Readings in Her Story Barbara J. MacHaffie, A unique anthology. Barbara MacHaffie has collected into one volume 74 of the most important Christian documents and passages by and about women. Ranging from Genesis to now, these primary sources put the reader directly in touch with the most significant and influential events, personalities and issues of women's religious history. Often lamentably and sometimes gloriously, these voices—ancient and modern, female and male, Roman Catholic and Protestant, feminist and patriarchal—bear decisively on women's identities today.

Sapphistries Leila J. Rupp, 2011-01-28 A lyrical and meticulously researched mapping of the ways in which diverse societies have shaped female same-sex sexuality across time and geography From the ancient poet Sappho to tomboys in contemporary Indonesia, women throughout history and around the globe have desired, loved, and had sex with other women. In beautiful prose, Sapphistries tells their stories, capturing the multitude of ways that diverse societies have shaped female same-sex sexuality across time and place. Leila J. Rupp reveals how, from the time of the very earliest societies, the

possibility of love between women has been known, even when it is feared, ignored, or denied. We hear women in the sex-segregated spaces of convents and harems whispering words of love. We see women beginning to find each other on the streets of London and Amsterdam, in the aristocratic circles of Paris, in the factories of Shanghai. We find women's desire and love for women meeting the light of day as Japanese schoolgirls fall in love, and lesbian bars and clubs spread from 1920s Berlin to 1950s Buffalo. And we encounter a world of difference in the twenty-first century, as transnational concepts and lesbian identities meet local understandings of how two women might love each other. Giving voice to words from the mouths and pens of women, and from men's prohibitions, reports, literature, art, imaginings, pornography, and court cases, Rupp also creatively employs fiction to imagine possibilities when there is no historical evidence. *Sapphistries* combines lyrical narrative with meticulous historical research, providing an eminently readable and uniquely sweeping story of desire, love, and sex between women around the globe from the beginning of time to the present.

Tim's Story Brian Buckley, 2022-09-23 Courage. Heroism. Endurance. These qualities are emblematic of the stories of thousands of Canadians who fought during World War II. Canadians like Tim Carlon, a young Montrealer who went off to war, doing his part in a global struggle whose legacy remains as relevant as ever eight decades later. *Tim's Story: A Canadian Airman in World War II*, is a tale of an airman who was decorated for gallantry in 1942, only to be wounded and shot down over Germany the following year. He spent over two years in POW camps and survived two forced marches in 1945 before the war finally ended. But Tim's sacrifice didn't end when he came home. A war-related illness claimed his life a few years after he returned to Canada. Brian Buckley (whose wife is Tim Carlon's niece) wrote this account to preserve the memory of a brave young man, one of Canada's many heroes whose stories and legacies deserve to be remembered. A tribute to all those who served, *Tim's Story* also aims to deepen Canadians' collective understanding of our country's role in a conflict that largely shaped the modern world.

Historical Dictionary of Science Fiction in Literature M. Keith Booker, 2014-10-01 *The Historical Dictionary of*

Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature. Science fiction literature has gained immensely in critical respect and attention, while maintaining a broad readership. However, despite the fact that it is a rapidly changing field, contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past, which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years. The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries including significant people; themes; critical issues; and the most significant genres that have formed science fiction literature. This book is an excellent access point for students, researchers, and anyone wanting to know more about this subject.

African Youth in Contemporary Literature and Popular Culture Vivian Yenika-Agbaw, Linda Mhando, 2014-01-21 This book explores how African youth are depicted in contemporary literature and popular culture, and discusses the different ways by which they attempt to construct personal and cultural identities through popular culture and social media outlets.

The contributors approach the subject from an interdisciplinary perspective, looking at images in children's and adolescent literature from Africa, and the African diaspora, from Nollywood and Hollywood movies, from popular magazines, and from youth cultures encountered directly through field experiences. The findings reveal that there are many stereotypes about Africa, African youth and black cultures, and that African youth are aware of these. Since they juggle multiple identities shaped by their ethnicities, race and religion, it is often a challenge for them to define themselves. As they also share a global youth culture that transcends these cultural markers, some take advantage of media outlets to voice their concerns and participate in political struggles. Others simply use these to promote their personal interests. Contributors ponder the challenges involved in constructing unique identities, offering ideas on how African youth are doing so successfully or not in different parts of the continent and the African diaspora, and thus offer new possibilities for youth studies.
