The Case against Fluoride Paul Connett,James Beck,Spedding Micklem,2010-10-07 When the U.S. Public Health Service endorsed water fluoridation in 1950, there was little evidence of its safety. Now, six decades later and after most countries have rejected the practice, more than 70 percent of Americans, as well as 200 million people worldwide, are drinking fluoridated water. The Center for Disease Control and the American Dental Association continue to promote it--and even mandatory statewide water fluoridation--despite increasing evidence that it is not only unnecessary, but potentially hazardous to human health. In this timely and important book, Dr. Paul Connett, Dr. James Beck, and Dr. H. Spedding Micklem take a new look at the science behind water fluoridation and argue that just because the dental and medical establishments endorse a public health measure doesn't mean it's safe. In the case of water fluoridation, the chemicals that go into the drinking water that more than 180 million people drink each day are not even pharmaceutical grade, but rather a hazardous waste product of the phosphate fertilizer industry. It is illegal to dump this waste into the sea or local surface water, and yet it is allowed in our drinking water. To make matters worse, this program receives no oversight from the Food and Drug Administration, and the Environmental Protection Agency takes no responsibility for the practice. And from an ethical standpoint, say the authors, water fluoridation is a bad medical practice: individuals are being forced to take medication without their informed consent, there is no control over the dose, and no monitoring of possible side effects. At once painstakingly documented and also highly readable, *The Case Against Fluoride* brings new research to light, including links between fluoride and harm to the brain, bones, and endocrine system, and argues that the evidence that fluoridation reduces tooth decay is surprisingly weak.

dangerous, this book provides science-backed information based on the most current research in Q&A format. This is the most in-depth and up-to-date educational resource available regarding fluoridated water, from the American Dental Association.

The Hidden Science of Lost Civilisations David Wilcock,2012-04-01 The Hidden Science of Lost Civilisations is a guided tour through the most incredible scientific mysteries in the modern world, and a rediscovery of an ancient system of physics and spirituality that has since crumbled almost entirely into ruin. David Wilcock's extensive knowledge of contemporary science has led him to rewrite the Mayan myth; 2012 will not be the end of the world, but will be the start of mankind's golden period. A hidden intelligence, a living energy field that the universe is built from, which David Wilcock calls the Source Field, guides mankind's destiny. David Wilcock has studied this intelligence for over thirty years and has come to understand that the Source Field is the key to unlocking the mysteries mankind have always struggled to answer: who are we, how did we get here and where are we going? Drawing upon alternative science, as well as cutting-edge quantum physics and consciousness research, Wilcock connects the scientific with lost traditions of ancient wisdom to predict what lies in mankind's future.

Awaken Your Third Eye Susan Shumsky,2015-04-20 *Awaken Your Third Eye* is a practical guide to help you explore the depths of your intuitive wisdom.—Judith Orloff, MD, author of *The Empath's Survival Guide* “This book is a treasure trove of information, bridging science, philosophy and actual practice. I can't imagine a more well-rounded and thorough resource on the subject of opening the sixth chakra and discovering the gateway to transcendent awakening. A jam-packed gem full of spiritual insight.” —Anodea Judith, PhD, author of *Wheels of Life and Eastern Body-Western Mind* Usually, you perceive the world by using your five senses: sight, taste, smell, touch, and hearing. But there is a sixth sense, an inner eye that can open the gateway to subtler realms of existence. Developing this inner eye will enable you to view a previously invisible world of multiple dimensions, spiritual planes filled with light, and alternate realities of indescribable wonders. This eye of wisdom, knowledge, illumination, and intuition is aptly named the third eye. Using the methods in *Awaken Your Third Eye*, you will learn how to develop supersensory perception, and how to use your third eye in your everyday life to receive guidance, healing, wisdom, inspiration, creativity, and spiritual awakening.

The Rise Of The Antichrist Kamran Faqir,2019-04-02 *The Rise of The Antichrist* carefully investigates the measurable effects of politics, religion, science and technology on the human psyche. All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems, which have been foretold by all prophets or messengers dutifully sent to every nation over time. This book carefully explores the much-debated topic of the Antichrist, regarding his future emergence. Will he lead humanity to eternal darkness, or enlightenment? Although modern science and human history popularly refer to the last 5,000-15,000 years of development, in reality, there are signs and evidence that human

development is considerably older, with possibilities of supernatural or otherworldly intervention. This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic, with a possibility of alien or supernatural influence which was captured on stone glyphs. Throughout history, there have been developed, mighty empires whose chosen kings proclaimed to be Gods... But were they actually inter-dimensional beings? This book will ideally suit readers with an active interest in religion, historical events and those interested in a thought-provoking read.

Fluoride: Drinking Ourselves to Death? Barry Groves, 2001-09-20 Fluoride is more toxic than lead, yet it is routinely added to the drinking water of Ireland and Britain. In *Fluoride: Drinking Ourselves to Death?*, Barry Groves presents an array of convincing and persuasive arguments that dismantle the commonly held belief that the fluoridation of water is beneficial to our health. The fluoridation of water has been used for the prevention of tooth decay for over fifty years. During this time little research has been done to ascertain whether it works. The chemicals used are classified as toxic industrial waste, yet no study has ever been conducted into their safety for human consumption. At the same time, research has uncovered serious side effects including death, cancer, skeletal fluorosis, osteoporosis, dementia, lowered IQ, kidney damage and even increased dental decay. Fluoride is only slightly less toxic than arsenic and all the evidence points incontrovertibly to the harm caused by fluoride to human, plant and animal life. Yet it is routinely added to the drinking water of five million people in Britain and more than two and a half million people in Ireland. Strongly opposed throughout the world, water fluoridation is far less widely accepted than its proponents would have us believe. Only two percent of the people of Western Europe have their water fluoridated — almost all of them within Britain and Ireland. Despite this, dental organisations lobby governments to compel everyone to ingest fluoride, whether they want it or not and without regard to possible harm. The vast majority of dentists maintain that the fluoridation of water is not debatable. In this book, Barry Groves assembles evidence to refute every single argument made by the dental establishment in favour of fluoridation. This carefully researched and persuasively written book demonstrates that the case for fluoridation of water is based on poor science and dogmatic ignorance rather than on any scientifically proven benefit to public health. His conclusions are truly alarming for everyone concerned with their own health, that of their families and of society in general. *Fluoride: Drinking Ourselves to Death?: Table of Contents*

You Don't Want to Read What This Man Has to Say! Trent Goodbaudy, 2011-10-21 Early reviews are coming in! The grassroots of change! A MUST read for ALL! I just purchased this book, and I enjoyed it very much! I couldn't put it down! I feel everyone should read it! Trent, you have taught me a lot about the things that are wrong with our country...kept hidden from the public at large. It made me feel sad that a land that started out so good could become so corrupt, and I am beginning to understand why things have become as they are. You have given me new insight for which I am grateful! I hope people can become aware, and start to change the things that are wrong in this country, on so many levels. Trent, you are a pioneer in your thinking! Happy to be able to say I am one of the first you taught. Please, continue to write and educate! Now it's our turn to share this newfound knowledge with everyone we know! Keep an eye on this man! He is at the grassroots of change that we need so badly! --- Glad I Bought It The title itself was intriguing.. I bought it expecting another blabber on what-not and the never ending evolution theories, conspiracy, and history tales. Honestly, I was just looking to be entertained by some rabid mind and his views on a lot of things.. But when I actually sat down and read this book.. I was surprised to read the depth and conviction on his answers to the questions.. The topics were presented in a way that doesn't necessarily force his views on you but it actually ends up making you realize and think.. and re-examine.. The topics contained may be a bit overwhelming for those who haven't had the chance to think about their life and their purpose.. or even for those who haven't had the chance to be curious. But the way the author has written it made these topics something that we can all fully and easily grasp. I strongly recommend this book for an afternoon or evening reading... It was definitely worth my time and money. --- Imagine if you could know the answers to just the important things about this life, would you spend years searching for them? With the rise in activism, civil unrest, and problems in the world today, Author Trent Goodbaudy dares to challenge people with his new book *YOU DON'T WANT to READ what this MAN has to SAY!*, in his book, Trent says that the problem is not within the government or other external sources, but actually within our perception of the world around us. Trent answers a main question every chapter, with

questions like Why is there so much evil in the world?. He explains that in reality, if good did not exist, then we would not even know what evil was; and that bad times are necessary to even know what the good times are. All of which are just a matter of perception by the individual. Trent's philosophy about life is unparalleled, and his views are unconventional. If your audience is looking for answers to life's toughest questions, Trent has done an excellent job of answering them and at the same time provides real, sensible advice for improving other aspects of life as well. Learn how human rights are not so common anymore, and what it really means to be a Man or Woman with God given rights, and how to claim them to get remedy from frivolous victimless charges levied by assorted corrupt government agencies. Topics covered include; the meaning of life, why we are here, who God is, why there is so much evil in the world, making the right choices, precognition, what we are made of, connecting to your higher power, spirituality, secrets of religion and government, and so much more it is overwhelming. Begin REALLY LIVING your LIFE TODAY!

The Devil's Poison Dean Murphy DDS,2008-07-11 Fluoride and fluoridation will go down as one of the greatest controversies of the 20th century. Up until the early 1940's, fluorine's effect on life was always deemed poisonous. It was proven to be altering enzymes used by living organisms to carry out a multitude of essential processes. Fluorine, the most reactive element on the planet, is also the strongest free radical. Scientists in the 1930's and 1940's experimented with this element to create the most deadly nerve gasses, rocket fuel, and radioactive U235 for the bomb. As a wood preservative, rodenticide and insecticide, fluorine compounds are second to none. As an Orthodontist, I began investigating the increasingly prevalent lines and spots that I saw on the enamel of children. Like rings on a tree, they indicate excessive fluorine exposure. I started to ask the question, "How does fluorine cause these marks?" Chronic doses of fluoride, like arsenic and lead, accumulate in our bodies causing a blockage in the way cells breathe and leads to the malformation of collagen. Cancer, diabetes, thyroid and neurological disorders, hormonal imbalances, heart disease, arthritis and osteoporosis have all been linked to chronic fluoride ingestion. We are now exposed to increasing doses of fluoride from toothpaste, rinses, water, food, medicines, showering, bathing, and even the air that we breathe. Our environment has become a literal fluoride dumping ground. This book explores many chronic diseases that plague man today and looks at the scientists that connected these diseases to chronic exposures of fluoride.

Burning Desire Paul Linke,2020-08-19 The book provides some of the information everyone is unconsciously looking for. It mentions subjects only a philosopher would know about and more. It provides an idea to change the age old belief that there is not enough to go around, and therefore we war about the most fundamental resources we can find on Earth. The book explains (to the best of my knowledge) that the universe is a giving entity, and all we have to do is learn how this is possible. This giving entity is fundamentally two particles in union, which is a self-contained unit at every scale. This union is a dynamic entity which looks like a Torus that generates everything. Ancient arts like sacred geometry and others are testimony that there is a fundamental geometric structure in all things, and the book highlights this sacred structure (known as the Metatrons Cube) which is governed by a conscious mind that generates all physical things we are so familiar with. It also mentions motion which relates to the golden ratio and how algorithmic functions can explain some of the infinite possibilities we are confronted with.
