Child Protection Nigel Parton, David Thorpe, Corrine May-Chahal, 1995-06-30 Drawing on original research, this book provides a major critique of contemporary child protection research, policy and practice. In particular, it challenges current attempts to reorder priorities and reconstruct the balance between family support and child protection. In the process, it provides a unique insight into the nature of child protection work and the way practitioners respond to the inherent tensions and difficulties involved. It is essential reading for anyone interested in this major personal and social issue.

Perfume Patrick Süskind, 2015-06-25 An erotic masterpiece of twentieth century fiction - a tale of sensual obsession and bloodlust in eighteenth century Paris 'An astonishing tour de force both in concept and execution' Guardian In eighteenth-century France there lived a man who was one of the most gifted and abominable personages in an era that knew no lack of gifted and abominable personages. His name was Jean-Baptiste Grenouille, and if his name has been forgotten today. It is certainly not because Grenouille fell short of those more famous blackguards when it came to arrogance, misanthropy, immorality, or, more succinctly, wickedness, but because his gifts and his sole ambition were restricted to a domain that leaves no traces in history: to the fleeting realm of scent . . . 'A fantastic tale of murder and twisted eroticism controlled by a disgusted loathing of humanity . . . Clever, stylish, absorbing and well worth reading' Literary Review 'A meditation on the nature of death, desire and decay . . . A remarkable début' Peter Ackroyd, The New York Times Book Review 'Unlike anything else one has read. A phenomenon . . . [It] will remain unique in contemporary literature' Figaro 'An ingenious and totally absorbing fantasy' Daily Telegraph 'Witty, stylish and ferociously absorbing' Observer

Interthinking: Putting Talk to Work Karen Littleton, Neil Mercer, 2013-08-15 Written in an accessible and jargon-free style, *Interthinking: putting talk to work* explores the growing body of work on how people think creatively and productively together. Challenging purely individualistic accounts of human evolution and cognition, its internationally acclaimed authors provide analyses of real-life examples of collective thinking in everyday settings including workplaces, schools, rehearsal spaces and online environments. The authors use socio-cultural psychology to explain the processes involved in interthinking, to explore its creative power, but also to understand why collective thinking isn't always productive or successful. With this knowledge we can maximise the constructive benefits of our ability to interthink, and understand the best ways in which we can help young people to develop, nurture and value that capability.

Mass Communication and Public Health Charles K. Atkin, Lawrence Wallack, 1990-08 The media influence how we live--and die. Tobacco can kill us, yet we continue to smoke. Drinking and driving is a lethal combination, yet we continue to drive when inebriated. Poor diet slowly destroys us, yet we continue to eat unhealthily. Why? Evolving from a national conference, *Mass Communication and Public Health* examines why public information campaigns have achieved limited success and what can be done to improve their effectiveness. This up-to-date volume has a fourfold focus:

Forgotten Connections Klaus Mollenhauer, 2013-10-30 Klaus Mollenhauer's *Forgotten Connections: On Culture and Upbringing* is internationally regarded as one of the most important German contributions to educational and curriculum theory in the 20th century. Appearing here in English for the first time, the book draws on Mollenhauer's concern for social

justice and his profound awareness of the pedagogical tension between the inheritance of the past and the promise of the future. The book focuses on the idea of Bildung, in which philosophy and education come together to see upbringing and maturation as being much more about holistic experience than skill development. This translation includes a detailed introduction from Norm Friesen, the book's translator and editor. This introduction contextualizes the original publication and discusses its application to education today. Although Mollenhauer's work focused on content and culture, particularly from a German perspective, this book draws on philosophy and sociology to offer internationally relevant responses to the challenge of communicating cultural values and understandings to new generations. *Forgotten Connections* will be of value to students, researchers and practitioners working in the fields of education and culture, curriculum studies, and in educational and social foundations.

Practical Aspects of Rape Investigation Robert R. Hazelwood, Ann Wolbert Burgess, 2021-03-31 This latest edition addresses rape and sexual assaults from all clinical, pathological, medical, and legal aspects. The book focuses on the victim and covers contemporary issues in sexual violence, investigative aspects of rape and sexual assault, offender fantasy, the personality of the offender, collection of evidence, medical examinations, and treatment, as well as trial preparation issues. Special topics include pedophiles, female and juvenile offenders, drug-facilitated rape, sexual sadism, elder abuse, and sexual assault within the military.

Eichmann in Jerusalem Hannah Arendt, 2006-09-22 The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

The Sleepwalkers Hermann Broch, 2011-07-20 With his epic trilogy, *The Sleepwalkers*, Hermann Broch established himself as one of the great innovators of modern literature, a visionary writer-philosopher the equal of James Joyce, Thomas Mann, or Robert Musil. Even as he grounded his narratives in the intimate daily life of Germany, Broch was identifying the oceanic changes that would shortly sweep that life into the abyss. Whether he is writing about a neurotic army officer (*The Romantic*), a disgruntled bookkeeper and would-be assassin (*The Anarchist*), or an opportunistic war-deserter (*The Relais*), Broch immerses himself in the twists of his characters' psyches, and at the same time soars above them, to produce a prophetic portrait of a world tormented by its loss of faith, morals, and reason.

Criminal Shadows David Canter, 1994 Every crime casts a unique shadow that may be interpreted to lead the police to

the criminal responsible. This book looks at offender profiling that helps the police to identify and track individual criminals by the nature of their crime.

Neuroleadership Argang Ghadiri, Andreas Habermacher, Theo Peters, 2013-01-26 This book takes you on a journey through the brain, its function and its impact on leadership. The young business field of neuroleadership is founded on the belief that understanding the brain can give leaders new and powerful insights into human behaviour and how to effectively tap into that knowledge to generate better returns in business. The book approaches the background, history, and major thinkers in the field, but also reassesses the fundamental concept of neuroleadership. The authors look into the fundamental basic needs of human beings, how they are represented in the neural networks, and how this manifests in motivational drives. The book also focuses explicitly on how impactful organisational tools can be from the viewpoint of the brain. By following this methodology, the reader will be able to use the knowledge of neuroscience at the workplace to better address individuals' brains and hence tap into the full power of brains in business.
