** A. B. Yehoshua, 2000-05-01 "A masterpiece" about faith, race, and morality at a medieval turning point, from the National Jewish Book Award winner and "Israeli Faulkner" (The New York Times). It's edging toward the end of the year 999 when Ben Attar, a Moroccan Jewish merchant from Tangiers, takes two wives—an act of bigamy that results in the moral objections of his nephew and business partner, Raphael Abulafia, and the dissolution of their once profitable enterprise of importing treasures from the Atlas Mountains. Abulafia's repudiation triggers a potentially perilous move by Attar to set things right—by setting sail for medieval Paris to challenge his nephew, and his nephew's own pious wife, face to face. Accompanied by a Spanish rabbi, a Muslim trader, a timid young slave, a crew of Arab sailors, and his two veiled wives, Attar will soon find himself in an even more dangerous battle—with the Christian zealots who fear that Jews and others they see as immoral infidels will impede the coming of Jesus at the dawn of a new millennium. From the author of *A Woman in Jerusalem*, winner of the Los Angeles Times Book Prize, this is an insightful portrait of a unique moment in history as well as the timeless issues that still trouble us today. "The end of the first millennium comes to

represent only one of many breaches—between north and south, Christians and Jews, Jews and Muslims, Ashkenazic and Sephardic Jews, men and women—across which A. B. Yehoshua's extraordinary novel delivers us.” —The New York Times

History of the Italian Agricultural Landscape Emilio Sereni,2014-07-14 Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical agricultural landscape: an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Reading Capital Étienne Balibar,Louis Althusser,2024-12-10 Establishing a rigorous program of symptomatic reading that cuts through the silences and lacunae of Capital to reveal its philosophical core, Louis Althusser interprets Marx's structural analysis of production as a revolutionary break-the basis of a completely new science. Building on a series of Althusser's conceptual innovations that includes overdetermination and social formation, Étienne Balibar explores the historical and structural facets of production as Marx understood them, scrutinizing many of the most fundamental points in Capital, as though for the first time.
