**A Century of Artists Books** Riva Castleman, 1997-09 Published to accompany the 1994 exhibition at The Museum of Modern Art, New York, this book constitutes the most extensive survey of modern illustrated books to be offered in many years. Work by artists from Pierre Bonnard to Barbara Kruger and writers from Guillaume Apollinaire to Susan Sontag. An important reference for collectors and connoisseurs. Includes notable works by Marc Chagall, Henri Matisse, and Pablo Picasso.

**Western Plainchant** David Hiley, 1995 Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the wake of the Carolingian renaissance of the 8th and 9th centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction, designed both for those to whom the subject is new and those who require a reference work for advanced studies. It begins with an explanation of the liturgies which plainchant was designed to serve. All the chief genres of chant, different types of liturgical book, and plainchant notations are described. The later chapters are complemented by plates, with commentary and transcriptions. After an exposition of early medieval theoretical writing on plainchant, a historical survey follows the constantly changing nature of the repertory through from the earliest times to the restoration of medieval chant a century ago. The historical relations between Gregorian, Old-Roman, Milanese, Spanish, and other repertories is considered. Important musicians and centre of composition are discussed, together with the establishment of Gregorian chant in all the lands of medieval Europe, and the reformations and revisions carried out by the religious orders and the humanists. Copiously illustrated with over 200 musical examples transcribed from original sources, the book highlights the diversity of practice and richness of the chant repertory characteristic of the Middle Ages. As both a self-contained summary and also, with its many pointers to further reading, a handbook for research, it will become an indispensable reference book on this vast subject.

**Mahler in Context** Charles Youmans, 2022-11-10 Mahler in Context explores the institutions, artists, thinkers, cultural movements, socio-political conditions, and personal relationships that shaped Mahler's creative output. Focusing on the contexts surrounding the artist, the collection provides a sense of the complex crosscurrents against which Mahler was

reacting as conductor, composer, and human being. Topics explored include his youth and training, performing career, creative activity, spiritual and philosophical influences, and his reception after his death. Together, this collection of specially commissioned essays offers a wide-ranging investigation of the ecology surrounding Mahler as a composer and a fuller appreciation of the topics that occupied his mind as he conceived his works. Readers will benefit from engagement with lesser known dimensions of Mahler's life. Through this broader contextual approach, this book will serve as a valuable and unique resource for students, scholars, and a general readership.

The Voice in Cinema Michel Chion, 1999 Chion analyzes imaginative uses of the human voice by directors like Lang, Hitchcock, Ophuls, Duras, and de Palma.

**The Cambridge Companion to the Symphony** Julian Horton, 2013-05-02 Few genres of the last 250 years have proved so crucial to the course of music history, or so vital to public musical experience, as the symphony. This Companion offers an accessible guide to the historical, analytical and interpretative issues surrounding this major genre of Western music, discussing an extensive variety of works from the eighteenth century to the present day. The book complements a detailed review of the symphony's history with focused analytical essays from leading scholars on the symphonic music of both mainstream composers, including Haydn, Mozart and Beethoven and lesser-known figures, including Carter, Berio and Maxwell Davies. With chapters on a comprehensive range of topics, from the symphony's origins to the politics of its reception in the twentieth century, this is an invaluable resource for anyone with an interest in the history, analysis and performance of the symphonic repertoire.

*Contemporary American Composers* Rupert Hughes, 2022-07-20 In the preface to his work, Rupert Hughes explains his motivation and method for writing this historical account of American composers. Being a musician himself, he was interested to know who of merit was a native composer. He found it difficult to obtain such information, so he resolved to research contemporary composers, listen to and read their scores and make his own judgements. This wide-ranging book is the result.

*The Habsburg Monarchy's Many-Languaged Soul* Michaela Wolf, 2015-05-28 In the years between 1848 and 1918, the Habsburg Empire was an intensely pluricultural space that brought together numerous "nationalities" under constantly changing - and contested - linguistic regimes. The multifaceted forms of translation and interpreting, marked by national struggles and extensive multilingualism, played a crucial role in constructing cultures within the Habsburg space. This book traces translation and interpreting practices in the Empire's administration, courts and diplomatic service, and takes account of the "habitualized" translation carried out in everyday life. It then details the flows of translation among the Habsburg crownlands and between these and other European languages, with a special focus on Italian-German exchange. Applying a broad concept of "cultural translation" and working with sociological tools, the book addresses the mechanisms by which

translation and interpreting constructs cultures, and delineates a model of the Habsburg Monarchy's "pluricultural space of communication" that is also applicable to other multilingual settings. Published with the support of the Austrian Science Fund (FWF) width=300

**The Schubert Thematic Catalogue** Otto Erich Deutsch, Donald R. Wakeling, 1995 A specialist in Schubertian biography and bibliography definitively catalogs the 1,515 known and traceable Schubert works in their chronological order. Entries include title, catalog number, date and place of composition, location of original manuscript, statistics of first performance and first edition, historical notes and more. Includes 5 appendixes and 3 indexes.

*Hendrik Petrus Berlage* Hendrik Petrus Berlage, 1996-01-01 Hendrik Petrus Berlage, the Dutch architect and architectural philosopher, created a series of buildings and a body of writings from 1886 to 1909 that were among the first efforts to probe the problems and possibilities of modernism. Although his Amsterdam Stock Exchange, with its rational mastery of materials and space, has long been celebrated for its seminal influence on the architecture of the 20th century, Berlage's writings are highlighted here. Bringing together Berlage's most important texts, among them *Thoughts on Style in Architecture*, *Architecture's Place in Modern Aesthetics*, and *Art and Society*, this volume presents a chapter in the history of European modernism. In his introduction, Iain Boyd Whyte demonstrates that the substantial contribution of Berlage's designs to modern architecture cannot be fully appreciated without an understanding of the aesthetic principles first laid out in his writings.

**From Goethe to Gundolf** Roger Paulin, 2021-08-24 *From Goethe to Gundolf: Essays on German Literature and Culture* is a collection of Roger Paulin's groundbreaking essays, spanning the last forty years. The work represents his major research interests of Romanticism and the reception of Shakespeare in Germany, but also explores a broader range of themes, from poetry and the public memorialization of poets to fairy stories - all meticulously researched, yet highly accessible. As a comprehensive examination of German literary history in the period 1700-1900, the collection not only includes accounts of the lives and work of Goethe, Schiller, the Schlegels, and Gundolf (amongst others), serving to nuance our understanding of these figures in history, but also considers diverse (and often underexplored) topics, from academic freedom to the rise of travel literature. The essays have been reformulated, corrected, and updated to add references to recent works. However, the core foundations of the originals remain, and just as when they were first published, the value of these essays - to researchers, students, and all those who are interested in German literary history - cannot be overstated.

**Narratives of Low Countries History and Culture** Jane Fenoulhet, Lesley Gilbert, Ulrich Tiedau, 2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future. Divided into three parts - *The Uses of Myth and History*, *The Past as Illumination of Cultural Context*, and *Historiography in Focus* - this book seeks to demonstrate the

importance of the past by investigating the transmission of culture and its transformations. It reflects on the history of historiography and looks critically at the products of the historiographic process, such as Dutch and Afrikaans literary history. The chapters cover a range of disciplines and approaches: some authors offer a broad view of a particular period, such as Jonathan Israel's contribution on myth and history in the ideological politics of the Dutch Golden Age, while others zoom in on specific genres, texts or historical moments, such as Benjamin Schmidt's study of the doolhof, a word that today means 'labyrinth' but once described a 17th-century educational amusement park. This volume, enlightening and home to multiple paths of enquiry leading in different directions, is an excellent example of what a past-present doolhof might look like.

**Music - Media - History** Matej Santi, Elias Berner, 2021-01-12 Music and sound shape the emotional content of audio-visual media and carry different meanings. This volume considers audio-visual material as a primary source for historiography. By analyzing how the same sounds are used in different media contexts at different times, the contributors intend to challenge the linear perspective of (music) history based on canonic authority. The book discusses AV-Documents (analysis in context), methodological questions (implications for research, education, and popularization of knowledge), archives of cultural memory (from the perspective of Cultural Studies) as well as digitalization and its consequences (organization of knowledge).

**The Cambridge History of World Music** Philip Vilas Bohlman, 2013 Scholars have long known that world music was not merely the globalized product of modern media, but rather that it connected religions, cultures, languages, and nations throughout world history.

**Vincent Van Gogh:** Wilfred Niels Arnold, 1992-11 As a five year old I encountered a picture of a young man in a rakish hat and a yellow coat, on the wall of a large classroom. There was something instantly intriguing about the image, but it was also puzzling because it represented neither politician nor prince, the usual fare for Australian school decorations. I was eventually told that this was a reproduction of a painting, the artist was Vincent van Gogh, and that the subject was some young Frenchman. On special days we assembled in that room and during the next several years I found myself gazing beyond visiting speakers at the fellow in the yellow jacket. It was almost another fifty years before I felt properly conversant with the portrait and realized that van Gogh's subject, Armand Roulin, was seventeen at the time of the original painting and had died at seventy-four during my schoolboy contemplations. In the interim my enjoyment of the works of the Impressionists and Post Impressionists had grown and I occasionally ran into the name of Dr. Gachet, Vincent's last attending physician, in

books and catalog essays. The doctor was my entree to the overlapping charms of medical and art histories. In 1987 I had the good fortune to participate as a biochemist in the centenary celebration of the Pasteur Institut in Paris.
