Darkhouse Karina Halle,2013-09-24 Perry Palomino is not what you would call 'ordinary'. For one thing, there's her past which she likes to pretend never happened, and then there's the fact that she sees ghosts. Luckily for her, that all comes in handy when she stumbles across Dex Foray, an eccentric producer for an upcoming webcast on ghost hunters. Even though the show's budget is non-existent and Dex himself is a maddening enigma, Perry is instantly drawn into a world that both threatens her life and seduces her with a sense of importance. Her uncle's haunted lighthouse provides the perfect catalyst and backdrop for a horrific mystery that unravels the threads of Perry's fragile sanity and causes her to fall for a man, who, like the most dangerous of ghosts, may not be all that he seems.

Genius Engineering Inventions Matt Turner,2017-08-01 Tin cans were first produced in London in 1813. But they had to be opened with a hammer and chisel, because the can opener wasn't invented until 1855! Check out other amazing engineering innovations, such as a popular soft drink originally sold as a brain tonic, an 18th-century battery called a voltaic pile, and a design from 1596 for the first flushing toilet. Fact-packed text and fun illustrations reveal clever discoveries that changed the world—and weird ideas that didn't (like Nikola Tesla's earthquake machine or Thomas Edison's giant singing dolls). Learn how wonders of engineering have helped us improve our lives—from growing food to powering machinery.

The War Brides Joyce Hibbert,1978

Sherlock in Shanghai Xiaoqing Cheng,2006-10-31 Shanghai in the 1920s and 1930s—the Paris of the Orient—was both a glittering metropolis and a shadowy world of crime and social injustice. It was also home to Huo Sang and Bao Lang, fictional Chinese counterparts to Arthur Conan Doyle's Sherlock Holmes and Dr. Watson. The duo lived in a spacious

apartment on Aiwun Road, where Huo Sang played the violin (badly) and smoked Golden Dragon cigarettes as he mulled over his cases. Cheng Xiaoqing (1893–1976), The Grand Master of twentieth-century Chinese detective fiction, had first encountered Conan Doyle’s highly popular stories as an adolescent. In the ensuing years he played a major role in rendering them first into classical and later into vernacular Chinese. In the late 1910s, Cheng began writing detective fiction very much in Conan Doyle’s style, with Bao as the Watson-like-I narrator—a still rare instance of so direct an appropriation from foreign fiction. Cheng Xiaoqing wrote detective stories to introduce the advantages of critical thinking to his readers, to encourage them to be skeptical and think deeply, because truth often lies beneath surface appearances. His attraction to the detective fiction genre can be traced to its reconciliation of the traditional and the modern. In *The Shoe*, Huo Sang solves the case with careful reasoning, while *The Other Photograph* and *On the Huangpu* blend this reasoning with a sensationalism reminiscent of traditional Chinese fiction. *The Odd Tenant* and *The Examination Paper* also demonstrate the folly of first impressions. *At the Ball* and *Cat’s-Eye* feature the South-China Swallow, a master thief who, like other outlaws in traditional tales, steals only from the rich and powerful. *One Summer Night* clearly shows Cheng’s strategy of captivating his Chinese readers with recognizably native elements even as he espouses more globalized views of truth and justice.

Redesigning Distribution Anne Alstott, Bruce Ackerman, Philippe Van Parijs, 2020-05-05 Volume V in the acclaimed *Real Utopias Project* series, edited by Erik Olin Wright. Are there ways that contemporary capitalism can be rendered a dramatically more egalitarian economic system without destroying its productivity and capacity for growth? This book explores two proposals, unconditional basic income and stakeholder grants, that attempt just that. In a system of basic income, as elaborated by Philippe van Parijs, all citizens are given a monthly stipend sufficient to provide them with a no-frills but adequate standard of living. This monthly income is universal rather than means-tested, and it is unconditional - receiving the basic income does not depend upon performing any labor services or satisfying other conditions. It affirms the idea that as a matter of basic rights, no one should live in poverty in an affluent society. In a system of stakeholder grants, as discussed by Bruce Ackerman and Anne Alstott, all citizens upon reaching the age of early adulthood receive a substantial one-time lump-sum grant sufficiently large so that all young adults would be significant wealth holders. Ackerman and Alstott propose that this grant be in the vicinity of \$80,000 and be financed by an annual wealth tax of roughly 2 percent. A system of stakeholder grants, they argue, expresses a fundamental responsibility: every American has an obligation to contribute to a fair starting point for all.

Mobile Technologies of the City Mimi Sheller, John Urry, 2006-04-18 Mobile communications technologies are taking off across the world, while urban transportation and surveillance systems are also being rebuilt and updated. Emergent practices of physical, informational and communicational mobility are reconfiguring patterns of movement, co-presence, social exclusion and security across many urban contexts. This book brings together a carefully selected group of innovative case studies of these mobile technologies of the city, tracing the emergence of both new socio-technical practices of the city and of a new theoretical paradigm for mobilities research.

Restaging the Past Angela Bartie, Linda Fleming, Mark Freeman, Alexander Hutton, Paul Readman, 2020-08-17 Restaging the Past is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces

of 'pageant fever' remain in evidence today.

Polari - The Lost Language of Gay Men Paul Baker,2003-09-02 Polari is a secret form of language mainly used by homosexual men in London and other cities during the twentieth century. Derived in part from the slang lexicons of numerous stigmatised and itinerant groups, Polari was also a means of socialising, acting out camp performances and reconstructing a shared gay identity and worldview among its speakers. This book examines the ways in which Polari was used in order to construct 'gay identities', linking its evolution to the changing status of gay men and lesbians in the UK over the past fifty years.

Broadway Plays and Musicals Thomas S. Hischak,2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.
