Los 14 capítulos, expuestos de forma coloquial, siguen la secuencia de los procesos que requiere el oficio, desde la conformación de la pasta hasta que se extrae la pieza del horno. Decoración con calcas cerámicas de Chichinabo Patricia Lázaro Bengoa,2021-11-08 En esta práctica guía Patricia Lázaro comparte todos sus secretos sobre la decoración con calcas cerámicas. Desde el esbozo y diseño final hasta la creación, composición y aplicación de la calca, en este precioso manual no solo encontraremos todo lo necesario para decorar nuestras propias piezas cerámicas, sino también un sinnúmero de semillas creativas que nos proporcionan la inspiración necesaria para arrancar. En un tono cercano y fresco, la diseñadora madrileña nos invita a dejar atrás nuestras dudas y temores y lanzarnos sin miedo a la decoración con calcas cerámicas, seamos más o menos diestros en la materia. Al libro le acompaña un variado surtido de ejemplos del estudio de Chichinabo, ejemplos tan mágicos como inspiradores con los que

nadie se podrá resistir al increíble mundo de la calca.

Artes & Oficios. Cerámica artística Maria Dolors Ros i Frigola,2022-08-17 Desde estas páginas se anima al lector a entrar en la magia de la forma a través de la cerámica, gracias a la extraordinaria cualidad plástica de las arcillas. Para ello se necesitan pocas cosas, básicamente las manos, y muchas ganas de descubrir. Este libro ofrece una amplia información técnica para trabajar la cerámica: los materiales y útiles necesarios, los métodos esenciales para modelar (amasado, torno, moldes, etc.), para decorar las piezas (engobado, barnizado, etc.) y las claves de una cocción adecuada, en baja y en alta temperatura. El texto se complementa con seis ejercicios, ilustrados paso a paso, que resumen de un modo práctico lo expuesto en capítulos anteriores. Se concluye con una interesante Galería de obras que ilustran las infinitas posibilidades artísticas de la cerámica.

Medamud, un centro de producción cerámica en el Alto Egipto Zulema Barahona Mendieta,2021-01-01 El yacimiento arqueológico de Medamud, algo al norte de Karnak, en el Alto Egipto, destaca en la historiografía egiptológica por ser uno de los primeros lugares donde se pudieron documentar las sucesivas etapas de la historia de un templo y su complejo arquitectónico desde sus orígenes, en plena época faraónica, hasta los tiempos tardorromanos y bizantinos. Las primeras excavaciones en el lugar fueron llevadas a cabo en los años veinte y treinta por el Institut Français d'Archéologie Orientale (IFAO) de El Cairo y el Museo del Louvre. Estas campañas arqueológicas proporcionaron gran cantidad de materiales cerámicos, tanto recipientes como terracotas, soportes o canalizaciones, que en seguida se revelaron de gran interés por razones cronológicas, ya que abarcan buena parte de la historia de Egipto, y tecnológicas, pues se hallaron asociadas a talleres y hornos. Sin embargo, estos hallazgos requerían ser reevaluados a la luz de los conocimientos y métodos actuales en el ámbito de los estudios ceramológicos y arqueológicos en general. Este es el objetivo de la presente obra. Gracias al estudio detallado de estos materiales en relación con su contexto original y a un meticuloso trabajo de investigación archivística en varias instituciones internacionales donde se guardan documentos, planos y fotografías relacionados con aquellas excavaciones, se ha podido reconstruir la mayoría de los conjuntos originales de piezas y se han alcanzado nuevas e importantes conclusiones arqueológicas, sociales, económicas y culturales. De forma interrelacionada, la obra propone también una reinterpretación del conjunto arquitectónico del yacimiento, en la que destaca el reestudio del llamado temple primitive. A través del análisis de la cerámica, ha sido definitivamente datado a comienzos del Reino Medio (y no en tiempos

anteriores, como habían supuesto sus descubridores), lo cual redefine la cronología del yacimiento, y se han podido establecer las sucesivas fases históricas por las que atravesó el conjunto arquitectónico desde esos orígenes hasta el abandono de la ciudad entorno al siglo viii d. C. Asimismo, se ha estudiado la reocupación del espacio del temenos del templo en Época Tardorromana y Bizantina y se ha evidenciado la importancia de la ciudad en estas etapas tardías como centro urbano de gran dinamismo económico y cultural. Pero una de las contribuciones más importantes de esta obra es el análisis de las producciones cerámicas de Medamud, que abarcan desde el Reino Medio hasta la Época Bizantina, y las conclusiones históricas que de él se derivan. Durante más de dos mil años, la ciudad fue uno de los centros de producción cerámica más importantes no solo de Egipto, sino de todo el Mediterráneo oriental, lo cual la convirtió en uno de los motores económicos de su región y del país. En Época Romana, esto le supuso ser rebautizada con el elocuente nombre de Keramiké. La identificación de numerosos talleres y hornos cerámicos, datados desde el siglo xv a. C. hasta los tiempos bizantinos, revela un importante volumen de producción y una gran diversidad de productos, desde utilitarios hasta rituales, caracterizados por una decoración singular, todo lo cual sugiere formas de producción industrializada únicas en la región. El texto se complementa con abundante material ilustrativo de gran calidad, consistente en fotografías y planos, tanto actuales y en color como antiguos y recuperados en los archivos.

Piezas funcionales: boles, platos y vasijas, así como otros elementos decorativos, y se ordenan por nivel de dificultad, desde el básico hasta el avanzado. Para cada proyecto, la autora le guía a través de todo el proceso y le explica las técnicas involucradas, desde la construcción de planchas y el pellizco hasta la talla y el esmaltado. Abraza la irregularidad y recuerde que no existe la perfección.

Clasificación mexicana de ocupaciones. Volumen I INEGI, 1994-01-01 Esta versión es resultado de una revisión de la CMO 1992, en la que se ha buscado mayor precisión en el contenido de lo que incluye y excluye en cada grupo, así como la actualización de las ocupaciones consideradas. También ha querido dar respuesta a las dudas más comunes que se presentan durante la codificación y que la versión anterior no resolvía con la claridad necesaria.
