Non-Native Language Teachers Enric Llurda, 2006-06-09 As non-natives are increasingly found teaching languages, particularly English, both in ESL and EFL contexts, the identification of their specific contributions and their main strengths has become more relevant than ever. This volume provides different approaches to the study of non-native teachers: NNS teachers as seen by students, teachers, graduate supervisors, and by themselves. It contributes seldom-explored perspectives, like classroom discourse analysis, and social-psychological framework to discuss conceptions of NNS teachers.

English 5-11 David Waugh, Wendy Jolliffe, 2016-06-23 English is central to the primary-school curriculum and successfully mastering the basics has a significant influence on pupils' ability to learn and achieve their future goals. Now fully updated, English 5-11 provides comprehensive, up-to-date and creative guidance on teaching English in the primary school. Each chapter provides the busy teacher with indispensable advice and guidance, as well as opportunities to reflect

upon current practice in the classroom. Key areas covered include: ■ language and literacy development; ■ grammar, punctuation and spelling; ■ talk for learning; ■ systematic synthetic phonics; ■ fiction, poetry and non-fiction; ■ drama and creativity; ■ teaching in a multilingual classroom; ■ ICT ■ Planning and assessment. This third edition reflects changes in government policy and gives greater attention knowledge about language and is closely related to the changing curriculum for primary English. The highly experienced authors are former literacy advisors and have frontline teaching, school-management and teacher-training experience. This book will be an invaluable resource for all trainee and practising teachers interested in teaching English in an accessible, contemporary and dynamic way.

[A Guide to Teaching Practice](#) Louis Cohen, Lawrence Manion, Keith Morrison, 2006-09-07 The fifth edition of this classic textbook will ensure that it remains one of the most useful and widely read texts for students embarking upon teacher training.

Preparing Teachers to Work with Multilingual Learners Meike Wernicke, Svenja Hammer, Antje Hansen, Tobias Schroedler, 2021-04-15 This collection examines a diverse range of approaches to multilingualism in teacher education programmes across Europe and North America. The authors investigate how pre-service teachers are being prepared to work in multilingual contexts and discuss the key features of current pre-service teacher education initiatives that address the increasing linguistic and cultural diversity evident in classrooms in their respective countries. The focus is not only on migrant-background learners but includes students from Indigenous, autochthonous and heritage language backgrounds, and speakers of minoritised regional varieties. The chapters contextualise, both historically and ideologically, the specific initiatives and measures taken in the participating countries. They also reveal the complexity of each educational context and the role that history, language policies and institutional and programmatic priorities play in the development and implementation of a multilingual focus in teacher education. In exploring how pre-service teachers are being prepared to work in multilingual contexts, the authors take a critical view of how multilingualism itself is conceptualised within and across contexts. The book highlights the valuable impact that explicit instruction on theories of multilingualism, pedagogies in multilingual classrooms and lived realities of multilingual children can have on the beliefs and practices of pre-service teachers.

Teaching Chemistry - A Studybook Ingo Eilks, Avi Hofstein, 2013-04-20 This book focuses on developing and updating prospective and practicing chemistry teachers' pedagogical content knowledge. The 11 chapters of the book discuss the most essential theories from general and science education, and in the second part of each of the chapters apply the theory to examples from the chemistry classroom. Key sentences, tasks for self-assessment, and suggestions for further reading are also included. The book is focused on many different issues a teacher of chemistry is concerned with. The chapters provide contemporary discussions of the chemistry curriculum, objectives and assessment, motivation, learning difficulties, linguistic issues, practical work, student active pedagogies, ICT, informal learning, continuous professional development, and teaching chemistry in developing environments. This book, with contributions from many of the world's top experts in chemistry education, is a major publication offering something that has not previously been available. Within this single volume, chemistry teachers, teacher educators, and prospective teachers will find information and advice relating to key issues in teaching (such as the curriculum, assessment and so forth), but contextualised in terms of the specifics of teaching and learning of chemistry, and drawing upon the extensive research in the field. Moreover, the book is written in a scholarly style with extensive citations to the literature, thus providing an excellent starting point for teachers and research students

undertaking scholarly studies in chemistry education; whilst, at the same time, offering insight and practical advice to support the planning of effective chemistry teaching. This book should be considered essential reading for those preparing for chemistry teaching, and will be an important addition to the libraries of all concerned with chemical education. Dr Keith S. Taber (University of Cambridge; Editor: Chemistry Education Research and Practice) The highly regarded collection of authors in this book fills a critical void by providing an essential resource for teachers of chemistry to enhance pedagogical content knowledge for teaching modern chemistry. Through clever orchestration of examples and theory, and with carefully framed guiding questions, the book equips teachers to act on the relevance of essential chemistry knowledge to navigate such challenges as context, motivation to learn, thinking, activity, language, assessment, and maintaining professional expertise. If you are a secondary or post-secondary teacher of chemistry, this book will quickly become a favorite well-thumbed resource! Professor Hannah Sevian (University of Massachusetts Boston)

Visible Learning for Teachers John Hattie, 2012-03-15 In November 2008, John Hattie's ground-breaking book Visible Learning synthesised the results of more than fifteen years research involving millions of students and represented the biggest ever collection of evidence-based research into what actually works in schools to improve learning. Visible Learning for Teachers takes the next step and brings those ground breaking concepts to a completely new audience. Written for students, pre-service and in-service teachers, it explains how to apply the principles of Visible Learning to any classroom anywhere in the world. The author offers concise and user-friendly summaries of the most successful interventions and offers practical step-by-step guidance to the successful implementation of visible learning and visible teaching in the classroom. This book: links the biggest ever research project on teaching strategies to practical classroom implementation champions both teacher and student perspectives and contains step by step guidance including lesson preparation, interpreting learning and feedback during the lesson and post lesson follow up offers checklists, exercises, case studies and best practice scenarios to assist in raising achievement includes whole school checklists and advice for school leaders on facilitating visible learning in their institution now includes additional meta-analyses bringing the total cited within the research to over 900 comprehensively covers numerous areas of learning activity including pupil motivation, curriculum, meta-cognitive strategies, behaviour, teaching strategies, and classroom management Visible Learning for Teachers is a must read for any student or teacher who wants an evidence based answer to the question; 'how do we maximise achievement in our schools?'

Second Language Learning and Language Teaching Vivian Cook, 2016-05-05 Second Language Learning and Language Teaching provides an introduction to the application of second language acquisition research to language teaching. Assuming no previous background in second language acquisition or language teaching methods, this text starts by introducing readers to the basic issues of second language acquisition research. It then examines how people learn particular aspects of the second language, such as grammar, vocabulary, pronunciation and the writing system, and at the strategies

they adopt in their learning and the differences between individuals. Final chapters look at second language learning in a broader context - the goals of language teaching and how teaching methods relate to SLA research. This newly updated fifth edition builds on the comprehensive scope of earlier editions while also addressing more recent developments in the field, particularly multilingual approaches to language teaching.

Thrive Meenoo Rami, 2014 Download a sample chapter As a novice teacher, Meenoo Rami experienced the same anxieties shared by many: the sense of isolation, lack of self-confidence, and fear that her work was having no positive impact on her students. In Thrive, Meenoo shares the five strategies that helped her become a confident, connected teacher. From how to find mentors and build networks, both online and off, to advocating for yourself and empowering your students, Thrive shows new and veteran teachers alike how to overcome the challenges and meet the demands of our profession. Praise for Thrive Whether you are entering your first year of teaching or your 40th, Thrive feels as if it were written just for you. At a time in our profession when many of us are feeling stretched thin, Meenoo Rami offers strategies to reignite our passions and rediscover why we chose to teach. -Christopher Lehman, coauthor of *Falling in Love with Close Reading* Teaching is a profession that eats its young. Meenoo Rami offers guidelines for surviving the challenges of the classroom as well as the faculty room. -Carol Jago, author, teacher, and past president of NCTE Thrive includes a mosaic of dynamic teacher voices from many grade levels and content areas. Reading their stories deepened my thinking about the immense untapped potential of our profession. Meenoo Rami's vision of teaching and learning can sustain us all. -Penny Kittle, author of *Book Love* Join the conversation on Twitter at #edthrive.

English Language Teacher Education Minh Hue Nguyen, 2020-08-14 This book examines a range of complex issues concerning the professional experience (i.e., practicum) in English language teacher education with regard to curriculum design and implementation, as well as professional learning. Drawing on a sociocultural perspective, it explores the context of the professional experience, preservice teachers as learners of English language teaching, and the activity of learning to teach English language in connection with interrelated contextual and personal issues: contextual issues such as policies,

curricula, university-school partnerships, and mentoring relations are investigated in relation to personal issues such as the beliefs, expectations, prior educational experiences, previous teaching experiences, and cultural-linguistic backgrounds of preservice teachers. In turn, the book addresses professional learning issues, including professional identity development, emotional experiences, and pedagogical learning, in depth. The book delves into the qualitative “fine-grained” aspects of the professional experience while also making valuable conceptual contributions through a sociocultural analysis of the professional learning experience, which can also be applied to research in other teacher education contexts. The findings presented here hold practical implications for English language teacher education in terms of developing a knowledge base for English language teaching and an effective model of professional experience to prepare English language teachers for working in today’s expanded, diverse and dynamic neoliberal contexts.
