Strategic Communication, Social Media and Democracy W. Timothy Coombs, Jesper Falkheimer, Mats Heide, Philip Young, 2015-08-11 Today almost everyone in the developed world spends time online and anyone involved in strategic communication must think digitally. The magnitude of change may be up for debate but the trend is unstoppable, dramatically reconfiguring business models, organisational structures and even the practice of democracy. *Strategic Communication, Social Media and Democracy* provides a wholly new framework for understanding this reality, a reality that is transforming the way both practitioners and theoreticians navigate this fast-moving environment. Firmly rooted in empirical research, and resisting the lure of over-optimistic communication dreams, it explores both the potential that social media offers for changing the relationships between organisations and stakeholders, and critically analyses what has been achieved so far. This innovative text will be of great interest to researchers, educators and advanced students in strategic communications, public relations, corporate communication, new media, social media and communication management.

Social Media Influencers in Strategic Communication Nils S. Borchers, 2021-12-21 This book seeks to draw a comprehensive picture of influencer collaborations from a strategic communication perspective. The contributors tackle strategic influencer communication from multidisciplinary perspectives, from varying actor foci, and from different methodological frameworks and methods. Influencers cross traditional boundaries in many ways and oscillate between intimacy and publicity, authenticity and commercialization, ingratiation and critical distance. From a strategic

communication perspective, this variability makes influencers hard to capture: organizations can cooperate with influencers to achieve both marketing and PR objectives. Influencers can act as cooperation partners, integrating commercial content into organic narratives, or as independent critics. Influencers also combine different roles that have traditionally been occupied by separate actors such as intermediary, content distributor, creative content producer, community manager, testimonial, strategic counsellor, and event host. The combination of these roles in just one actor opens new opportunities for strategic communication and can produce appreciated synergy effects. It is therefore hardly surprising that influencer collaborations have become a firmly established instrument in the toolbox of strategic communicators. The chapters in this book were originally published in the International Journal of Advertising and the International Journal of Strategic Communication.
