Sanyika Shakur

When Race Burns Class J. Sakai, Kuwasi Balagoon, 2000 An interview with J Sakai, author of *Settlers: The Mythology Of the White Proletariat*, together with 'The Continuing Appeal Of Anti-Imperialism' by the late New Afrikan anarchist Kuwasi Balagoon.

Continuity and Rupture J. Moufawad-Paul, 2016-12-09 A philosophical examination of the theoretical terrain of contemporary Maoism premised on the counter-intuitive assumption that Maoism did not emerge as a coherent theory until the end of the 1980s.

The Green Nazi J. Sakai, 2007

Looking at the White Working Class Historically David Gilbert, 2024-09-19 What is the role of the white working class in the US? Are we at the front lines of the fight against oppression, or are we capitalism's complicit foot soldiers? Are we the ultimate underdogs or dangerously unaware of our privilege? Or some combination of all and none of the above? Written in the early 1980s from prison by David Gilbert, a white activist who worked with the Weather Underground and Black Liberation Army, this pamphlet reflects on the historical race and class analyses of thinkers such as W.E.B. DuBois, J. Sakai, and Ted Allen to tease out the complexities of the contradictions of the white working class identity. Activists seeking to end white supremacy and build solidarity across race and class lines will gain valuable insight in these lessons from the radicals of the 1960s and before. Read this instead of *Hillbilly Elegy*, ugh, seriously.

Late Victorian Holocausts Mike Davis, 2002-06-17 This global environmental and political history “will redefine the way we think about the European colonial project” (Observer). “. . . sets the triumph of the late 19th-century Western imperialism in the context of catastrophic El Niño weather patterns at that time . . . groundbreaking, mind-stretching.” —The Independent Examining a series of El Niño-induced droughts and the famines that they spawned around the globe in the last third of the 19th century, Mike Davis discloses the intimate, baleful relationship between imperial arrogance and natural incident that combined to produce some of the worst tragedies in human history. *Late Victorian Holocausts* focuses on three zones of drought and subsequent famine: India, Northern China; and Northeastern Brazil. All were affected by the same global climatic factors that caused massive crop failures, and all experienced brutal famines that decimated local populations. But the effects of drought were magnified in each case because of singularly destructive policies promulgated by

different ruling elites. Davis argues that the seeds of underdevelopment in what later became known as the Third World were sown in this era of High Imperialism, as the price for capitalist modernization was paid in the currency of millions of peasants' lives.

Monster Sanyika Shakur,2007-12-01 The classic memoir of life as a Crip, written in solitary confinement: "A shockingly raw, frightening portrait of gang life in South Central Los Angeles." —Michiko Kakutani, The New York Times After pumping eight blasts from a sawed-off shotgun at a group of rival gang members, twelve-year-old Kody Scott was initiated into the L.A. gang the Crips. He quickly matured into one of the most formidable Crip combat soldiers, earning the name "Monster" for committing acts of brutal violence that repulsed even his fellow gang members. When the inevitable jail term confined him to a maximum-security cell, a complete political and personal transformation followed: from Monster to Sanyika Shakur, black nationalist, member of the New Afrikan Independence Movement, and crusader against the causes of gangsterism. In a work that has been compared to The Autobiography of Malcolm X and Eldridge Cleaver's Soul on Ice, Shakur makes palpable the despair and decay of America's inner cities and gives eloquent voice to one aspect of the black ghetto experience.

Selling Free Enterprise Elizabeth A. Fones-Wolf,1994 The post-World War II years in the United States were marked by the business community's efforts to discredit New Deal liberalism and undermine the power and legitimacy of organized labor. In Selling Free Enterprise, Elizabeth Fones-Wolf describes how conservative business leaders strove to reorient workers away from their loyalties to organized labor and government, teaching that prosperity could be achieved through reliance on individual initiative, increased productivity, and the protection of personal liberty. Based on research in a wide variety of business and labor sources, this detailed account shows how business permeated every aspect of American life, including factories, schools, churches, and community institutions.

Race Traitor Noel Ignatiev,John Garvey,2014-03-05 Race Traitor brings together voices ranging from tenured university professors to skinheads and prison inmates to discuss the white question in America. Working from the premise that the white race has been socially constructed, Race Traitor is a call for the disruption of white conformity and the formation of a New Abolitionism to dissolve it. In a time when white supremacist thinking seems to be gaining momentum, Race Traitor brings together voices ranging from tenured university professors to skinheads and prison inmates to discuss the white question in America. Through popular culture, current events, history and personal life stories, the essays analyze the forces that hold the white race together--and those that promise to tear it apart. When a critical mass of people come together who, though they look white, have ceased to act white, the white race will undergo fission and former whites will be able to take part in building a new human community.

500 Years of Indigenous Resistance (Large Print 16pt) Gord Hill,2010-07 An alternative and unorthodox view of the colonization of the Americas by Europeans is offered in this concise history. Eurocentric studies of the conquest of the

Americas present colonization as a civilizing force for good, and the native populations as primitive or worse. Colonization is seen as a mutually beneficial process, in which "civilization" was brought to the natives who in return shared their land and cultures. The opposing historical camp views colonization as a form of genocide in which the native populations were passive victims overwhelmed by European military power. In this fresh examination, an activist and historian of native descent argues that the colonial powers met resistance from the indigenous inhabitants and that these confrontations shaped the forms and extent of colonialism. This account encompasses North and South America, the development of nation-states, and the resurgence of indigenous resistance in the post-World War II era.

The Dangerous Class and Revolutionary Theory J. Sakai, 2018-02

The Continuing Appeal of Nationalism Fredy Perlman, 2016

Divided World, Divided Class Zak Cope, 2015 *Divided World Divided Class* charts the history of the 'labour aristocracy' in the capitalist world system, from its roots in colonialism to its birth and eventual maturation into a full-fledged middle class in the age of imperialism. It argues that pervasive national, racial and cultural chauvinism in the core capitalist countries is not primarily attributable to 'false class consciousness', ideological indoctrination or ignorance as much left and liberal thinking assumes. Rather, these and related forms of bigotry are concentrated expressions of the major social strata of the core capitalist nations' shared economic interest in the exploitation and repression of dependent nations. The book demonstrates not only how redistribution of income derived from super-exploitation has allowed for the amelioration of class conflict in the wealthy capitalist countries, it also shows that the exorbitant 'super-wage' paid to workers there has meant the disappearance of a domestic vehicle for socialism, an exploited working class. Rather, in its place is a deeply conservative metropolitan workforce committed to maintaining, and even extending, its privileged position through imperialism. This second edition includes new material such as data on growing inequality between the richest and poorest countries; data illustrating rising real wages in Imperial Britain; explication of the concepts of value, monopoly capital and unequal exchange and their ramifications for the global class structure; discussion of social imperialism on the left; responses to critiques surrounding the thesis of mass embourgeoisement through imperialism; as well as further information on a range of subjects.

Anatomy of a War Gabriel Kolko, 1994 Drawing on recently declassified materials, this study chronicles and analyzes the political, economic, and military history of the Vietnam War through incisive critiques of decision-making in Washington, Saigon, and Hanoi.

Reclaiming the Nation Sam Moyo, Paris Yeros, 2011-04-15 This book compares the trajectories of states and societies in Africa, Asia and Latin America under neoliberalism, a time marked by serial economic crises, escalating social conflicts, the re-militarisation of North-South relations and the radicalization of social and nationalist forces. Sam Moyo and Paris Yeros bring together researchers and activists from the three continents to assess the state of national sovereignty and the

challenges faced by popular movements today. They show that global integration has widened social and regional inequalities within countries, exacerbated ethnic, caste, and racial conflicts, and generally reduced the bureaucratic capacities of states to intervene in a defensive way. Moreover, inequalities between the countries of the South have also widened. These structural tensions have all contributed to several distinct political trajectories among states: from fracture and foreign occupation, to radicalization and uncertain re-stabilization. This book re-draws the debate on the political economy of the contemporary South and provides students of international studies with an important collection of readings.

Basic Politics of Movement Security J. Sakai, Mandy Hiscocks, 2013-09 Introducing the issues of movement security: u.s. activist and author J. Sakai & long-time Canadian organizer Mandy Hiscocks. There are many books and articles reporting state repression, but not on that subject's more intimate relative, movement security. It is general practice to only pass along knowledge about movement security privately, in closed group lectures or by personal word-of-mouth. In fact, when new activists have questions about security problems, they quickly discover that there is no *Security for Dummies* to explore the basics. Adding to the confusion, the handful of available left security texts are usually about underground or illegal groups, not the far larger public movements that work on a more or less legal level. During Montreal's 2013 Festival of Anarchy, J. Sakai gave a workshop about the politics of movement security, sharing the results of typical incidents of both the movement's successes and the movement's failures in combating the political police or state security agencies. He also discussed the nature of those state sub-cultures. This booklet contains a transcript of that talk, and of the subsequent lively question and answer period; along with several after-the-workshop observations by Sakai. As he explains, The key thing is, to start with, security is not about being macho vigilantes or having techniques of this or that. It's not some spy game. Security is about good politics. That's exactly why it's so difficult. But everyone will say that they have good politics. So this has to be broken down, this has to be explained. Which is what he does in this unusual talk. Mandy Hiscocks comes at the topic from her personal experiences organizing against the 2010 G20 Summit in Toronto. In this in-depth interview, reprinted from the radical Canadian political journal *Upping The Anti*, Hiscocks describes how her political scene and groups she worked with were infiltrated by undercover agents over a year before the summit even occurred. These police infiltrators provided information used in the prosecution of anti-Globalization organizers and participants. Hiscocks provides an honest and sobering appraisal of the practical challenge of State infiltration, and of how subsequent decisions played out in regards to the anti-G20 organizing and the repression that resulted. Hiscocks spent a year in prison as a result of these experiences, shortly after this interview was conducted.

Making and Breaking Settler Space Adam J. Barker, 2021-09-15 Five hundred years. A vast geography. And an unfinished project to remake the world to match the desires of settler colonizers. How have settlers used violence and narrative to transform Turtle Island into “North America”? What does that say about our social systems, and what happens next? Drawing on multiple disciplines, archival sources, pop culture, and personal experience, *Making and Breaking Settler Space* creates a model that shows how settler spaces have evolved. From the colonization of Turtle Island in the 1500s to problematic activist practices by would-be settler allies today, Adam Barker traces the trajectory of settler colonialism, drawing out details of its operation and unflinchingly identifying its weaknesses. *Making and Breaking Settler Space* proposes an innovative, unified spatial theory of settler colonization in Canada and the United States. In doing so, it offers a framework within which settlers can pursue decolonial actions in solidarity with Indigenous communities.

Soldier's Story Kuwasi Balagoon, 2019-05-15 Kuwasi Balagoon was a participant in the Black Liberation struggle from the 1960s until his death in prison in 1986. A member of the Black Panther Party and defendant in the infamous Panther 21 case, Balagoon went underground with the Black Liberation Army (BLA). Captured and convicted of various crimes against the State, he spent much of the 1970s in prison, escaping twice. After each escape, he went underground and resumed BLA activity. Balagoon was unusual for his time in several ways. He combined anarchism with Black nationalism, he broke the rules of sexual and political conformity that surrounded him, he took up arms against the white-supremacist state—all the while never shying away from developing his own criticisms of the weaknesses within the movements. His eloquent trial statements and political writings, as much as his poetry and excerpts from his prison letters, are all testimony to a sharp and iconoclastic revolutionary who was willing to make hard choices and fully accept the consequences. Balagoon was captured for the last time in December 1981, charged with participating in an armored truck expropriation in West Nyack, New York, an action in which two police officers and a money courier were killed. Convicted and sentenced to life imprisonment, he died of an AIDS-related illness on December 13, 1986. The first part of this book consists of contributions by those who knew or were touched by Balagoon. The second section consists of court statements and essays by Balagoon himself, including several documents that were absent from previous editions and have never been published before. The third consists of excerpts from letters Balagoon wrote from prison. A final fourth section consists of a historical essay by Akinyele Umoja and an extensive intergenerational roundtable discussion of the significance of Balagoon’s life and thoughts today.
