Understanding Business Global Edition by Nickels, McHugh, and McHugh has been the number one textbook in the introduction to business market for several editions for three reasons: (1) The commitment and dedication of an author team that teaches this course and believes in the importance and power of this learning experience, (2) we listen to our customers, and (3) the quality of our supplements package. We consistently look to the experts - full-time faculty members, adjunct instructors, and of course students - to drive the decisions we make about the text itself and the ancillary package. Through focus groups, symposia, as well as extensive reviewing of both text and key ancillaries, we have heard the stories of more than 600 professors and their insights and experiences are evident on every page of the revision and in every supplement. As teachers of the course and users of their own materials, the author team is dedicated to the principles of excellence in business education. From providing the richest most current topical coverage to using dynamic pedagogy that puts students in touch with today's real business issues, to creating groundbreaking and market-defining ancillary items for professors and students alike, Understanding Business leads the way.

Marketing Management Dr. Mukul A. Burghate, Marketing management is centered on creating, planning, and implementing strategies that will help achieve wider business objectives. These business objectives can involve increasing brand awareness, boosting profits, or entering previously untapped markets. When we begin to consider the field of marketing management, it's important to look to marketing experts Philip Kotler and Kevin Lane Keller, who, in their book "Marketing Management, offer a standard marketing management definition as "the development, design, and implementation of marketing programs, processes, and activities that recognize the breadth and interdependencies of the business environment." The purpose of this Study Material is to present an introduction to the Marketing Management subject of MBA. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers.
