*Revolutionary Warfare* Terrence G. Peterson, 2024-09-15 *Revolutionary Warfare* investigates how efforts to counter a revolution could also be revolutionary. The Algerian War fractured the French Empire, destroyed the legitimacy of colonial rule, and helped launch the Third Worldist movement for the liberation of the Global South. By tracing how French generals, officers, and civil officials sought to counter Algerian independence with their own project of radical social transformation, Terrence G. Peterson reveals that the conflict also helped to transform the nature of modern warfare. The French war effort was never defined solely by repression. As Peterson details, it also sought to fashion new forms of surveillance and social control that could capture the loyalty of Algerians and transform Algerian society. Hygiene and medical aid efforts, youth sports and education programs, and psychological warfare campaigns all attempted to remake Algerian social structures and bind them more closely to the French state. In tracing the emergence of such programs, Peterson reframes the French war effort as a project of armed social reform that sought not to preserve colonial rule unchanged, but to revolutionize it in order to preserve it against the global challenges of decolonization. *Revolutionary Warfare* demonstrates how French officers' efforts to transform warfare into an exercise in social engineering not only shaped how the Algerian War unfolded from its earliest months, but also helped to forge a paradigm of warfare that dominated strategic thinking during the Cold War and after: counterinsurgency.

**Histories of Women's Work in Global Sport** Georgia Cervin, Claire Nicolas, 2019-11-29 Sport has never been a man's world. As this volume shows, women have served key roles not only as athletes and spectators, but as administrators, workers, decision-makers, and leaders in sporting organizations around the world. Contributors excavate scarce archival material to uncover histories of women's work in sport, from swimming teachers in nineteenth-century England to national sports administrators in twentieth-century Côte d'Ivoire, and many places in between. Their work has been varied, holding roles as teachers, wives, and secretaries in sporting contexts around the world, often with diplomatic functions—including at the 1968 and 1992 Olympic Games. Finally, this collection shows how gender initiatives have developed in sporting institutions in Europe and international sport federations today. With a foreword by Grégory Quin and afterword by Anaïs Bohuon, this is a pioneering study into gender and women's work in global sport.

**The Chigorin Defence: Move by Move** Jimmy Liew,2018-12-01 The Chigorin Defence (1 d4 d5 2 c4 Nc6) is a dynamic and provocative response to White's 1 d4. Rather than set out a defensive stall with systems based on moves such as ...e6 and ...c6, Black prefers to initiative immediate piece play in the centre. The benefits of this strategy are that Black's queenside pieces, which are often difficult to develop in the Queen's Gambit, participate in the struggle at once. The queen's knight emerges immediately onto an active square and the path is left free for the c8-bishop to develop freely. Naturally there are also drawbacks as Black will not find it easy to establish a foothold in the centre in the early play. The Chigorin is a perfect counterattacking weapon and will appeal to players who like to throw opponents onto their own resources at an early stage. Jimmy Liew identifies and analyses the precise moments when specific theoretical knowledge is required and also discussed plans and strategies in the quieter variations. \* Everything you need to know to play the Chigorin with confidence \* Emphasis on plans and strategies \* Written by an expert in the opening

*Reinventing Education: Beyond the Knowledge Economy* Alan Watkins,Matt Silver,2025-02-06 The need for change in the education system is obvious and overwhelming. But each stakeholder group has its own ideas about why the system is broken and how to fix it. Competing priorities, political inertia and diminishing budgets maintain the dysfunctional status quo. This essential text examines the underlying causes behind the key challenges facing schools and argues that we need to move from knowledge transfer systems to a deliberately developmental approach that transforms capabilities including emotional regulation, systems thinking, critical analysis, creativity and collaborative capability. The chapters provide a framework for designing, constructing and implementing school systems that can transform the outcome in a classroom, school or trust. Topics covered include: Why education is a 'wicked' problem Why development must be central and sit alongside knowledge transfer (as AI takes over 'expertise') How motivation and value systems evolve and are key to change How to drive behaviour change to transform outcomes What human-centred means now in a reinvented system Offering much-needed insights, guidance and solutions for teachers, school leaders and policy-makers, this book will be valuable reading for all those interested in school improvement and education policy.

**Skills in Transactional Analysis Counselling & Psychotherapy** Christine Lister-Ford, 2002-07-24 'An important book that deserves reading by both trainees and experienced therapists of all approaches and models' - Counsellingbooks.com Skills in Transactional Analysis Counselling & Psychotherapy is a practical introduction to a uniquely comprehensive therapeutic approach, which combines theories of the mind, emotions, behaviour and bodily experience. Following the typical pattern of working with a client, the book describes the key features of Transactional Analysis (TA) and its basic building blocks - ego states, transactions, games and scripts. Each concept or technique is introduced at the stage in the counselling process at which it is required. Backed up by exercises, this enables readers to build their knowledge and skills base in tandem with their understanding of the counselling process itself. Part One focuses on the development of the therapeutic alliance between therapist and client and gives guidance on how to create structures in which the work can begin. Part Two explains how to build the client's awareness with the aim of strengthening their capacity to think more clearly and solve problems. Part Three looks at deepening the work with the client by helping them to discover the history behind the problems and make contact with their inner child. Part Four explores how to enable the client to move toward personal autonomy through integrating and synthesizing the work undertaken with the counsellor. This book vividly demonstrates the art of TA practice, considering fully the experience of both the counsellor and the client. For all those training in TA, this will be essential reading.

**Leadership, Coaching and Followership** Ann M. Brewer,2013-09-14 This volume presents evidence-based ideas on all three converging forces to suit an array of individuals and their organisations. The volume is thick with evidence, detail and case studies that the reader can draw upon and apply to their own situations. Defining exactly what is leadership has been a persistent problem for researchers and theorists. Discovering how to create or produce leaders likewise has been a difficult challenge over the years. Written by an academic, executive and coach, the author focuses on three important converging aspects: leadership, followership and coaching. Focus on leaders is disproportionate to what actually occurs within most organisations especially the relationship between the leader and the followers. That leadership is tantamount with being in control of a situation is challenged, together with the belief that leadership capability is primarily shaped in line with a set of success criteria. The coach plays a significant part in this process although rarely visible.

*When The Green Flag Drops* Rod Koch, 2011-01-31 Ride once again with the author, Rod Koch, and share his adventures as he struggles to gain another victory in the epic Baja 1000. His first autobiography, *7 Years from Start to Finish*, covered the early years of the Baja races from 1968-1975, up to the moment when the author became a first place winner in that incredible endurance race down and around the Baja California peninsula. When *The Green Flag Drops* continues those adventures in off-road racing through the 1980s not just in Baja, but back in the U. S. A. with events like the Parker 400, Casinos 350, Mint 400 and the Riverside Off-Road Championships. The author then makes the transition into the intensity of the Pro-Rally race scene, bringing the reader along with him as he takes on some of the best and fastest off-road and performance rally drivers in North America. The action streaks across the High Sierras from San Francisco to Reno, from Las Vegas to Laughlin, Nevada, from Carson City to Virginia City to Yerington, through the rain, mud, snow, even the heat of the Mojave Desert near Palm Springs and east of Indio, wherever the dirt mountain and desert roads of the performance and Pro-Rally circuit goes. You are there with the author in the co-driver's seat for what may be the ride of your life—if you dare.

Nation-building and Identity Conflicts Ariel Hernandez, 2014-07-08 Ending identity conflicts through negotiated agreements is an intractable process that is embedded complexly in the nation-building process. Ariel Hernandez looks on the complexity of the nation-building process in the Philippines and how its social and political context constrains the achievement of a peace agreement that would withhold new challenges as the process unfolds. Mediation as one of the possible modes of intervention to resolve identity conflicts is taken as the self-evident instrument to end the 40 year old conflict between the Filipino society at large and the Bangsamoro. The analysis confirms that mediation and other types of intervention are contributing to the intractability of identity conflicts by bringing in further complexities in the negotiation process. The conceptualization of “stumbling blocks” may provide knowledge based resources to develop strategies to

“facilitate” the mediation process that allows negotiating parties to cope with the complexity of the bargaining table.
