The Gospel of the Flying Spaghetti Monster Bobby Henderson, 2010-04-07 Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” -Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” -J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” -Afshin Beheshti, Ph.D. Read the book and decide for yourself!

Invented Religions Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization, individualism, and consumer capitalism, this book explores religious movements founded in the West which are intentionally fictional: Discordianism, the Church of All Worlds, the Church of the SubGenius, and Jediism. Their continued appeal and success, principally in America but gaining wider audience through the 1980s and 1990s, is chiefly as a result of underground publishing and the internet. This book deals with immensely popular subject matter: Jediism developed from George Lucas’ Star Wars films; the Church of the Flying Spaghetti Monster, founded by 26-year-old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools; Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students. The Church of All Worlds’ focus on Gaia theology and environmental issues makes it a popular focus of attention. The continued success of these groups of Invented Religions

provide a unique opportunity to explore the nature of late/post-modern religious forms, including the use of fiction as part of a bricolage for spirituality, identity-formation, and personal orientation.

a Heaven is for Real Deluxe Edition Todd Burpo,2011-10-31 #1 New York Times bestseller with more than 11 million copies sold! When 4-year-old Colton Burpo emerges from life-saving surgery with remarkable stories of his visit to heaven, his family doesn't know what to believe. Heaven is For Real details what Colton saw and his family's journey towards accepting their young son had visited the afterlife. "Do you remember the hospital, Colton?" Sonja said. "Yes, mommy, I remember," he said. "That's where the angels sang to me." Colton told his parents he left his body during an emergency surgery—and proved that claim by describing exactly what his parents were doing in another part of the hospital during his operation. He talked of visiting heaven and described events that happened before he was born and how he spoke with family members he'd never met. Colton also astonished his parents with descriptions and obscure details about heaven that matched the Bible exactly, even though he had not yet learned to read. With disarming innocence and the plainspoken boldness of a child, Colton recounts his visit to heaven, describing: Meeting long-departed family members Jesus, the angels, how "really, really big" God is, and how much God loves us How Jesus called Todd, Colton's father, to be a pastor The Battle of Armageddon Retold by his father, but using Colton's uniquely simple words, Heaven Is for Real offers a glimpse of the

world that awaits us, where as Colton says, “Nobody is old and nobody wears glasses.” Heaven Is for Real will forever change the way you think of eternity, offering the chance to see, and believe, like a child. Praise for Heaven is for Real: “A beautifully written glimpse into heaven that will encourage those who doubt and thrill those who believe.” —Ron Hall, coauthor of *Same Kind of Different as Me*

Kissing Fish Roger Wolsey, 2011-01-10 Christianity receives a lot of attention in the media, but the most frequently discussed version represents a type of Christianity that sometimes turns people away from the Church. *Kissing Fish* presents a postmodern systematic theology of progressive Christianity, a growing movement that reclaims the radical message of the Gospel. This informative, contemplative, and entertaining book will guide you through the beliefs that inspire us to love one another in the transformative way that Jesus proclaimed, including practices that will take your faith to a new level. *Kissing Fish* is a scholarly yet thoroughly accessible introduction to progressive Christianity. While the intended target audience for this work would seem to be those who have either left the Christian faith or never adopted it at all; the work is filled with pearls of wisdom for all of us, whether associated with Christianity or not. *Kissing Fish* is a truly remarkable work, serving both as a reminder of the beauty and grace that form the central tenets of the faith, while offering a graceful yet prophetic rebuttal to its more exclusionary tendencies. *Kissing Fish* is part theological text and part tell-all personal spiritual journey. Imagine a down-to-earth combination of the works of Marcus Borg, Anne Lamott, Jim Wallis, Rob Bell, Shane Claiborne, Diana Butler-Bass, Brian McLaren, Walter Wink, Wes Howard-Brook, and Donald Miller. A profound romp that informs and inspires.

God's Not Dead Rice Broocks, 2013-03-11 The evidence behind the hit movie! *God's Not Dead* is apologetics for the twenty-first century, presented in clear and easy-to-follow terms. Learn to defend your faith in a world that's determined to tear it down. The goal of *God's Not Dead* is straightforward: to help readers develop a faith that is real and credible—and strong enough to help others find faith in God. Author Rice Broocks outlines a roadmap that guides seekers to acknowledge the most basic truths of Christianity: There is overwhelming and exciting evidence for God's existence The God who exists is indeed the God of the Bible God has revealed his nature through his Son, Jesus Christ As shown during the movie, this is the original book on which the main character bases much of his debate points with his atheistic professor. It contains persuasive arguments crafted with tools borrowed from logic, science, philosophy, and scripture that will solidify your faith and provide starting points for discussions with skeptics. With clear, easy-to-follow explanations of key concepts and controversies, *God's Not Dead* is modern apologetics presented in layman's terms. You will be empowered not only to talk about your own faith with confidence, but to lead others to a relationship with Jesus.

Out Of Control Kevin Kelly, 2009-04-30 *Out of Control* chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

The Gospel of Bowtie J K Fausnight,2019-11-24 Are you looking for not just a new religion, but a swashbuckling adventure of a religion? The Gospel of Bowtie, the son of the Flying Spaghetti Monster, brings you enlightenment, critical thinking, and pirates. Toss out all those dusty old scriptures and make room on your bookshelf for scarecrow Nazis, disassembled brain parts, and robotic monks. There is a better book in town, one that does not advocate for genocide, misogyny, discrimination, and slavery. Already a Pastafarian? You can throw away your eyepatch. Bowtie is the new covenant! (Like all good religions, the Gospel of Bowtie is blasphemous in the eyes of other religions. Be forewarned.)

Man Seeks God Eric Weiner,2011-09-01 Bestselling author of *Geography of Bliss* returns with this funny, illuminating chronicle of a globe-spanning spiritual quest to find a faith that fits. When a health scare puts him in the hospital, Eric Weiner-an agnostic by default-finds himself tangling with an unexpected question, posed to him by a well-meaning nurse. Have you found your God yet? The thought of it nags him, and prods him-and ultimately launches him on a far-flung journey to do just that. Weiner, a longtime spiritual voyeur and inveterate traveler, realizes that while he has been privy to a wide range of religious practices, he's never seriously considered these concepts in his own life. Face to face with his own mortality, and spurred on by the question of what spiritual principles to impart to his young daughter, he decides to correct this omission, undertaking a worldwide exploration of religions and hoping to come, if he can, to a personal understanding of the divine. The journey that results is rich in insight, humor, and heart. Willing to do anything to better understand faith, and to find the god or gods that speak to him, he travels to Nepal, where he meditates with Tibetan lamas and a guy named Wayne. He sojourns to Turkey, where he whirls (not so well, as it turns out) with Sufi dervishes. He heads to China, where he attempts to unblock his chi; to Israel, where he studies Kabbalah, sans Madonna; and to Las Vegas, where he has a close encounter with Raelians (followers of the world's largest UFO-based religion). At each stop along the way, Weiner tackles our most pressing spiritual questions: Where do we come from? What happens when we die? How should we live our lives? Where do all the missing socks go? With his trademark wit and warmth, he leaves no stone unturned. At a time when more Americans than ever are choosing a new faith, and when spiritual questions loom large in the modern age, *Man Seeks God* presents a perspective on religion that is sure to delight, inspire, and entertain.

The Language Instinct Steven Pinker,2003-02-27 'Dazzling...Pinker's big idea is that language is an instinct...as innate to us as flying is to geese...Words can hardly do justice to the superlative range and liveliness of Pinker's investigations' - Independent 'A marvellously readable book...illuminates every facet of human language: its biological origin, its uniqueness to humanity, its acquisition by children, its grammatical structure, the production and perception of speech, the pathology of

language disorders and the unstoppable evolution of languages and dialects' - Nature

All the material is expertly brought together under the editorship of George Chryssides.

The Believing Brain Michael Shermer,2024-09-04 "A wonderfully lucid, accessible, and wide-ranging account of the boundary between justified and unjustified belief." —Sam Harris, New York Times–bestselling author of *The Moral*

Landscape and The End of Faith In this work synthesizing thirty years of research, psychologist, historian of science, and the world's best-known skeptic Michael Shermer upends the traditional thinking about how humans form beliefs about the world. Simply put, beliefs come first and explanations for beliefs follow. The brain, Shermer argues, is a belief engine. From sensory data flowing in through the senses, the brain naturally begins to look for and find patterns, and then infuses those patterns with meaning. Our brains connect the dots of our world into meaningful patterns that explain why things happen, and these patterns become beliefs. Once beliefs are formed the brain begins to look for and find confirmatory evidence in support of those beliefs, which accelerates the process of reinforcing them, and round and round the process goes in a positive-feedback loop of belief confirmation. Shermer outlines the numerous cognitive tools our brains engage to reinforce our beliefs as truths. Interlaced with his theory of belief, Shermer provides countless real-world examples of how this process operates, from politics, economics, and religion to conspiracy theories, the supernatural, and the paranormal. Ultimately, he demonstrates why science is the best tool ever devised to determine whether or not a belief matches reality. "A must read for everyone who wonders why religious and political beliefs are so rigid and polarized—or why the other side is always wrong, but somehow doesn't see it." —Dr. Leonard Mlodinow, physicist and author of *The Drunkard's Walk* and *The Grand Design* (with Stephen Hawking)

The Divine Reality Hamza Andreas Tzortzis, 2019-09-30 In *The Divine Reality*, (Newly Revised Edition 2019) Hamza Andreas Tzortzis provides a compelling case for the rational and spiritual foundations of Islam, whilst intelligently and compassionately deconstructing atheism. Join him on an existential, spiritual and rational journey that articulates powerful arguments for the existence of God, the Qur'an, the Prophethood of Muhammad and why we must know, love and worship God. He addresses academic and popular objections while showing how contemporary atheism is based on false assumptions about reality, which leads to incoherent answers to life's important questions. Does hope, happiness and human value make sense without the Divine? Do we have an ultimate purpose? Can we have consciousness and rational minds without God? Did the universe come from nothing? Does evil and suffering negate Divine mercy? Has scientific progress led to the denial of God? Are revelation and prophethood myths? Is God worthy of our worship? If you want to know how the Islamic intellectual and spiritual tradition answers these questions then this is the book for you. Hamza Andreas Tzortzis's new book presents a much needed comprehensive account of Islamic theism that draws upon Western and Islamic thought. Hamza Tzortzis is an international speaker, writer and instructor. He has a PgCert and an MA in philosophy and is currently continuing his postgraduate studies in the field. Hamza has studied Islamic thought and theology under qualified scholars. He has delivered workshops and courses on topics related to Islamic thought and philosophy. Hamza has debated prominent academics and thinkers on Islam and atheism.
