The God Code Gregg Braden, 2005-01-01 “One of our great visionaries.” —Dr. Wayne W. Dyer “A rare blend of scientist, visionary, and scholar.” —Deepak Chopra A scholar and New York Times–bestselling author shares his shocking theory of an ancient language—found in the decoded elements of our DNA—that shines new light on the mysteries of existence. What would it mean to discover an ancient language—a literal message—hidden within the DNA of life itself? What we once believed of our past is about to change. A coded message has been found within the molecules of life, deep within the DNA in each cell of our bodies. Through a remarkable discovery linking Biblical alphabets to our genetic code, the “language of life” may now be read as the ancient letters of a timeless message. Regardless of race, religion, heritage, or lifestyle, the message is the same in each cell of every woman, child, and man, past and present. Sharing all-new, fascinating research, Gregg Braden discusses the life-changing discovery that led him from a successful career in the aerospace and defense industries to an extensive 12-year study of the most sacred and honored traditions of humankind.

God Code Timothy P. Smith, 2017-04-04 The book that inspired the major History Channel special God Code shows there is more to the Bible than meets the eye—messages from God hidden for ages, now revealed by modern computer technology. In God Code, antiquities expert Timothy P. Smith reveals his decades-long quest to understand the complex messages he discovered in an ancient Hebrew manuscript of the Bible. This painstaking search involves adventure and mystery, but instead of consulting ancient maps to find buried treasure, Smith relied on the data calculation power of modern technology. His quest shows how Scripture is more amazing than we ever dreamed—and that it may even reveal the future of generations living today. God Code reveals:

- An encrypted code in Genesis, in the oldest known Hebrew text of the Old Testament, that predicted the birth and resurrection of Jesus.
- Scientific evidence that this encrypted code was authored by the divine hand of God.
- Signs that there are more encrypted codes in this same Hebrew text that will lead to additional messages from God to humanity.
- Hidden clues that may lead to the location of long-missing sacred artifacts, such as the Ark of the Covenant.
- Insights on why Smith was chosen to uncover this encrypted code.
- A dire warning that God wants us to hear—and heed.

In the companion History Channel series, the author travels across continents in search of artifacts missing since Bible times—clues to their location revealed in God Code. Previously published as *The Chamberlain Key*

Code Name God Mani Bhaumik,2018-01-15 Four hundred years after science overthrew faith, science is itself proving to be a false god, leaving in its wake a disillusioned and despondent mankind. In Code Name God, Mani Bhaumik, renowned physicist and one of the pioneers of the LASIK eye surgery technology, draws on the field of quantum physics and cosmology to answer the fundamental questions about faith. He demonstrates how both spirituality and science are essential for human beings and how one can strike a perfect balance between the two. The author, who as a youngster lived in Mahatma Gandhi's camp, details his incredible rags-to-riches journey and his equally remarkable search for meaning in life, which make for a motivational saga. Insightful and enriching, Code Name God provides a simple and easy-to-understand scientific approach to faith and the realization of god.

Inventing God's Law David P. Wright,2009-09-03 Most scholars believe that the numerous similarities between the Covenant Code (Exodus 20:23-23:19) and Mesopotamian law collections, especially the Laws of Hammurabi, which date to around 1750 BCE, are due to oral tradition that extended from the second to the first millennium. This book offers a fundamentally new understanding of the Covenant Code, arguing that it depends directly and primarily upon the Laws of Hammurabi and that the use of this source text occurred during the Neo-Assyrian period, sometime between 740-640 BCE, when Mesopotamia exerted strong and continuous political and cultural influence over the kingdoms of Israel and Judah and a time when the Laws of Hammurabi were actively copied in Mesopotamia as a literary-canonical text. The study offers significant new evidence demonstrating that a model of literary dependence is the only viable explanation for the work. It further examines the compositional logic used in transforming the source text to produce the Covenant Code, thus providing a commentary to the biblical composition from the new theoretical perspective. This analysis shows that the Covenant Code is primarily a creative academic work rather than a repository of laws practiced by Israelites or Judeans over the course of their history. The Covenant Code, too, is an ideological work, which transformed a paradigmatic and prestigious legal text of Israel's and Judah's imperial overlords into a statement symbolically countering foreign hegemony. The study goes further to study the relationship of the Covenant Code to the narrative of the book of Exodus and explores how this may relate to the development of the Pentateuch as a whole.

The Wisdom Codes Gregg Braden,2021-05-04 The cutting edge of neurolinguistics meets the spiritual wisdom of the ages in a handbook of key words that literally rewire our brains. New discoveries in biology and the neurosciences are revealing how the structure of language-the words we think and speak-can actually change the way the neurons in our brains and hearts connect. But our ancestors understood this connection intuitively, thousands of years ago. They created specific word-patterns to provide comfort, healing, strength, and inner power in difficult times, and they encoded these powerful words in prayers, chants, mantras, hymns, and sacred writings to preserve them for future generations. Now beloved teacher

and thought leader Gregg Braden cracks the code and puts these powerful words in your hands. Perfect as a pocket guide, a reference for spiritual study, or a gift to someone you love, this elegant, compact book contains Wisdom Codes that cut to the core of life's greatest tests, most challenging demands, and hardest lessons. You'll find chapters devoted to healing from loss and grief, facing your unspoken fears, finding certainty in the face of uncertain choices, and finding forgiveness, as well as ancient parables that offer a fast track to unraveling life's deepest mysteries. Each Wisdom Code-distilled from a quote, a scripture passage, or a parable-is accompanied by a brief discussion of what the code means, why it's important, and how to apply it in your life.

The Language of God Francis Collins,2008-09-04 Dr Francis S. Collins, head of the Human Genome Project, is one of the world's leading scientists, working at the cutting edge of the study of DNA, the code of life. Yet he is also a man of unshakable faith in God. How does he reconcile the seemingly unreconcilable? In *THE LANGUAGE OF GOD* he explains his own journey from atheism to faith, and then takes the reader on a stunning tour of modern science to show that physics, chemistry and biology -- indeed, reason itself -- are not incompatible with belief. His book is essential reading for anyone who wonders about the deepest questions of all: why are we here? How did we get here? And what does life mean?

The Science of Self-Empowerment Gregg Braden,2019-03-05 New in paperback (originally published as *Human by Design*): At the cutting edge of science and spirituality, New York Times best-selling author Gregg Braden explains that evolution is not the whole story of humanity--and offers a new understanding of our origins that can help us tap the extraordinary abilities we already have. What would it mean to discover we're designed to live extraordinary lives of self-healing, longevity, and deep intuition? Is it possible that the advanced awareness achieved by monks, nuns, and mystics--considered rare in the past--is actually meant to be a normal part of our daily lives? In this revelatory book, now available for the first time in paperback, five-time New York Times best-selling author and 2018 Templeton Award nominee Gregg Braden explains that we no longer need to ask these questions as What if? Recent discoveries ranging from human evolution and genetics to the new science of neuro-cardiology (the bridge between the brain and the heart) have overturned 150 years of thinking when it comes to the way we think of ourselves, our origin, and our capabilities. In this reader-friendly journey of discovery, Braden begins with the fact that we exist as we do, even more empowered, and more connected with ourselves and the world than scientists have believed in the past. It's this undisputable fact that leads to even deeper mysteries. How do we awaken the extraordinary abilities that come from such an awesome connection? What role does our ancient and mysterious heritage play in our lives today? Join Gregg as he crosses the traditional boundaries of science and spirituality to answer precisely these questions. In doing so he reveals a) specific tools, techniques, and practices to awaken our deep intuition on-demand, for self healing and longevity; and 2) concrete solutions to the social issues that are destroying our families and dividing us as people, including the bullying of young people, hate crimes, the growing epidemic of suicide,

religious extremism, and more. When new discoveries prove that the existing human story is no longer based in fact, it's time to change the story. This simple truth is at the heart of the book you're about to read.

God's Secret Formula Peter Plichta,1997 Holding doctorates in chemistry, physics and biology, Peter Plichta applies his multifaceted scientific knowledge to the search for a universal building plan and makes a profound discovery. Plichta shows how a mathematical formula based on prime numbers underlies the mystery of the world. By decoding this fundamental numerical code, Plichta answers questions that have baffled mankind for ages and proves that the universe did not arise out of chance.

The Moses Code James F. Twyman,2010-03 Is it possible that nearly 3,500 years ago, Moses was given the secret for attracting everything you've ever desired? The Moses Code was first used to create some of the greatest miracles in the history of the world, but then it was hidden away, and only the highest initiates were allowed to practice it. In this book, James F. Twyman reveals the Code for the first time, showing how it can be used to create miracles in your life . . . and in the world. By practicing the principles presented within these pages, you'll discover how you can integrate the most powerful manifestation tool in the history of the world into your own life. At the very heart of the Moses Code is the true function and practice of the Law of Attraction. You may have been told that this Law is all about getting the things you want—things that you think will make your life more satisfying. But what if that's just the first step, and cracking the Moses Code depends more on what you're willing to give rather than get. That would mean that you have the power to create miracles in your life right now! It would also mean that you have the ability, even the responsibility, to use that power for more than just attracting money, a better car, or the perfect relationship. You're here to use the power of Divinity itself to create a world based on the laws of compassion and peace. That's the task that lies before us.

The Divine Code (3rd Edition) Moshe Weiner,2018-06-05 Interest in the Seven Commandments for the Children of Noah (Non-Jews) is growing, and great numbers of people around the world have committed themselves to observe these commandments. Until publication of The Divine Code, a comprehensive, clear, and expertly researched guide for observance and study of these Divine precepts was lacking. The Divine Code is the result of an historic project by Ask Noah International. Originally published in Hebrew by Rabbi Moshe Weiner and endorsed by prominent Torah scholars, including two Chief Rabbis of Israel, it examines the Torah-law foundations and details of the Noahide precepts. Unique among the

other books on this subject, this authoritative text is footnoted with extensively researched Talmudic and post-Talmudic sources, and supplied with additional explanations and enlightening Editor's Notes throughout. It identifies and applies the fundamental principles by which the practical requirements for righteous living are determined for pious Non-Jews. This Third Edition encompasses all of the Seven Noahide Commandments and their principles and offshoots. It is the authorized translation according to Rabbi Weiner's personal review and editing. The book contains eight parts, beginning with Fundamentals of the Faith, followed by the seven parts which provide comprehensive explanations of each of the Seven Noahide Commandments and their many offshoots. Also included are several section introductions by the renown Rabbi J. Immanuel Schochet, o.b.m., a leading Canadian rabbi and author of many popular books on Torah-based spirituality and philosophy. Additional introductions were contributed by Joe M. Regenstein, Ph.D., a leading expert on guidelines in the meat industry for improved animal welfare; Arthur A. Goldberg, J.D., author of *Light in the Closet* and Director of J.I.F.G.A.; Rabbi Shimon D. Cowen, Ph.D., Director of of the Institute for Judaism and Civilization, and Michael Schulman, Ph.D., editor of the book and Executive Director of Ask Noah International and Asknoah.org.

The Tomb of God Richard Andrews, Paul Schellenberger, 2005 Dissatisfied with the explanations of previous researchers, Richard Andrews and Paul Schellenberger applied mathematical logic to the enduring mystery of Rennes-le-Château and the "treasure" alleged to be buried there. Beginning with a healthy skepticism, they assumed the enigma would wither under scrutiny. The quest began with an investigation into the activities of a group of 19th-century priests, but as the trail was pursued, it became apparent that the mystery's scope stretched far beyond the mountains of southern France. A series of paintings, maps, and tombstones pointed to one very specific location. The authors combined their knowledge of archaeology, theology, and surveying to produce a startling account of what they believe to be the true events surrounding the burial of Jesus.

The Bible Parenting Code John Rosemond, 2021-08-17 The Bible code of the title refers not to a cryptogram, but to a set of standards - biblical standards for the proper raising of children. Best-selling author and psychologist John Rosemond examines forty Bible verses and passages that make no overt mention of parenting matters and explains their relevance to a proper understanding of children and parental responsibilities. How does, for example, love your neighbor as yourself (Matthew 22:39) apply to raising children? The Bible Parenting Code contains a wealth of guidance for parents regardless of faith orientation. In the final analysis, what the Bible has to say about children confirms commonsense, which is Rosemond's stock-in-trade.
