**Consumo, marcas e intangibles en el público infantil y joven** Mónica Viñarás Abad,Carmen Llorente Barroso,Gema Bonales Daimiel,2023-05-18 El objetivo de este libro es recoger las investigaciones más recientes sobre la relación que establecen las marcas con un público tan vulnerable como son los niños, adolescentes y jóvenes. Con un enfoque internacional se han recopilado aquellos trabajos que, desde distintas perspectivas, abordan esta cuestión tan relevante para las marcas, pero también para la sociedad en un momento donde la exposición a las pantallas preocupa a todos los colectivos.

Confronting Animal Abuse Piers Beirne,2009-07-16 Confronting Animal Abuse presents a powerful examination of the human-animal relationship and the laws designed to protect it. Piers Beirne, a leading scholar in the growing field of green criminology, explores the heated topic of animal abuse in agriculture, science, and sport, as well as what is known, if anything, about the potential for animal assault to lead to inter-human violence. He convincingly shows how from its roots in the Irish plow-fields of 1635 through today, animal-rights legislation has been primarily shaped by human interest and why we must reconsider the terms of human-animal relationships. Beirne argues that if violations of animals' rights are to be taken seriously, then scholars and activists should examine why some harms to animals are defined as criminal, others as abusive but not criminal and still others as neither criminal nor abusive. Confronting Animal Abuse points to the need for a more inclusive concept of harms to animals, without which the meaning of animal abuse will be overwhelmingly confined to those harms that are regarded as socially unacceptable, one-on-one cases of animal cruelty. Certainly, those cases demand attention. But so, too, do those other and far more numerous institutionalized harms to animals, where abuse is routine, invisible, ubiquitous and often defined as socially acceptable. In this pioneering, pro-animal book Beirne identifies flaws in our traditional understanding of human-animal relationships, and proposes a compelling new approach.

*Child Abuse, Domestic Violence, and Animal Abuse* Frank R. Ascione,Phil Arkow,1999 Evidence is mounting that animal abuse, frequently embedded in families scarred by domestic violence and child abuse and neglect, often predicts the potential for other violent acts. As early intervention is critical in the prevention and reduction of aggression, this book encourages researchers and professionals to recognize animal abuse as a significant problem and a human public-health issue that should be included as a curriculum topic in training. The book is an interdisciplinary source book of original essays

that examines the relations between animal maltreatment and human interpersonal violence, expands the scope of research in this growing area, and provides practical assessment and documentation strategies to help professionals confronting violence do their jobs better by attending to these connections. As an outgrowth of the Latham Foundation's 1995 training manual, *Breaking the Cycles of Violence*, this book is a historic step in helping professionals from these disciplines, as well as the general public, recognize the cyclical and insidious nature of family violence and provides training in recognizing peripheral forms of family violence outside a family's immediate purview. It encourages cross-disciplinary prevention and intervention strategies with an ultimate goal of reducing the levels of violence which is such a great societal and cultural concern today. This book brings together, for the first time, all of the leaders in this emerging field. They examine contemporary research and programmatic issues, encourage cross-disciplinary interactions, and describe innovative programs in the field today. Also included are vivid first-person accounts from survivors whose experiences included animal maltreatment among other forms of family violence. *Child Abuse, Domestic Violence, and Animal Abuse* provides professional communities of psychologists and child welfare specialists with a deeper, higher, and more encompassing awareness and understanding of the crucial linking of caring for animals and children in human experience. The combination of careful research, documentation, and compelling narrative accounts are blended into a rich resource to help professionals, concerned citizens, and parents understand how the ethics of caring are not bounded by species.

**Understanding Animal Welfare** David Fraser, 2013-03-27 This is a delightful book, full of interesting aspects of animal welfare. An excellent guide to the academic study of animal welfare science. —Marian Stamp Dawkins, Department of Zoology, University of Oxford *Understanding Animal Welfare: The Science in its Cultural Context* takes a completely fresh and thought-provoking approach. It is essential reading for anyone interested, studying or currently working in the fascinating field of animal welfare science. David Fraser places modern-day welfare issues within their historical framework by tracing the evolving ideas that led to current thinking. He also highlights some intriguing issues relating to the contradiction inherent in the term 'animal welfare science' and the practical problem of how to assess emotional states in animals. Special features: Encompasses ideas from a variety of disciplines to give a broad perspective of the topic. Discusses methods of measuring animal welfare and their strengths and limitations. Examines contemporary debates and applications of the science to policy issues. ... an impressive historical narrative of the genesis and growth of animal welfare as a scientific discipline.... The book will be invaluable for anyone involved with animal welfare issues on an academic level or those

involved with the integration of these principles into current care and handling issues facing agriculture, companion, laboratory, wild, or zoo animals. —Carolyn L. Stull, PhD, Veterinary Medicine Extension, School of Veterinary Medicine, University of California, Davis Fraser offers insights only possible from someone with his considerable experience and understanding. —Dr. Chris Sherwin, Department of Clinical Veterinary Science, University of Bristol This book is part of the UFAW/Wiley-Blackwell Animal Welfare Book Series. This major series of books produced in collaboration between UFAW (The Universities Federation for Animal Welfare), and Wiley-Blackwell provides an authoritative source of information on worldwide developments, current thinking and best practice in the field of animal welfare science and technology. *Children's Literature and the Posthuman* Zoe Jaques, 2015-02-11 An investigation of identity formation in children's literature, this book brings together children's literature and recent critical concerns with posthuman identity to argue that children's fiction offers sophisticated interventions into debates about what it means to be human, and in particular about humanity's relationship to animals and the natural world. In complicating questions of human identity, ecology, gender, and technology, Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children's fantasy, disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences. Interrogating the place of the human through the non-human (whether animal or mechanical) leads this book to have interpretations that radically depart from the critical tradition, which, in its concerns with the socialization and representation of the child, has ignored larger epistemologies of humanness. The book considers canonical texts of children's literature alongside recent bestsellers and films, locating texts such as *Gulliver's Travels* (1726), *Pinocchio* (1883) and the *Alice* books (1865, 1871) as important works in the evolution of posthuman ideas. This study provides radical new readings of children's literature and demonstrates that the genre offers sophisticated interventions into the nature, boundaries and dominion of humanity.

**Animal Liberation** Peter Singer, 2015-10-01 How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' *Independent on Sunday* In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari's brilliantly argued introduction makes clear, this

book is as relevant now as the day it was written.

Violence Against Women Marijke Velzeboer,2003 Produced in collaboration with the Program for Appropriate Technology in Health (PATH), the Norwegian Agency for International Development (NORAD) and the Swedish International Development Agency (SIDA)

Companion Animal Ethics Peter Sandøe,Sandra Corr,Clare Palmer,2015-11-02 Companion Animal Ethics explores the important ethical questions and problems that arise as a result of humans keeping animals as companions. The first comprehensive book dedicated to ethical and welfare concerns surrounding companion animals Scholarly but still written in an accessible and engaging style Considers the idea of animal companionship and why it should matter ethically Explores problems associated with animals sharing human lifestyles and homes, such as obesity, behavior issues, selective breeding, over-treatment, abandonment, euthanasia and environmental impacts Offers insights into practical ways of improving ethical standards relating to animal companions

**Criminology** Gennaro F. Vito,Jeffrey R. Maahs,Ronald M. Holmes,2006 Across America, crime is a consistent public concern. The authors have produced a comprehensive work on major criminological theories, combining classical criminology with new topics, such as Internet crime and terrorism. The text also focuses on how criminology shapes public policy.

*Child Maltreatment Surveillance* ,2008 The purpose of the child maltreatment uniform definitions and recommended data elements is to present a definition of child maltreatment, its associated terms, and recommended data elements for voluntary use by individuals and organizations in the public health community. The definitions and data elements are intended to promote and improve consistency of child maltreatment surveillance for public health practices. It is designed to be used by state and local health department staff to assist in and provide a framework for the collection of public health surveillance data on child maltreatment. The definitions included in the document draw upon definitions that are currently in use in the literature and were adapted in collaboration with a panel of experts on child maltreatment and public health surveillance. The definitions and data elements are designed be flexible tools for developing an ongoing surveillance system. Agencies that

use the document can modify data elements to fit their system. This document is the third in a series of Uniform Definitions and Recommended Data Elements which includes: Intimate Partner Violence Surveillance: Uniform Definitions and Recommended Data Elements and Sexual Violence Surveillance: Uniform Definitions and Recommended Data Elements.

*The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals* Robert C. Hubrecht, James Kirkwood, 2010-01-19 The seminal reference on the care of laboratory and captive animals, *The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals* is a must-have for anyone working in this field. The UFAW Handbook has been the definitive text since 1947. Written for an international audience, it contains contributions from experts from around the world. The book focuses on best practice principles throughout, providing comprehensive coverage, with all chapters being peer reviewed by anonymous referees. As well as addressing the husbandry of laboratory animals, the content is also of great value to zoos and aquaria. Changes for the eighth edition: Revised and updated to reflect developments since publication of the previous edition. New chapters on areas of growing concern, including: the 3Rs; phenotyping; statistics and experimental design; welfare assessment; legislation; training of people caring for lab animals; and euthanasia. All material combined into one volume for ease of reference. This book is published on behalf of UFAW (The Universities Federation for Animal Welfare), with whom we also publish the UFAW/Wiley-Blackwell Animal Welfare Book Series. This major series of books provides an authoritative source of information on worldwide developments, current thinking and best practice in the field of animal welfare science and technology. **A Trip Too Far** Rosaleen Duffy, 2013-06-17 Environmentally-sustainable tourism or ecotourism has become a major area of interest for governments, the private sector and international lending institutions. It is regarded as a way of allowing economic development whilst protecting against environmental degradation, especially in those countries with fragile ecosystems. However, despite the beneficial intentions of ecotourism, it tends to be regarded uncritically by environmental organizations, governments and the private sector alike. Rosaleen Duffy presents this analysis of ecotourism, linking it with environmental ideologies and the politics of North-South relations. By the extensive use of case study and interview material, she formulates ideas and proposals that should be important for the development of ecotourism around the globe.
