Bossa Nova Ruy Castro, 2012-04-01 Bossa nova is one of the most popular musical genres in the world. Songs such as “The Girl from Ipanema” (the fifth most frequently played song in the world), “The Waters of March,” and “Desafinado” are known around the world. Bossa Nova—a number-one bestseller when originally published in Brazil as *Chega de Saudade*—is a definitive history of this seductive music. Based on extensive interviews with Antonio Carlos Jobim, João Gilberto, and all the major musicians and their friends, Bossa Nova explains how a handful of Rio de Janeiro teenagers changed the face of popular culture around the world. Now, in this outstanding translation, the full flavor of Ruy Castro’s wisecracking, chatty Portuguese comes through in a feast of detail. Along the way he introduces a cast of unforgettable characters who turned Gilberto’s singular vision into the sound of a generation.

May It Fill Your Soul Timothy Rice, 1994-07-13 In this vivid musical ethnography, Timothy Rice documents and interprets the history of folk music, song, and dance in Bulgaria over a seventy-year period of dramatic change. From 1920 to 1989, Bulgaria changed from a nearly medieval village society to a Stalinist planned industrial economy to a chaotic mix of capitalist and socialist markets and cultures. In the context of this history, Rice brings Bulgarian folk music to life by focusing on the biography of the Varimezov family, including the musician Kostadin and his wife Todora, a singer. Combining interviews with his own experiences of learning how to play, sing and dance Bulgarian folk music, Rice presents one of the most detailed accounts of traditional, aural learning processes in the ethnomusicological literature. Using a combination of traditionally dichotomous musicological and ethnographic approaches, Rice tells the story of how individual musicians learned their tradition, how they lived it during the pre-Communist era of family farming, how the tradition changed with industrialization brought under Communism, and finally, how it flourished and evolved in the recent, unstable political climate. This work—complete with a compact disc and numerous illustrations and musical examples—contributes not only to ethnomusicological theory and method, but also to our understanding of Slavic folklore, Eastern European anthropology, and cultural processes in Socialist states.

**Everyday Aesthetics** Katya Mandoki, 2016-04-22 Katya Mandoki advances in this book the thesis that it is not only possible but crucial to open up the field of aesthetics (traditionally confined to the study of art and beauty) toward the richness and complexity of everyday life. She argues that in every process of communication, whether face to face or through

the media, fashion, and political propaganda, there is always an excess beyond the informative and functional value of a message. This excess is the aesthetic. Following Huizinga's view of play as an ingredient of any social environment, Mandoki explores how various cultural practices are in fact forms of playing since, for the author, aesthetics and play are Siamese twins. One of the unique contributions of this book is the elaboration and application of a semiotic model for the simultaneous analysis of social interactions in the four registers, namely visual, auditory, verbal and body language, to detect the aesthetic strategies deployed in specific situations. She argues that since the presentation of the self is targeted towards participants' sensibilities, aesthetics plays a key role in these modes of exchange. Consequently, the author updates important debates in this field to clear the way for a socio-aesthetic inquiry through contexts such as the family, school, medical, artistic or religious traditions from which social identities emerge.

Breathe, Breathe in the Air Caprica Publishing,2019-06-09 Some of the most inspiring music and lyrics ever were penned by Roger Waters and David Gilmour of Pink Floyd. It only stands to reason that many people find music created by this legendary band to be calming and inspiring in nature. Breathe in the air... could be a mantra towards reducing stress and encouraging well being. With that in mind, this book will help you to achieve long lasting peace by recording things you should be grateful for in every day life. It's a fact that writing down your feelings, thoughts, goals and activities can help you to improve your lifestyle. This 8 x 10, 120 page book is packed with everything you need to record and reflect. We hope you enjoy it!

**Tony Allen** Tony Allen,Michael E. Veal,2013-09-27 Tony Allen is the autobiography of legendary Nigerian drummer Tony Allen, the rhythmic engine of Fela Kuti's Afrobeat. Conversational, inviting, and packed with telling anecdotes, Allen's memoir is based on hundreds of hours of interviews with the musician and scholar Michael E. Veal. It spans Allen's early years and career playing highlife music in Lagos; his fifteen years with Fela, from 1964 until 1979; his struggles to form his own bands in Nigeria; and his emigration to France. Allen embraced the drum set, rather than African handheld drums, early in his career, when drum kits were relatively rare in Africa. His story conveys a love of his craft along with the specifics of his practice. It also provides invaluable firsthand accounts of the explosive creativity in postcolonial African music, and the personal and artistic dynamics in Fela's Koola Lobitos and Africa 70, two of the greatest bands to ever play African music.

**Intelligent Projects Using Python** Santanu Pattanayak,2019-01-31 Implement machine learning and deep learning

methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

Guitar Cultures Andy Bennett, Kevin Dawe, 2020-05-18 The guitar is one of the most evocative instruments in the world. It features in music as diverse as heavy metal, blues, indie and flamenco, as well as Indian classical music, village music making in Papua New Guinea and carnival in Brazil. This cross-cultural popularity makes it a unique starting point for understanding social interaction and cultural identity. Guitar music can be sexy, soothing, melancholy or manic, but it nearly always brings people together and creates a common ground even if this common ground is often the site of intense social, cultural, economic and political negotiation and contest. This book explores how people use guitars and guitar music in various nations across the world as a musical and symbolic basis for creating identities. In a world where place and space are challenged by the pace of globalization, the guitar provides images, sounds and styles that help define new cultural territories. Guitars play

a crucial part in shaping the commercial music industry, educational music programmes, and local community atmosphere. Live or recorded, guitar music and performance, collecting and manufacture sustains a network of varied social exchanges that constitute a distinct cultural milieu. Representing the first sustained analysis of what the guitar means to artists and audiences world-wide, this book demonstrates that this seemingly simple material artefact resonates with meaning as well as music.

**The Cambridge Companion to the Guitar** Victor Coelho, 2003-07-10 From its origins in the culture of late medieval Europe to enormous global popularity in the twentieth, the guitar and its development comprise multiple histories, each characterized by distinct styles, playing techniques, repertoires, and socio-cultural roles. These histories simultaneously span popular and classical styles, contemporary and historical practices, written and unwritten traditions, and Western and non-Western cultures. This is the first book to encompass the breadth and depth of guitar performance, featuring twelve essays covering different traditions, styles, and instruments, written by some of the most influential players, teachers, and guitar historians in the world. The coverage of the book allows the player to understand both the analogies and the differences between guitar traditions; all styles--from baroque, classical, country, blues, and rock to flamenco, African, and Celtic--will share the same platform, along with instrument making. As musical training is increasingly broadened this comprehensive book will become an indispensable resource.

*Gender in the Music Industry* Marion Leonard, 2017-10-03 Why, despite the number of high profile female rock musicians, does rock continue to be understood as masculine? Why is rock generally assumed to be created and performed by men? Marion Leonard explores different representations of masculinity offered by, and performed through, rock music, and examines how female rock performers negotiate this gendering of rock as masculine. A major concern of the book is not specifically with men or with women performing rock, but with how notions of gender affect the everyday experiences of all rock musicians within the context of the music industry. Leonard addresses core issues relating to gender, rock and the music industry through a case study of 'female-centred' bands from the UK and US performing so called 'indie rock' from the 1990s to the present day. Using original interview material with both amateur and internationally renowned musicians, the book further addresses the fact that the voices of musicians have often been absent from music industry studies. Leonard's central aim is to progress from feminist scholarship that has documented and explored the experience of female musicians, to presenting an analytic discussion of gender and the music industry. In this way, the book engages directly with a number of under-researched areas: the impact of gender on the everyday life of performing musicians; gendered attitudes in music journalism, promotion and production; the responses and strategies developed by female performers; the feminist network riot grrrl and the succession of international festivals it inspired under the name of Ladyfest.

**1001 Classical Recordings You Must Hear Before You Die** Matthew Rye, Steven Isserlis, 2017-10-24 A thick and informative guide to the world of classical music and its stunning recordings, complete with images from CD cases, concert halls, and of the musicians themselves.

*That Winter* Pamela Gillilan, 1986 Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

**God Love You** Fulton J. Sheen, 1995-03-01 Here is a rich selection of short, meaningful excerpts from the writings of Bishop Fulton J. Sheen. Forming a collection of landmarks along the way to spiritual peace, each paragraph in this book has been selected for the specific help and guidance it can bring in helping to make life worth living. These brief, perceptive selections from thirty of Bishop Sheen's books reveal a brilliant mind at work as it considers the affairs of men, both spiritually and temporally. Love, hate, frustration, passion, virtue, wisdom, peace--all that goes into the complexity of man's life on earth is considered with rare sensitivity and frequently penetrating humor.

**Hundred Block Rock** Bud Osborn, 1999 Bud Osborn's point of reference is the street of the disenfranchised - literally, the street corners bordered by Main and Hastings on Vancouver's notorious East Side, known as Hundred Block Rock--the poorest neighbourhood in Canada. While this area is well-known for its drug users, criminals, and prostitutes, it is also home to recovering addicts, single mothers, and those whom society has cast aside. As a poet who has known the nightmare of addiction and poverty himself, Bud Osborn sheds light on the unforgiving darkness of Hundred Block Rock, putting faces and names to those who somehow find ways and means to survive there. These poems are direct confessionals that speak valiantly and movingly of the community of the street: from detox centres and the wail of ambulance sirens to the poignant instances of junkies dancing in alleys, or the sound of jazz after midnight. They bring to life the squalid intensity of Hundred Block Rock, while at the same time articulating the redemptive spirit of survival that nurtures and sustains its habitués. Many of the poems in *Hundred Block Rock* are also featured on a CD available from Festival Distribution.

**Growing Your Musician** Tony Bancroft, 2007 Co-published by MENC: The National Association for Music Education. *Growing Your Musician: A Practical Guide for Band and Orchestra Parents*, Second edition aims to help students develop musical skills faster and facilitate better communication among teachers and parents about their progress.

**Frock Rock** Mavis Bayton, 1998 This is the first ethnographic study of women's popular music-making. It is based on over 100 in-depth interviews as well as participant observation by the author, a sociologist, who has herself played in various bands since punk. Bayton covers the period from the late 1970s until the mid 1990s, focusing mainly on women

instrumentalists in female and mixed bands. Amongst others, interviewees include Skin from Skunk Anansie, Debbie Smith from Echobelly, Candida Doyle from Pulp, Gail Greenwood from Belly and L7, Natasha Atlas from Transglobal Underground, and Vie Subversa from Poison Girls. Although female vocalists have always been common, women playing instruments in bands are still proportionally rare. Frock Rock explores the social factors that keep women from playing and those routes that have enabled women's involvement. The book then examines the everyday worlds of women's music-making from bands just starting up to the professional stage: songwriting, rehearsing, the first gig, getting a manager, record companies, recording, and touring. Easy to read and packed with fascinating quotes, Frock Rock makes an invaluable contribution to the field of popular music studies and will become a key text in cultural studies, media studies, women's studies, and sociology of culture courses.
