

Dualist Theory In International Law

Dauid Thór Björgvinsson

The Intersection of International Law and Domestic Law Dauid Thór Björgvinsson, 2015-11-27 What are the theoretical and practical issues relating to the intersection between domestic and international law? This important new book discusses how general theories, including monism and dualism, transpire in practice. The author examines several key areas: the rules relating to treaty making and the ratification of treaties, the doctrine of automatic incorporation and transformation, the direct effect of international norms in the domestic system, and a discussion of the principle of consistent interpretation. With a focus on the European Convention on Human Rights, the author concludes that, although traditional theories are still relevant, they fall short in grasping the complexity of the different ways in which the legislator and the courts have given effect to international law on the domestic level. Students and scholars of international and domestic law will find this book to be useful in their studies. It will also be of interest to academics, judges, and practicing lawyers.

Judging at the Interface Esmé Shirlow, 2021-02-18 This book investigates how international adjudicators defer to State decision-making authority, and what that reveals about the domestic-international interface.

European Union Law Catherine Barnard, Steve Peers, 2017 Written by experts, this innovative textbook offers students a relevant, case-focused account of EU law. Under the experienced editorship of Catherine Barnard and Steve Peers, the text draws together a range of perspectives on EU law designed to introduce students to the key debates and case law which shape this vast subject.

[The Singapore Legal System](#) Kevin Tan, 1999 This is the second edition of the highly successful book first published in 1989. However, it has been extensively revised in content and updated: Eight out of 14 chapters are new including chapters such as The Constitutional Framework of Powers, Alternative Dispute Resolution, and The Singapore Legal System and International Law; and the law on all subjects has been updated.

International Law Hersch Lauterpacht, 1970

International Law and Domestic Human Rights Litigation in Africa Magnus Killander, 2010 African civil law countries are traditionally described as monist and common law countries as dualist. This book illustrates that the monism-dualism dichotomy is too simplistic, in particular in the field of human rights. Academics and practitioners from across the continent illustrate how domestic courts in Africa have engaged with international human rights law to interpret or fill gaps

in national bills of rights. The authors also consider the challenges encountered in increasing the use of international human rights law by African domestic courts.--Back cover.

The Community Legal Order Jean-Victor Louis, Commission of the European Communities, 1990 Updated edition of work incorporating developments in case law of the European Court of Justice and national courts and changes in the configuration of the European Community following enlargement.

The Oxford Handbook of International Law in Asia and the Pacific Simon Chesterman, Hisashi Owada, Ben Saul, 2019 This handbook surveys how international law is applied and interpreted in the Asia-Pacific region. It explores Asia's contribution to the development of international law and whether a distinct 'Asian' approach can be perceived

Akehurst's Modern Introduction to International Law Alexander Orakhelashvili, 2022-02-28 First published in 1970, Akehurst's *Modern Introduction to International Law* rapidly established itself as a widely used and successful textbook in its field. Being the shortest of all the major textbooks in this area, it continues to offer a concise and accessible overview of the concepts, themes, and issues central to the growing system of international law, while retaining Akehurst's original positivist approach that accounts for the essence and character of this system of law. This new ninth edition has been further revised and updated by Alexander Orakhelashvili to take account of a plethora of recent developments and updates in the field, accounting for over forty decisions of international and national courts, as well as a number of treaties and major incidents that have occurred since the eighth edition of this textbook was published. Based on transparent methodology and with a distinctive cross-jurisdictional approach which opens up the discipline to students from all backgrounds, this engaging, well-structured, and reputable textbook will provide students with all the tools, methods, and concepts they need to fully understand this complex and diverse subject. It is an essential text for all undergraduate and postgraduate students of international law, government and politics, and international relations. This book is one of the only textbooks in international law to offer a fully updated, bespoke companion website: www.routledge.com/cw/orakhelashvili.

Textbook on International Law Martin Dixon, 2007-07-19 The sixth edition of *Textbook on International Law* offers a concise and focused introduction to the essential topics of international law. Dixon guides students through legal principles and areas of controversy, bringing the subject to life with the use of topical examples to illustrate key concepts. The book incorporates helpful features including a glossary, chapter summaries and suggestions for further reading. The sixth edition includes further discussion of topical issues such as Guantanamo, the International Criminal Court and the use of force. Purchase of the book provides complementary access Oxford's Online Resource Center website providing updates on case law and legislative developments, as well as annotated links to relevant websites.

International Law Gleider Hernández, 2022 *International Law* presents a comprehensive approach to the subject, providing a contemporary account of international law. The text offers critical and stimulating coverage of the central issues

in public international law, introducing the key areas of debate. It encourages readers to engage with areas of legal debate and controversy and consider how they affect the world today. Topics covered include: the structure of international law; the subjects within the field of international law; international law in operation; international disputes and responses to breaches in international law; and specialized regimes, which include the law of armed conflict, refugee law, international criminal law, the law of the sea, the environment and protection, and international economic law.--

A History of International Law in Italy Giulio Bartolini,2020 In the past few decades the understanding of the relationship between nations has undergone a radical transformation. The role of the traditional nation-state is diminishing, along with many of the traditional vocabularies which were once used to describe what has been called, ever since Jeremy Bentham coined the phrase in 1780, 'international law'. The older boundaries between states are growing ever more fluid, new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century. This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory. It is the editors' conviction that the best way to achieve this is by bridging the traditional divide between international legal theory, intellectual history, and legal and political history. The aim of the series, therefore, is to provide a forum for historical studies, from classical antiquity to the twenty-first century, that are theoretically-informed and for philosophical work that is historically conscious, in the hope that a new vision of the rapidly evolving international world, its past and its possible future, may emerge. Book jacket.

International Law Dejo Olowu,2010-02 International Law: A Textbook for the South Pacific is an introductory textbook for students and practitioners of international law. It provides a concise and clear introduction to the subject from the perspective of the South Pacific. This textbook takes advantage of Professor Olowu's unique experience as a lawyer trained at universities in Africa, North America and Europe, and having taught international law in the South Pacific. Few academics can claim his breadth and depth of expertise concerning in international law in diverse geographical and cultural contexts. This textbook introduces the most important aspects of public international law in a clear and authoritative manner.

International Law Malcolm David Evans,2014 Clearly and accessibly written, this new text provides a valuable resource for undergraduate and postgraduate students of international law and covers subjects including the history, theories and sources of international law, as well as current areas of interest such as international criminal law.

The New Despotism Gordon Hewart Baron Hewart,1929

Fundamentals of Public International Law Giovanni Distefano,2019-05-07 Fundamentals of Public International Law, by Giovanni Distefano, provides an overview of public international law's main principles and fundamental institutions. By introducing the foundations of the legal reasoning underlying public international law, the extensive volume offers essential

tools for any international lawyer, regardless of the specific field of specialization. Dealing expansively with subjects, sources and guarantees of international law, university students, scholars and practitioners alike will benefit from the book's treatment of what has been called the "Institutes" of public international law.

The Oxford Handbook of the Theory of International Law Anne Orford, Florian Hoffmann, Martin Clark, 2016-05-26 The Oxford Handbook of International Legal Theory provides an accessible and authoritative guide to the major thinkers, concepts, approaches, and debates that have shaped contemporary international legal theory. The Handbook features 48 original essays by leading international scholars from a wide range of traditions, nationalities, and perspectives, reflecting the richness and diversity of this dynamic field. The collection explores key questions and debates in international legal theory, offers new intellectual histories for the discipline, and provides fresh interpretations of significant historical figures, texts, and theoretical approaches. It provides a much-needed map of the field of international legal theory, and a guide to the main themes and debates that have driven theoretical work in international law. The Handbook will be an indispensable reference work for students, scholars, and practitioners seeking to gain an overview of current theoretical debates about the nature, function, foundations, and future role of international law.

Globalization and Sovereignty Jean L. Cohen, 2012-08-02 Sovereignty and the sovereign state are often seen as anachronisms; Globalization and Sovereignty challenges this view. Jean L. Cohen analyzes the new sovereignty regime emergent since the 1990s evidenced by the discourses and practice of human rights, humanitarian intervention, transformative occupation, and the UN targeted sanctions regime that blacklists alleged terrorists. Presenting a systematic theory of sovereignty and its transformation in international law and politics, Cohen argues for the continued importance of sovereign equality. She offers a theory of a dualistic world order comprised of an international society of states, and a global political community in which human rights and global governance institutions affect the law, policies, and political culture of sovereign states. She advocates the constitutionalization of these institutions, within the framework of constitutional pluralism. This book will appeal to students of international political theory and law, political scientists, sociologists, legal historians, and theorists of constitutionalism.

Elgar Encyclopedia of International Economic Law Krista Nadakavukaren Schefer, Thomas Cottier, 2025-08-28 This revised and expanded Encyclopedia is the new benchmark and flagship reference work for the study of international economic law. A comprehensive resource, its pages present the breadth of the field in a real-world context. Organized thematically rather than alphabetically, the Encyclopedia includes four significant thematic sections: the foundations, architecture and principles of international economic law; regulatory framework; regulatory areas; and regulatory challenges. Including updated and new entries, traditional international economic law topics are now supplemented by coverage of critical perspectives and a broader range of newly developing areas such as taxation, sustainability, and

digitalization. Concepts and rules of trade, investment, finance, competition, and international tax law are found alongside entries examining how international economic law impacts on environmental protection, labor standards, development, and human rights. Embedded within its own legal context, each concise entry presents an accessible and condensed understanding of what it means and why it is significant. Contributors offer insight into how institutions interact with each other and other legal systems, in addition to providing individual overviews of their history, structure, principles and procedures. Entries are followed by selected references suggesting directions for further study. Completely new to this edition is an entire section of extended entries on specific jurisdictions focusing on how these contribute to and engage with international economic law. These longer pieces describe the national legal frameworks responsible for developing international policies on trade investment, financial regulation, and tax, offering insight into how international rules actually work at the national level. Key Features: Concise, structured entries from top experts and new voices in the field Organised thematically, covering newly developing areas of international economic law Selected references for further study

Comparative International Law Anthea Roberts, Paul B. Stephan, Pierre-Hugues Verdier, Mila Versteeg, 2018 Explains that international law is not a monolith but can encompass on-going contestation, in which states set forth competing interpretations Maps and explains the cross-country differences in international legal norms in various fields of international law and their application and interpretation in different geographic regions Organized into three broad thematic sections of conceptual matters, domestic institutions and comparative international law, and comparing approaches across issue-areas Chapters authored by contributors who include top international law and comparative law scholars all from diverse backgrounds, experience, and perspectives.

Unveiling the Magic of Words: A Report on "**Dualist Theory In International Law**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Dualist Theory In International Law**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
