His passion for knots goes back to the time when, aged 7, he was given a book with some knots in it. He has studied knots and sailors' ropework ever since. Over that time he has built up a number of recipe books containing the information required to make each item, whether it is a key fob, fender, mat or knife lanyard. Des Pawson's Knot Craft contains a selection from those recipe books, giving the reader the basic designs, illustrating which knots and sennits are used to make them. The Marvelous Pigness of Pigs Joel Salatin,2016-05-03 From Christian libertarian farmer Joel Salatin, a clarion call to readers to honor the animals and the land, and produce food based on spiritual principles. What on earth is The Marvelous Pigness of Pigs? It's an inspiring call to action for people of faith . . . a heartfelt plea to heed the Bible's guidance It's an important and thought-provoking explanation of how by simply appreciating the marvelous pigness of pigs, we are celebrating the Glory of God. As a man of deep faith and student of the Bible, and as a respected and successful ecological family farmer, Joel Salatin knows that God created heaven and earth and meant for all living organisms to be true to their nature and their endowed holy purpose. He intended for us to respect and care for His gift of creation, not to ravage and mistreat it for our own pleasure or wealth. The example that inspires the book's title explains what Salatin means: when huge corporate farms confine pigs in cramped and dark pens, inject them with antibiotics and feed them herbicide-saturated food simply to increase profits, they are not respecting them as a creation of God or allowing them to express even their most rudimentary uniqueness - that special role that is part of His design. Every living organism has a God-given uniqueness to its life that must be honored and respected, and too often that is not happening today. Salatin shows us the long overlooked ethics and instructions in the Bible for how to eat, how to shop, how to think about how we farm and feed the world. Through scripture and Biblical stories, he shows us why it's more vital than ever to look to the good book rather than corporate

America when feeding the country and your family. Salatin makes a compelling case for Christian stewardship of the earth and how it relates to every action we take regarding our food. He also opens our eyes to a common misconception many Christians may have about environmentalism: it's not a bad thing, and definitely not just the province of secular liberals; it's really a very good thing, part of heeding God's Word. With warmth and with humor, but with no less piercing criticism of the industrial food complex, Salatin brings readers on a fascinating journey of farming, food and faith. Readers will not say grace over their plates the same way ever again.
