*The Four Wise Men* Michel Tournier,1997-09-24 This may be more than a novel of high achievement, in fact; it may be the best work so far of a truly daring writer.—America Displaying his characteristic penchant for the macabre, the tender and the comic, Michael Tournier presents the traditional Magi describing their personal odysseys to Bethlehem—and audaciously imagines a fourth, the eternal latecomer' whose story of hardship and redemption is the most moving and instructive of all. Prince of Mangalore and son of an Indian maharajah, Taor has tasted an exquisite confection, rachat loukoum, and is so taken by the flavor that he sets out to recover the recipe. His quest takes him across Western Asia and finally lands him in Sodom, where he is imprisoned in a salt mine. There, this fourth wise man learns the recipe from a fellow prisoner, and learns of the existence and meaning of Jesus.

**Illustrated Guide to Home Chemistry Experiments** Robert Bruce Thompson,2012-02-17 For students, DIY hobbyists, and science buffs, who can no longer get real chemistry sets, this one-of-a-kind guide explains how to set up and use a home chemistry lab, with step-by-step instructions for conducting experiments in basic chemistry -- not just to make pretty colors and stinky smells, but to learn how to do real lab work: Purify alcohol by distillation Produce hydrogen and oxygen gas by electrolysis Smelt metallic copper from copper ore you make yourself Analyze the makeup of seawater, bone, and other

common substances Synthesize oil of wintergreen from aspirin and rayon fiber from paper Perform forensics tests for fingerprints, blood, drugs, and poisons and much more From the 1930s through the 1970s, chemistry sets were among the most popular Christmas gifts, selling in the millions. But two decades ago, real chemistry sets began to disappear as manufacturers and retailers became concerned about liability. *The Illustrated Guide to Home Chemistry Experiments* steps up to the plate with lessons on how to equip your home chemistry lab, master laboratory skills, and work safely in your lab. The bulk of this book consists of 17 hands-on chapters that include multiple laboratory sessions on the following topics: Separating Mixtures Solubility and Solutions Colligative Properties of Solutions Introduction to Chemical Reactions & Stoichiometry Reduction-Oxidation (Redox) Reactions Acid-Base Chemistry Chemical Kinetics Chemical Equilibrium and Le Chatelier's Principle Gas Chemistry Thermochemistry and Calorimetry Electrochemistry Photochemistry Colloids and Suspensions Qualitative Analysis Quantitative Analysis Synthesis of Useful Compounds Forensic Chemistry With plenty of full-color illustrations and photos, *Illustrated Guide to Home Chemistry Experiments* offers introductory level sessions suitable for a middle school or first-year high school chemistry laboratory course, and more advanced sessions suitable for students who intend to take the College Board Advanced Placement (AP) Chemistry exam. A student who completes all of the laboratories in this book will have done the equivalent of two full years of high school chemistry lab work or a first-year college general chemistry laboratory course. This hands-on introduction to real chemistry -- using real equipment, real chemicals, and real quantitative experiments -- is ideal for the many thousands of young people and adults who want to experience the magic of chemistry.

**Hedgehog's Home** Branko Copic, 2017-12 Welcome to the world of Hedgemond the Hunter, a brave and stubborn little hedgehog. Down in the wild woods he proudly tends his beloved house, but there are some animals who just can't understand what the fuss is about! Find out just how Hedgemond proves to the grumpy bear and the greedy boar that there truly is no place like home. *Hedgehog's House* is a story about caring for your natural habitat. Set in the unspoiled environment of the forest, we find the wild creatures arguing about what home means: is it simply a place we should take for granted, or is it something to be cherished and protected? Despite the persuasions of charming Miss Fox and the jeers of the angry wolf, Hedgemond steadfastly proves that his home is his castle, reminding us all that we each need to care for the places we live.

Cognitive Linguistics and Translation Ana Rojo, Iraide Ibarretxe-Antuñano, 2013-07-15 The papers compiled in the present volume aim at investigating the many fruitful manners in which cognitive linguistics can expand further on cognitive translation studies. Some papers (e.g. Halverson, Muñoz-Martín, Martín de León) take a theoretical stand, since the epistemological and ontological bases of both areas (cognitive linguistics and translation studies) should be known before specific contributions of cognitive linguistics to translation are tackled. Several works in the volume attempt to illustrate how some of the notions imported from cognitive linguistics may contribute to enrich our understanding of the translation process in a general translation problem such as metaphor (e.g. Samaniego), the relationship between form and meaning (e.g. Tabakowska, Rojo and Valenzuela) or cultural aspects (e.g. Bernárdez, Sharifian/Jamarani). Others use translation as an empirical field to test some of the basic assumptions of cognitive linguistics such as frames (e.g. Boas), metonymy (e.g. Brdar/Brdar-Szabó), and lexicalisation patterns (e.g. Ibarretxe-Antuñano/Filipovi?). Finally, another set of papers (e.g. Feist, Hatzidaki) opens up new lines of investigation for experimental research, a very promising area still underdeveloped.

Using Online Dictionaries Carolin Müller-Spitzer, 2014-02-27 Until now, there has been very little research into the use of online dictionaries. In contrast, the market for online dictionaries is increasing both for academic lexicography and for commercial lexicography, with sales figures for printed reference works in continual decline. This has led to a demand for reliable empirical information on how online dictionaries are actually being used and how they could be made more user-friendly. The volume *Using Online Dictionaries* makes a substantial contribution to closing this research gap. It is divided into four parts: The first part contains articles on fundamental issues: a research review of the empirical studies on digital dictionaries which have already been carried out, and a brief methodological guideline for lexicographical researchers who

are interested in conducting their own empirical research. The second part contains the results of two studies that focus on general questions about the use of online dictionaries. It presents empirical data on contexts of dictionary use, on expectations and demands regarding online dictionaries. Furthermore, innovative features, such as the use of multimedia elements or the option of a user-adaptive interface and questions of design were assessed empirically. The third part of this volume comprises more specific studies of online dictionaries: an eye-tracking study evaluating the new web design of the dictionary portal OWID and a log file study which tries to get to the bottom of the following question: Do dictionary users look up frequent words, or put differently, is there a connection between how often a word is looked up and how often it appears in a corpus? In the last chapter of this thematic section, the question of how users judge the combination of a written paraphrase and an additional illustration in illustrated online dictionaries is addressed. The last part focuses on the use of monolingual dictionaries, in particular the German online dictionary *elexico*. In this context, two online questionnaire-based studies were carried out. The empirical studies were conducted in the form of online surveys combining questionnaires and experimental elements and in the form of laboratory studies using eye-tracking technology as well as using observational methods such as log file analyses. Regarding the comprehensive research framework, this volume can be relevant to lexicographers, metalexigraphers and linguists who are interested in the use of (online) dictionaries and in the development and exploration of lexicographical data for the internet, as well as linguists interested in empirical methods. It addresses a broad expert audience by presenting an academic subject which is currently the focus of much discussion.
