

Terapia Familiar Y De Pareja Roizblatt

Roberto Pereira, Juan Luis Linares

Terapia familiar y de pareja Arturo S. Roizblatt, 2006

El baile de la pareja, 2007-08-28 Este libro muestra la riqueza y creatividad de la práctica clínica y la investigación en países como Italia, Chile, Argentina y México, así como algunos resultados alcanzados. Los autores exponen el desarrollo de fórmulas nuevas para atender contextos, tipologías y formas concretas de patología en la vida de las parejas.

Terapia familiar ultramoderna Juan Luis Linares, 2012-06-06 Esta obra propone un paseo por la terapia familiar sistémica que incluye al mismo tiempo una mirada clásica, porque asume influencias cruciales en el bagaje histórico del modelo sistémico, y una exploración novedosa, porque tales influencias vienen interpretadas de forma personal y porque las conclusiones que de ellas se extraen constituyen una propuesta original y, en algunos aspectos, heterodoxa. Junto a algunos conceptos ya conocidos del autor, como el amor complejo o la nutrición relacional, se presentan de forma ordenada otros que conforman un mosaico novedoso. Aparece así una teoría sistémica de la personalidad, que, en su vertiente disfuncional, enlaza con el maltrato psicológico, y se reflexiona también sobre las bases relacionales de la psicopatología, buscando una propuesta de estrategias terapéuticas coherentes con las mismas, así como con los recursos personales del propio terapeuta. Como el propio autor sugiere, matizando a Maturana, somos criaturas primariamente amorosas y secundariamente maltratantes; cuando el poder nos bloquea el amor, enfermamos y hacemos enfermar, pero la inteligencia terapéutica nos devuelve la salud.

Handbook of Family Therapy Thomas L. Sexton, Jay Lebow, 2015-12-07 Integrative, research-based, multisystemic: these words reflect not only the state of family therapy, but the nature of this comprehensive handbook as well. The contributors, all well-recognized names who have contributed extensively to the field, accept and embrace the tensions that emerge when integrating theoretical perspectives and science in clinical settings to document the current evolution of couples and family therapy, practice, and research. Each individual chapter contribution is organized around a central theme: that the integration of theory, clinical wisdom, and practical and meaningful research produce the best understanding of couple and family relationships, and the best treatment options. The handbook contains five parts: • Part I describes the history of the field and its current core theoretical constructs • Part II analyzes the theories that form the foundation of couple and family therapy, chosen because they best represent the broad range of schools of practice in the field • Part III provides the best examples of approaches that illustrate how clinical models can be theoretically integrative, evidence-based, and clinically responsive • Part IV summarizes evidence and provides useful findings relevant for research and practice • Part V looks at the application of couple and family interventions that are based on emerging clinical needs, such as divorce and working in medical settings. Handbook of Family Therapy illuminates the threads that are common to family therapies and gives voice to the range of perspectives that are possible. Practitioners, researchers, and students need to have this handbook on their shelves, both to help look back on our past and to usher in the next evolution in family therapy.

Manual de Terapia Familiar Sistémica. Las bases de la Terapia Familiar. Tomo I Roberto Pereira Tercero, 2023-04-10 Un Manual es un libro en que se compendia lo más sustancial de una materia, por lo que no es extraño que, las instituciones que se dedican a la formación en un determinado saber tengan, tarde o temprano, la tentación de escribir un Manual que ponga ordenadamente y por escrito los conocimientos que los docentes tratan de transmitir a sus alumnos. Este era un tema recurrente de la nuestra, la Escuela Vasco-Navarra de Terapia Familiar, hasta que finalmente nos hemos puesto a la tarea, decididos a poner negro sobre blanco lo que, durante treinta largos años, hemos intentado transmitir a los cientos de alumnos que hemos tenido la suerte de conocer en nuestros diferentes programas formativos, tanto presenciales como online. Pero este programa docente, hasta llegar a ser un Psicoterapeuta Familiar y de Pareja acreditado por la Federación Española de Asociaciones de Terapia Familiar - Featf - y la Federación Española de Asociaciones de Psicoterapeutas - Feap -,

es largo, intenso y con un elevado número de temas. Pronto nos dimos cuenta de que todo eso no nos cabía en un solo volumen que resultara manejable, por lo que decidimos dividirlo en tres tomos. Este que tiene en sus manos es el primero de los tres, dedicado a las Bases de la Terapia Familiar Sistémica, a sus fundamentos teóricos, el punto de partida imprescindible que es necesario conocer antes de aventurarse por los vericuetos de la intervención sistémica o la terapia familiar o de pareja. Dividido en cuatro grandes Bloques - Modelos Teóricos Básicos, Evaluación y Técnicas de Entrevista Familiar, Contexto y Proceso y, por último, Modelos Sistémicos Básicos - recoge fielmente nuestro programa formativo del primer año, al que llamamos Curso Básico, ya que, todos sus autores, son profesores de la EVNTF, tanto en su modalidad presencial como online. Así, aunque estos cambien en cada capítulo, hay una coherencia en la manera de enfocar la docencia, de exponer lo que saben y tratan de transmitir, compartiendo una estructura común. El resultado, además de un manual formativo para todos aquellos que quieran formarse en el modelo sistémico, es una obra de consulta para los que quieran acercarse a este modelo psicoterapéutico y tengan interés en conocer la visión del mundo que propone la epistemología eco-sistémica relacional.

Caminos de la Terapia Familiar. Un largo recorrido desde la clínica a lo social en Terapia Familiar Sistémica (Nueva edición ampliada) Roberto Pereira, Juan Luis Linares, 2022-10-07 Los caminos de la terapia Familiar son muchos y variados, unos anchos y rectos como autopistas bien asfaltadas, otros, veredas que se retuercen con el suelo pedregoso y lleno de obstáculos. Los hay antiguos, que llevan a lugares conocidos y frecuentados, y nuevos, recién desbrozados, que se adentran en terrenos inexplorados en busca de nuevos territorios que no siempre hallarán. A veces, se entrecruzan y superponen, desorientando al terapeuta viajero. Por ello, resulta útil retornar, de cuando en cuando, al punto de partida, reconocer los orígenes y recorrerlos pausadamente, deteniéndonos a contemplar los edificios que se han ido construyendo junto al camino. Y en el origen está la Clínica. La Terapia familiar nació y creció con objetivos claros. Tratar de resolver, de tratar, de atenuar al menos, los trastornos psicopatológicos, comenzando por el más grave de todos ellos: la psicosis. Luego se fueron bifurcando, y aparecieron los que exploraban el área sociofamiliar, el de las familias multiproblemáticas, las adicciones, la depresión y el duelo patológico, y más tarde los trastornos de personalidad, en particular el trastorno límite. Otro gran camino que se abrió muy pronto fue el de la pareja, con sus diversas facetas. En este libro, autores muy destacadas de la Terapia Familiar del sur de Europa, todos ellos estrechamente relacionados con Relates, reflexionan sobre estos caminos básicos, actualizando el abordaje que hace la Terapia Familiar sistémica, no sólo desde el punto de vista de la comprensión de estos diversos problemas relacionales, sino proponiendo las más novedosas intervenciones.

Families and Family Therapy Salvador Minuchin, 2009-07-01 No other book in the field so fully combines vivid clinical examples, specific details of technique, and mature perspectives on both effectively functioning families and those seeking therapy. The views and strategies of a master clinician are presented here in such clear and precise form that readers can

proceed directly from the book with comparisons and modifications to suit their own styles and working situations. Salvador Minuchin presents six chapter-length transcripts of actual family sessions—two devoted to ordinary families who are meeting their problems with relative success; four concerned with families seeking help. Accompanying each transcript is the author's running interpretation of what is taking place, laying particular stress on the therapist's tactics and maneuvers. These lively sessions are interpreted in a brilliant theoretical analysis of why families develop problems and what it takes to set them right. The author constructs a model of an effectively functioning family and defines the boundaries around its different subsystems, whether parental, spouse, or sibling. He discusses ways in which families adapt to stress from within and without, as they seek to survive and grow. Dr. Minuchin describes methods of diagnosing or "mapping" problems of the troubled family and determining appropriate therapeutic goals and strategies. Different situations, such as the extended family, the family with a parental child, and the family in transition through death or divorce, are examined. Finally, the author explores the dynamics of change, examining the variety of restructuring operations that can be employed to challenge a family and to change its basic patterns.

Divorced Fathers and Their Families Florence W. Kaslow, 2012-12-09 This book focuses on the experience of father's lives after a divorce, and how mental health professionals can help them create a healthy transition. Through the use of case examples critical issues are highlighted and discussed with supportive empirical findings and clinical insights. Traditionally, the marital legal sessions as well as the ultimate marriage settlement focus on the issues confronted by the ex-wife and mother and on the custody and visitation plan for the children. This is actually supported by law in some places. This can remove the father from important qualitative issues such as what it is like to have children in two households, relationships with two sets of grandparents, where holidays will be spent, fair rotations of responsibility and how continuing parental discord can be resolved. The issues examined in this volume are relevant to a range of professionals who deal with divorcing couples from psychologists and family therapists to legal advisors and judges.

Milan Systemic Family Therapy Luigi Boscolo, Gianfranco Cecchin, Lynn Hoffman, Peggy Penn, 1987-12-21 This long-awaited book is the first to offer a complete and clear presentation of the therapy of the Milan Associates, Luigi Boscolo and Gianfranco Cecchin. Based on cybernetic theory, their work has had dramatic success in helping families change behavior. This practical and enlightening book uses clinical cases and the fascinating conversations among the four authors to examine the relationship between Milan theory and practice. Transcripts of sessions conducted by Boscolo and Cecchin—which include a family that is hiding a history of incest and one dominated by an anorectic girl—provide vivid examples of family interaction and therapeutic imagination. In the accompanying conversations with Boscolo and Cecchin about these sessions, Hoffman and Penn take us behind the scenes to show how the therapists think through and conduct their therapy. These highly readable conversations clarify the essentials of the therapy, including hypothesizing, circular questioning, positive

connotation, and crafting interventions. Like Milan therapy itself, the interviews are recursive; new ideas about the therapy feed back into the conversations and stimulate further revelations. A lengthy introduction sets the Milan approach in historical context, and introductions to the individual cases highlight the main ideas.

Entendiendo a la Pareja, 2014-02 Usando como punto de partida los enfoques teóricos que han guiado su práctica, ocho terapeutas latinoamericanos revisan tanto los cambios en los patrones de relación de hombres y mujeres que han ocurrido en los últimos años así como lo que significa ser terapeuta en la actualidad. Entre los temas explorados en este libro se encuentran las historias patriarcal y matriarcal de la pareja en la sociedad mexicana, la espiritualidad en el crecimiento de la relación conyugal, el enamoramiento y el amor en una posmodernidad narcisista, la superación de la crisis de infidelidad, las nuevas formas de vida en pareja y la ayuda que puede ofrecer un terapeuta. Con su análisis de los cambios que se han llevado a cabo en la estructura y funcionamiento tradicionales de la pareja durante las últimas décadas, este libro resulta un recurso invaluable tanto para la pareja que busca mejorar su comprensión de sí misma como para el terapeuta que busca ayudarlo.

Terapia Experiencial Profunda Esteban Laso, Alfredo Canevaro, 2022-09-20 En esta publicación se juntan dos personas que tejen una filosofía terapéutica provocativa y seductora. Alfredo Canevaro, gran maestro y referente de la Terapia Familiar Sistémica, y por otra parte Esteban Laso, un joven talentoso. Ambos tienen publicaciones que definen el estilo y la propuesta de cada uno; el primero sobre terapia sistémica individual y el segundo la terapia en clave emocional. Aquí convergen en lo que denominan Terapia Experiencial Profunda. Esta publicación retoma de manera brillante y crítica la sabiduría sistémica, sobre todo los de los clásicos, en especial Whitaker, Bowen, Satir y Boszormenyi-Nagy; además integra magistralmente a George Kelly, aunque hay que reconocer la fuerte influencia de Laing, Greenberg, Mahoney y Erikson. Con esta sabiduría, Laso y Canevaro han construido una psicoterapia sistémica que gira en torno a una ecología de las emociones vinculantes a las necesidades básicas. El texto se compone de tres capítulos: primero la teoría, segundo los principios y destrezas del terapeuta, y tercero la práctica clínica con individuos y parejas. Como indican los autores: Es nuestra esperanza que esta propuesta permita no sólo incorporar como miembros de pleno derecho las emociones y las necesidades al repertorio del terapeuta sino además contrapesar el individualismo, el presentismo y la obsesión por la productividad que agostan nuestras vidas sociales y cortan nuestras raíces históricas y familiares.

Psicoterapia individual Juan Miguel de Pablo Urban, 2018-08-28 La obra recoge el fruto de la experiencia profesional del autor, con más de treinta años de ejercicio como psicoterapeuta, formador y supervisor en psicoterapia. Se apuesta en el texto por la construcción de un formato de intervención clínica para el ejercicio de la psicoterapia individual desde una perspectiva sistémica integradora. A este fin el autor describe, en primer lugar, aquellas situaciones de dolor y sufrimiento preferentemente abordables, el encuadre más adecuado para el óptimo desarrollo del trabajo clínico y las indicaciones que

recomiendan la realización de una psicoterapia individual bajo este enfoque. En segundo lugar, se establecen y desarrollan los ejes primordiales y medulares de la intervención psicoterapéutica para, en último lugar, describir las técnicas y herramientas que pueden ser incorporadas en el quehacer de los profesionales de la psicoterapia cuando desarrollan atención clínica con formato individual. En síntesis, se pretende la incorporación pragmática de aportaciones que provienen desde los diferentes modelos y enfoques de la psicología clínica, así como de las diferentes técnicas y herramientas implementadas en otros abordajes psicoterapéuticos con la certeza de que los profesionales que ejercen la psicoterapia individual puedan sentirse libres para integrar perspectivas y técnicas, de forma ordenada y con el sustento teórico y técnico necesario, al objeto de sumar elementos para mejorar la intervención en los procesos terapéuticos con sus pacientes.

Terapia familiare ultramoderna Juan Luis Linares, 2017-03-03T00:00:00+01:00 1249.1.38

Prácticas alienadoras familiares Juan Luis Linares, 2015-01-01 Este libro trata de las prácticas alienadoras familiares, una modalidad de maltrato infantil especialmente correosa y difícil de combatir, ya que se encuentra en la encrucijada entre la parentalidad y la relación conyugal. Cuando las tormentas que azotan a la relación de pareja alcanzan su mayor intensidad la protección de los hijos queda amenazada. El maltrato parento-filial es el más claro exponente del fracaso del amor como fenómeno relacional complejo propio de la condición humana. Este tipo de maltrato existió desde los orígenes de la especie, pero fue con la llamada revolución neolítica cuando alcanzó una expansión significativa. La obra se compone de varios bloques temáticos que abordan la parte teórica, las bases para la definición de los fenómenos de alienación familiar, y una descripción de las Prácticas Alineadoras Familiares (PAF) como una alternativa al Síndrome de Alienación Parental (SAP). También se describen casos que ilustran algunas de las ideas centrales del libro y sus aplicaciones en España, Italia, Chile y Perú.

Strategic Family Therapy Cloé Madanes, 1992-04-16 Madanes' lucid, coherent, and practical guide for familytherapists is a welcome addition to the proliferating literature byfamily therapy theorists and practitioners.... The book is concise, well organized and clearly written. --Contemporary Psychology A classic work which uses imaginative techniques to help achievebalance within the family. It gives attention to specific problems such as violence, drug abuse, and depression, and seeks the hidden meaning in these symptoms, which are clues to the underlying familystructure.

Experiencias y retos en supervisión clínica sistémica Román Cárdenas, Angie Paola, 2020-09-28 El libro se desarrolla a la luz de tres argumentos orientadores que van en relación con lo propuesto por cada autor, reconociendo la particularidad y el estilo de la persona del supervisor, y, a su vez, en relación con los ejes transversales del modelo. De esta forma se fortalece la convergencia en la divergencia y en el reconocimiento de las particularidades que enriquecen la propuesta desde la experiencia profesional y personal de cada autor, en conexión con la identidad y con la historia de la escuela de la Maestría en Psicología Clínica y de la Familia de la Universidad Santo Tomás.
