Wealthening Like Rabbits Robert R. Brown, 2014-08-25 With Canadian personal savings lower than ever before and household debt going through the roof, many people are in dire need of financial advice. But can a book that includes sex, zombies, pancakes, and Star Trek really help? You might be surprised. *Wealthening Like Rabbits* is a fun, entertaining guide to personal finance that proves sound money management doesn't have to be painful and neither does learning about it. Combining a unique blend of humour and perspective with everyday common sense, Robert R. Brown takes you through the basics of financial planning by using anecdotes and pop culture to shed light on some of the most important, yet often mismanaged aspects of personal finance. Covering subjects ranging from retirement savings and mortgages to credit cards and debt, this book will arm you with simple strategies to help you balance your life goals with your financial responsibilities. *Wealthening Like Rabbits* is a smart, accessible, never-boring romp through personal finance that you will certainly count as one of your best investments ever.

The Secret Life of Lobsters Trevor Corson, 2009-10-13 "Lobster is served three ways in this fascinating book: by fisherman, scientist and the crustaceans themselves. . . . Corson, who worked aboard commercial lobster boats for two years, weaves together these three worlds. The human worlds are surely interesting; but they can't top the lobster life on the ocean floor." — Washington Post In this intimate portrait of an island lobstering community and an eccentric band of renegade biologists, journalist Trevor Corson escorts the reader onto the slippery decks of fishing boats, through danger-filled scuba dives, and deep into the churning currents of the Gulf of Maine to learn about the secret undersea lives of lobsters. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

[The Quincunx](#) Charles Palliser, 1990-11-27 An extraordinary modern novel in the Victorian tradition, Charles Palliser has created something extraordinary—a plot within a plot within a plot of family secrets, mysterious clues, low-born birth, high-reaching immorality, and, always, always the fog-enshrouded, enigmatic character of 19th century—London itself. "So compulsively absorbing that reality disappears . . . One is swept along by those enduring emotions that defy modern art and a random universe: hunger for revenge, longing for justice and the fantasy secretly entertained by most people that the bad will be punished and the good rewarded."—The New York Times "A virtuoso achievement . . . It is an epic, a tour de force, a

staggeringly complex and tantalizingly layered tale that will keep readers engrossed in days. . . . The Quincunx will not disappoint you. It is, quite simply, superb.”—Chicago Sun-Times “A bold and vivid tale that invites the reader to get lost in the intoxicating rhythms of another world. And the invitation is irresistible.”—San Francisco Chronicle “A remarkable book . . . In mood, color, atmosphere and characters, this is Charles Dickens reincarnated . . . It is an immersing experience.”—Los Angeles Times Book Review “To read the first pages is to be trapped for seven-hundred odd more: you cannot stop turning them.”—The New Yorker “Few books, at most a dozen or two in a lifetime, affect us this way. . . . For sheer intricacy and ingenuity, for skill and clarity of storytelling, it is the kind of book readers wait for, a book to get lost in.”—The Philadelphia Inquirer

Steps to an Ecology of Mind Gregory Bateson, 2000 Gregory Bateson was a philosopher, anthropologist, photographer, naturalist, and poet, as well as the husband and collaborator of Margaret Mead. This classic anthology of his major work includes a new Foreword by his daughter, Mary Katherine Bateson. 5 line drawings.

The Death of Expertise Tom Nichols, 2017-02-01 Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

Ask a Manager Alison Green, 2018-05-01 'I'm a HUGE fan of Alison Green's Ask a Manager column. This book is even better' Robert Sutton, author of *The No Asshole Rule* and *The Asshole Survival Guide* 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F*ck* A witty, practical guide to navigating 200 difficult

professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

100 Minds That Made the Market Kenneth L. Fisher, 2007-08-27 Introducing the new Fisher Investment Series, comprised of engaging and informative titles written by renowned money manager and bestselling author Ken Fisher. This series offers essential insights into the worlds of investing and finance. Over the course of nearly two centuries, the innovations, mistakes, and scandals of different market participants have played an important role in shaping today's financial markets. Now, in 100 Minds That Made the Market, Ken Fisher delivers cameo biographies of these pioneers of American financial history. From Joe Kennedy's sexcapades to Jesse Livermore's suicide, this book details the drama, the dirt, and the financial principles of an amazingly inventive group of financial minds. Fisher digs deep to uncover the careers, personal lives, and contributions of these individuals, and leads you through the lessons that can be learned from each one. Here you have 100 of the best teachers -- some you already know, some you will feel you know, and some you may not have previously discovered -- whose experiences will undoubtedly enhance your understanding of the markets. With a few pages dedicated to each person, 100 Minds That Made the Market quickly captures the essence of the people and ideas that have influenced the evolution of the financial industry.

Mapping Society Laura Vaughan, 2018-09-24 From a rare map of yellow fever in eighteenth-century New York, to Charles Booth's famous maps of poverty in nineteenth-century London, an Italian racial zoning map of early twentieth-century Asmara, to a map of wealth disparities in the banlieues of twenty-first-century Paris, Mapping Society traces the evolution of social cartography over the past two centuries. In this richly illustrated book, Laura Vaughan examines maps of ethnic or religious difference, poverty, and health inequalities, demonstrating how they not only serve as historical records of social enquiry, but also constitute inscriptions of social patterns that have been etched deeply on the surface of cities. The book covers themes such as the use of visual rhetoric to change public opinion, the evolution of sociology as an academic practice, changing attitudes to physical disorder, and the complexity of segregation as an urban phenomenon. While the focus is on historical maps, the narrative carries the discussion of the spatial dimensions of social cartography forward to the present

day, showing how disciplines such as public health, crime science, and urban planning, chart spatial data in their current practice. Containing examples of space syntax analysis alongside full colour maps and photographs, this volume will appeal to all those interested in the long-term forces that shape how people live in cities.

Cicero, Against Verres, 2.1.53-86 Marcus Tullius Cicero, Ingo Gildenhard, 2011 This volume provides a portion of the original text of Cicero's speech in Latin, a detailed commentary, study aids and a translation. Ingo Gildenhard's commentary will be of particular interest to students of Latin at both high school and undergraduate level. It will also be of help to Latin teachers and to anyone interested in Cicero, language and rhetoric, and the legal culture of Ancient Rome. A free online interactive edition is also available.

Corporate Crime in the Pharmaceutical Industry (Routledge Revivals) John Braithwaite, 2013-10-08 First published in 1984, this book examines corporate crime in the pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar crime. Written in the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and internationally.

Cicero, Philippic 2, 44-50, 78-92, 100-119 Ingo Gildenhard, 2018-09-03 Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

Practical Ethics Peter Singer, 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions

discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Omnia Sunt Communia Doctor Massimo De Angelis, 2017-04-15 In this weaving of radical political economy, *Omnia Sunt Communia* sets out the steps to postcapitalism. By conceptualising the commons not just as common goods but as a set of social systems, Massimo De Angelis shows their pervasive presence in everyday life, mapping out a strategy for total social transformation. From the micro to the macro, De Angelis unveils the commons as fields of power relations – shared space, objects, subjects – that explode the limits of daily life under capitalism. He exposes attempts to co-opt the commons, through the use of code words such as 'participation' and 'governance', and reveals the potential for radical transformation rooted in the reproduction of our communities, of life, of work and of society as a whole.

Small Favor Jim Butcher, 2009-03-03 In this novel in Jim Butcher's #1 New York Times bestselling series, an old debt puts Chicago wizard Harry Dresden in harms way... Harry's life finally seems to be calming down. The White Council's war with the vampiric Red Court is easing up, no one's tried to kill him lately, and his eager apprentice is starting to learn real magic. For once, the future looks fairly bright. But the past casts one hell of a long shadow. Mab, monarch of the Sidhe Winter Court, calls in an old favor from Harry. Just one small favor he can't refuse...one that will trap Harry Dresden between a nightmarish foe and an equally deadly ally, and one that will strain his skills—and loyalties—to their very limits. And everything was going so well for once...

Acastos Iris Murdoch, 2010-07-20 "Witty and profound" musings on questions of art and religion from a celebrated novelist known for her philosophical explorations (*Library Journal*). For centuries, the works of Plato, featuring his mentor and teacher Socrates, have illuminated philosophical discussions. In *Acastos: Two Platonic Dialogues*, acclaimed philosopher, poet, and writer Iris Murdoch turns her keen eye to the value of art, knowledge, and faith, with two dramatic conversations featuring Plato and Socrates. "Art and Eros": After witnessing a theatrical performance, Socrates and his pupils—Callistos, Acastos, Mantias, Deximenes, and Plato—undertake a quest to uncover the meaning and worth of artistic endeavors. "Above the Gods": The celebration of a religious festival leads to a lively discussion of the gods and their place in society, as Socrates, along with several of his followers, talk about the morality of religion, wisdom, and righteousness. Told through vivid characterizations and lively discourse, *Acastos* is at once a "profound and satisfying" exploration of the Socratic method

and an enjoyable example of theatrical writing from a Man Booker Prize-winning novelist known for her studies with Ludwig Wittgenstein and her philosophy lectures at Oxford University, as well as for such works of fiction as *The Sea*, *The Sea* and *The Black Prince* (Kirkus Reviews).

[Studies in History and Jurisprudence, Vol. 2](#) James Bryce, 2017 This volume contains a collection of studies composed at different times over a long series of years. It treats of diverse topics: yet through many of them there runs a common thread, that of a comparison between the history and law of Rome and the history and law of England. The author has handled this comparison from several points of view, applying it in one essay to the growth of the Roman and British Empires, in another to the extension over the world of their respective legal systems, in another to their Constitutions, in others to their legislation, in another to an important branch of their private civil law. The topic is one profitable to a student of the history of either nation; and it has not been largely treated by any writers before Bryce, as indeed few historians touch upon the legal aspects of history. This is volume two out of two.
