Essentials of Vedic Astrology Komilla Sutton,1999-01-20 The most comprehensive book to date on the use and understanding of the Lunar Nodes in Vedic astrology. The author is a widely known and immensely respected teacher with students all over the world. She has used her experience of working with the nodal axis to show how, by sign and placement, they affect every level of our spiritual existence. Students of astrology, yoga and ayurveda will find this book particularly helpful.

A Textbook of Varshaphala K. S. Charak,1996 The First Book On Annual Horoscopy Or Varshaphala (The Tajika System) Which Is Fully Illustrated.

Three Hundred Important Combinations Bangalore Venkat Raman,2016-01-01 Three Hundred Important Combinations is intended to provide knowledge of the Yogas which indicate specific horoscopic trends. All planetary combinations are divided into two groups viz., Yogas and Aristhas or fortunes and misfortunes. It deals with various standing combinations of yogas. The systematised account of all the important yogas is brought out so that it may illustrate practical horoscopes. The book certainly claims credit for being the first to bring together all scattered information and present it systematically.

Traditional Medical Astrology J. Lee Lehman,2012 Medical Astrology is no longer a specialty that only a few astrologers can learn to use, as was the case for the last century. Presented here is a step-by-step approach to teaching the logic of this field, which traditionally was part of every natal astrologer's work. Included are natal, horary, and electional methods, as well as an extensive history of medical astrology and its uses. Dr. Lehman offers the traditional astrological methods for this system, also emphasizing that medical astrology was always an adjunct to medicine, not a complete system by itself. This book is designed for the intermediate student in astrology who wants to learn the basics of how this system

works. Both theory and practice of these methods are taught.

Applications of Yogini Dasha for Brilliant Predictions Rajeev Jhanji, 1994

Education and Astrology Raj Kumar, The evolution of human race to its present state is due to constant endeavour of each parent to see that even at the cost of their own discomfort, their children move ahead and achieve, what even they could not for any reason. The aim of education has been to awaken the consciousness of a person. The education liberates a soul from darkness of ignorance to the glory of true knowledge and bliss. To acquire knowledge is a natural trait of all human beings. However these days the stream/ branches of education are so many and varied and to get admission therein is so competitive and difficult that the task of the young students and their parents have become difficult. Hence there is a definite need to have astrological/ psychological counseling for specific educational fields. There are number of astrological yogas, combinations, Arishtas (to be countered) as tools for astrologers; yet the astrologer have to invoke his knowledge and intuition to the maximum to be able to provide the correct and timely counsel. Hope the book will help one and all in pursuit of the same.

Shodasha Varga Komilla Sutton, 2020-12-10 The Shodasa Vargas or sixteen divisional charts are an essential technique that is studied in vedic astrology in order to understand the true nature of an individual. Each varga focuses on a different area of life, and together they represent the complete picture, reflecting human consciousness from reality to the subconscious. Komilla Sutton unravels the sixteen vargas and their secrets through the in-depth study of case histories that include Sri Ramana Maharshi, Bill Clinton, Prince William, Bill Gates, Sri Aurobindo, Oprah Winfrey, Julia Roberts, George Clooney, Michael Jackson and many more. She explains the navamsha techniques of relationship compatibility, karakamsha, the atmakaraka in navamsha, how to analyse dasha and transits with vargas, plus vimshopaka, visheshika amsha and finally, appropriate remedies. This book is perfect for all students of vedic astrology, from beginner level to advanced.

Dots of Destiny Vinay Aditya, 2005-10-19 First ever book on Advanced Predictive Techniques of Ashtakavarga (Vedic Astrology) which leads the student step-by-step to the application of Ashtakavarga for everyday predictions. Reveals the decisive role of Ashtakavarga in analysing the dreaded period of sadhe-sati and much more. Vinay Aditya is the Associate editor of the 'Vedic Astrology' magazine, and author of a book on Ashtakavarga. Vinay Aditya holds a degree in engineering besides Jyotish Visharad from Bharatiya Vidya Bhawan, New Delhi. He has been teaching astrology for nearly 8 years, now with the ICAS. He has also been the faculty member at the ACVA conferences. He has given consultations to over thousand persons in Germany. Dots of Destiny describes advanced predictive techniques in a very lucid manner. Vinay Aditya, an engineer by education, opted for the highly evolved science of Vedic Astrology in India. Interestingly, also came across many articles by by Aditya, Vinay in 'Vedic Astrology' magazine. Great reading to all interested in Vedic Astrology and ancient predictive techniques of India. Basic knowledge of Vedic Astrology is a prerequisite to understand and enjoy reading Dots of

Destiny. The entire edifice of astrology rests on the interpersonal play of planets in the backdrop of zodiacal signs. Ashtakavarga is the only method which puts this interplay into a competent system. A planet will do a job according to its strength. The other methods Shadbala (Parashari), Panchavargiya bala (Tajik), or Grahabala (Jaimini), have their own specific value, but they all seem to miss a very important point. And that is, that a planet does not operate in a vacuum, the other six planets are always somewhere around. Therefore, a planet will do a job only in as much measure as the other planets would allow it to do. The other planets either support its assignment or oppose it. In a nutshell, the native, at all times, experiences the combined results of all the planets. It is only a manner of speech amongst astrologers that a particular planet is causing trouble or otherwise because talking of all the seven planets in the same breath is difficult. It is for this reason that the Ashtakavarga system, when we say that Jupiter is powerful because it has 7 Bhinnashtaka bindus, or 42 Sarvashtaka bindus in a sign, what we mean is, that all the planets have gathered together to invest into Jupiter this power. In no other branch of astrology this truly democratic approach is visible so clearly. If there is any sanctity or rationale of Ashtakavarga in the birth chart, it ought to be explored in other charts too, since in all the charts, it is always the interplay of planets with each other that causes events. Whether the results of this exploration are acceptable to the astrologers, by and large, will depend on successful predictions made by the explorers using Ashtakavarga techniques. If and when a sufficient statistical proof is available, then these techniques may be inducted into astrological dicta of the present times. Ashtakavarga seems to be progressively getting out of bounds for those orthodox astrologers who, before they accept an astrological idea, keep propping up the refrain, Where is it written in the classics?
